INDIAN FOREST SERVICE.

Regulations as to the appointment of Probationers, 1916.

1. *Appointments.*—In making appointments, the Secretary of State for India in Council will act with the advice of a Selection Committee.

2. *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S. W., and to be returned to him not later than **Saturday, the 1st July 1916.** Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3. *Age Limit.*—Candidates must, save as provided in Appendix I, be not less than 19 but under 22 years of age on the 1st January 1916.

4. *Nationality, &c.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5. *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of National Science* in a University of England, Wales or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

NOTE.—Applications for appointment will be accepted from candidates who on the 1st July 1916 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix II.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (*see* Appendix VII).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required:—

(*i*) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at one of the Universities named in the margin;

Oxford, Cambridge, or Edinburgh

(*ii*) to have undergone a special course of instruction in Forestry under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose;

(*iii*) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language;

(*iv*) to have undergone a final competitive examination in Forestry (*see* Appendix III);

(*v*) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges.*—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University, and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10. *Allowances.*—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science

total of 240*l.* (besides the fees to local officers mentioned above). These payments will ordinarily be made on the following dates in each year:—

	£
On the 1st December	30
On the 1st March	30
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions:—

(*a*) that the progress of the probationer in his studies is satisfactory;

(*b*) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the peroid of probation

11. *Conduct.*—Every probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of probationers.

12. *Appointment and Seniority.*—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the Provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies; but in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State. Failure to embark at the stated time will, in the abscence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage to India.*—Each probationer on appointment to the Indian Forest Service will be provided with a free first-class passage to India.

15. *Salary.*—An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 301*l.* a year, when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension, and Provident Fund.*—Promotion, leave, and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix IV; a summary of information regarding leave is contained in Appendix V; and regarding Pensions and the Provident Fund in Appendix VI.

INDIA OFFICE,
January 1916.

APPENDICES.

APPENDIX I.—DEDUCTIONS FROM AGE IN RESPECT OF MILITARY SERVICE.

1. Any person who has joined since the 4th August 1914, or may join during the present war, the Army or Navy or Royal Marines, or has rendered or may render during the same period actual military service in the Special Reserve or Territorial Force, Royal Naval Reserve or Royal Naval Volunteer Reserve, may, if eligible in point of age under the Regulations as they now stand for admission to the competition held in 1915, 1916, or 1917 (but over age in 1916, 1917, or 1918 respectively), deduct from his actual age at the time of the competition held in 1916, 1917, or 1918, as the case may be :—

(*a*) The actual period of such service, if it has not exceeded three months.

(*b*) One year, if the actual period of service has exceeded three months. No candidate will be allowed to deduct more than one year from his actual age.

2. The same concession may also be granted to those who have been employed during the same period in connection with the armed forces of the Crown at home or abroad giving their whole time and under obligation to serve for the duration of the war or until their discharge, or for any period not terminable at their own option, provided that their employment be not on ordinary commercial terms, such as that of Assistant Paymasters, clerks, artisans, and the like.

3. The grant of the concession described in paragraph (2) will be at the discretion of the Secretary of State for India in Council, whose decision in each case will be final. Candidates who contemplate applying for an age deduction under (2) will do well to apply to the India Office for a ruling on their case.

4. Candidates to be eligible for the concessions in (1) or (2) must furnish an official certificate of the period and satisfactory character of their service, and if any doubt arise whether the service of any candidate is of the kind contemplated by this Notice, the Secretary of State for India in Council reserves the right to decide the case upon its merits.

APPENDIX II.—COMPETITIVE EXAMINATION.

In the event of the Civil Service Commissioners being requested by the Secretary of State for India in Council to hold an examination in any year of candidates nominated by him to compete for appointment as Probationers for the above Service, the following will be the subjects in which such candidates will be examined :—

	Maximum marks.		Maximum marks.
1. English Composition ...	100	5. Physics	100
2. German *or* French ...	100	6. Geology	100
3. Elementary Chemistry	50	7. Botany	100
4. Higher Chemistry ...	100	8. Zoology	100

Not more than three of the subjects numbered 4 to 8 may be offered.

Candidates must pass to the satisfaction of the Civil Service Commissioners in the first three subjects.

In the subjects numbered 4 to 8, only marks showing real attainment will be counted towards the order of merit, so that a candidate who has a thorough knowledge of one or two of the optional subjects may obtain on that knowledge alone as many marks as a candidate who offers the maximum number of the optional subjects on a lower standard.

SYLLABUS.

Languages.—The examination in German and French will include translation, composition, and conversation.

Sciences.—The standard of the examination in Higher Chemistry, Physics, Geology, Botany, and Zoology will be that of the Honours Schools of the Universities.

The examination in Elementary Chemistry will consist of a written paper on the more elementary parts of Inorganic Chemistry, together with the outlines of Organic Chemistry.

APPENDIX III.—FINAL EXAMINATION.

1. With a view to the allocation of the annual Currie Scholarship for Indian Forest Students (value about 35*l.*), and to facilitate the allotment of probationers to the several provinces in accordance with paragraph 12 of the Regulations as to appointments in the Indian Forest Service, probationers who have completed their prescribed course of training will be required to undergo a competitive final examination in Forestry.

2. A list of the probationers in order of merit will be prepared by adding together (*a*) the marks obtained at the final examination, and (*b*) the marks obtained during the course of practical training in forestry under the control of the Director of Indian Forest Studies. The maximum of marks obtainable under (*a*) will be the same as under (*b*).

3. The final examination will consist of an oral examination and three or more papers, as follows :—

(*i*) One or more papers in Sylviculture, Forest Protection (including Forest Botany and Forest Entomology), and Forest Utilisation (including Forest Engineering).

(*ii*) One or more papers in Forest Management, Forest Mensuration, Forest Valuation, and Forest Administration.

(*iii*) A paper in General Forestry (Practical) dealing with the work done and with the forests visited during the course of practical training.

4. The final examination will be held at the beginning of October. Arrangements as to the date and place of examination will be made by the Director of Indian Forest Studies. Probationers will not be required to pay any fee for the examination.

APPENDIX IV.—LIST OF APPOINTMENTS OPEN TO MEMBERS OF THE IMPERIAL BRANCH OF THE INDIAN FOREST SERVICE.

NOTE.—*This list is liable to alteration at any time.*

(*d*)	22 Conservators, in three grades (including President, Forest Research Institute and College.	1,900 „ / 1,700 „ / 1,500 „ } respectively.
(*e*)	208 Deputy and Assistant Conservators	‡ Rs. 380 a month, rising by annual increments of Rs. 40 a month to Rs. 700 a month; thereafter, by annual increments of Rs. 50 a month to Rs. 1,250 a month, in the twentieth year of service.
Total	236†	
These appointments are included in (*d*) and (*e*).	5 Foreign Service appointments	
	§12 Officers employed at the Forest Research Institute and College, Dehra Dun.	

*The officer holding this appointment draws in addition to the pay of his grade a minimum local allowance of Rs 200 a month.

†These appointments are allotted to the various provinces as follows:—Burma, 66; Madras, 32; Bombay, 28; Central Provinces, 21; United Provinces, 30; Punjab, 12; Bengal, 12; Assam, 18; and Bihar and Orissa, 8; and 4 Imperial Instructors and 2 Assistants at Dehra Dun.

‡Until he has passed the prescribed Departmental examinations, an Assistant Conservator is liable to stoppage of increments of pay On passing the examinations he will resume drawing pay under the time scale at the rate to which his length of service entitles him.

§Of these officers, the President, Forest Research Institute and College, draws a local allowance of Rs. 200 a month in addition to his grade pay; nine of the remainder draw a local allowance of Rs. 150 a month, and two a local allowance of Rs. 100 a month, in addition to their grade pay Of these 12 appointments, the four posts of Imperial Instructors have been sanctioned for five years from 1912 for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

APPENDIX V.

[NOTE.—Appendices V and VI are intended merely to show the principal leave and pension rules in the Civil Service Regulations at present applicable to officers appointed to the Indian Forest Service by the Secretary of State from the United Kingdom, without going into minute details, and do not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorized text of the Civil Service Regulations for the time being.]

LEAVE.

Long Leave.

1. Furlough and special leave with allowances (*see* paragraph 5) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

2. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (*b*) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

4. The allowances admissible during furlough are:—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.

(2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

Short Leave.

6. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary Leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short Leave is also granted to enable officers to appear at examinations, etc.

9. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1*s.* 6*d.* to the rupee. Privilege Leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1*s.* 4*d.* to the rupee.

APPENDIX VI.

(*See Note under Appendix V.*)

PENSIONS AND PROVIDENT FUND.

1. An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. If at an earlier date he is compelled to retire from the service through ill-health, not occasioned by irregular or intemperate habits, he becomes eligible for an invalid pension or a gratuity according to the length of his service.

The amount of pension or gratuity is regulated as follows :—

After a service of less than 10 years, an invalid gratuity not exceeding one month's emoluments for each completed year of service.

After a service of not less than 10 years an invalid pension not exceeding the following amounts :—

Years of Completed Service	Maximum Limit of Pension
10	Rs. 1,000 a year.
11	1,400 ,,
12	1,800 ,,
13	2,200 ,,
14	2,600 ,,
15, 16, 17, 18, 19	3,000 ,,

After a service of not less than 20 years, a retiring pension not exceeding the following amounts:—

Years of Completed Service	Scale of Pensions. Sixtieths of Average Emoluments	Maximum Limit of Pension
20 to 24	30	Rs. 4,000 a year.
25 and above	30	5,000 ,,

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in countries where the Indian rupee is not legal tender at the rate of exchange of 1*s.* 9*d.* the rupee.

2. A General Provident Fund has also been established on the following basis :—

(*a*) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 9⅜ per cent. Subscriptions on leave of any kind are optional.

(*b*) Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.

(*c*) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

(*d*) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (*a*).

APPENDIX VII.

GENERAL PHYSICAL REQUIREMENTS.

[*Note*.—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age	Height without Shoes.	Chest.	
		Girth when expanded	Range of Expansion.
	Inches.	Inches.	Inches.
19 to 20 ...	62½ and under 65	35	2
	65 „ 68	35	2
	68 „ 70	35½	2
	70 „ 72	36	2
	72 and upwards	36½	2½
21 and upwards ...	62½ and under 65	35	2
	65 „ 68	35½	2
	68 „ 70	36	2
	70 „ 72	36½	2½
	72 and upwards	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. No fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, the posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is

carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to his utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, if they wish it, undergo a preliminary examination as to their physical fitness by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(*a*) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas.

(*b*) Candidates must pay their travelling expenses.

(*c*) It must be understood that the opinion of the Medical Board, which will be communicated by the Board to the candidate at the end of the examination, is solely for the candidate's own information and is not an official finding. The Board, if they consider a candidate unfit, will exercise their discretion as to informing him of the particular grounds on which their opinion is based. No further information can in any case be given as to the Medical Board's opinion which will be confined solely to the physical fitness of the candiadte; and any question as to the eligibility of the candidate, if found physically fit, to be admitted to the particular Indian service which he desires to enter, should be addressed in writing to the Under Secretary of State.

(*d*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board prior to their appointment.

(*e*) As the preliminary examination by the Medical Board is held solely for the candidate's information, a candidate who is informed after such an examination that he is physically fit will have on that account no claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION FOR THE INDIAN FOREST SERVICE.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2·5 D, and if with correcting glasses, not exceeding 2·5 D, the acuteness of vision in one eye equals $\frac{6}{6}$ and in the other $\frac{6}{9}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service, provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed—2·5 D, the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other eye $\frac{6}{9}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{9}$, and in the other eye equals $\frac{6}{6}$ with + 4 D or any lower power.

4. Hypermetropic astigmatism does not disqualify a candidate for the service, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{9}$ and of the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in the above rules, may exclude a candidate for admission into the service.

6. Squint, or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

IRRIGATION DEPARTMENT.

[Fifth publication.]

The 22nd February 1916.

No. 4.—Notification.—The following draft of rules which, in exercise of the powers conferred by section 90 of the Bengal Embankment Act, 1882 (Bengal Act II of 1882), and in supersession of Notification No. 108, dated the 26th February 1884 (published at pages 399-400 of the *Calcutta Gazette* of the 27th *idem*), as amended by Notification No. 11, dated the 16th November 1908, the Governor in Council intends to make for carrying out the provisions of the said Act, is published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 25th March 1916, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

Draft Rules.

1. All estimates for works or repairs or for maintenance of public embankments which are prepared under section 7 or section 47 of the Bengal Embankment Act, 1882 (Bengal Act II of 1882), shall include the estimated cost of all petty establishment employed for watching or guarding embankments and for working sluices.

2. (*1*) Such estimates shall also include such charges for directing and supervising establishment and for the use of tools and plant as may be directed by the Governor in Council from time to time.

(*2*) The said charges shall not exceed in all 26 *per cent.* on the estimated outlay on the works or repairs, exclusive of charges for the acquisition of land or for petty establishment. The charge for supervising establishment and tools and plant shall ordinarily be a consolidated one of 10 *per cent.* on the outlay on the works (excluding land and petty establishment), but if in any particular case it is desired to make a higher charge or to reduce or remit the charge altogether, a reference must be made to Government at the time when the estimate is prepared.

3. The Collector shall, previous to submitting a report to the Commissioner under section 11, 19 or 43 of the Act, obtain the written opinion of the Superintending Engineer, which shall form part of the record of proceedings in the case.

No notices regarding new works, the estimated cost of which exceeds Rs. 2,500, shall be published under section 9 of the Act, until the estimates, specifications and plans have received the approval of the Chief Engineer.

4. No estimate referred to in section 49 of the Act shall be transmitted to the Collector, until it has been countersigned by the Superintending Engineer, who shall be responsible that the repairs proposed to be executed are necessary, that it is proposed to execute them in the proper manner and that the rates entered in the estimate are fair and reasonable.

5. The Superintending Engineer shall, on the requisition of the Collector, furnish a written opinion on any work which it is proposed to execute under the Act, causing all necessary surveys to be made.

6. Where the Collector, under the last preceding rule, requires surveys to be made, he shall either cause the estimated cost of the same to be paid to the Engineer, or procure sanction, under the ordinary rules for the disbursement of public money, to the proposed expenditure. Such deposit or sanction shall provide for the salaries and allowances of the Engineers and Surveyors intended to be employed.

7. The Superintending Engineer shall, in any enquiry under section 51 of the Act, on receiving a requisition to that effect from the Collector, give his written opinion as to the boundaries of the lands affected by such works or repairs, and the extent to which they have been benefited or affected. This opinion shall form part of the record of proceedings in the case.

8. Notwithstanding that there is no express mention in section 52 of the Act of objections preferred before the Collector to the Engineer's

accounts and certificate of expenses, on the ground that certain lands are not benefited by the works or repairs as specified in such certificate, the Collector shall entertain and consider such objections. As the disposal of such objections will often depend on professional enquiries, the Collector shall ordinarily consult the Engineer and, if necessary, the Superintending Engineer, before passing orders, and the substance of the reference to the Engineer, and of his reply shall form part of the record.

If, on such objection the Collector shall come to the conclusion that any alteration should be made in the certificate which has been signed by the Engineer, under section 51, he may at any time, before making an order charging or apportioning the amount under section 58 of the Act, make such alteration as provided in section 52.

9. When it appears likely that the ordinary procedure under the Act would be attended with grave and imminent danger to life and property, and proceedings are taken by the Collector, under section 25 of the Act, or by the Engineer, under section 29, the Collector shall make an immediate report to the Commissioner, and forward a copy thereof to the Superintending Engineer. In such cases the Commissioner shall lose no time in submitting a copy of the said report, with his opinion thereon, for the orders of Government.

10. All orders passed under section 31 of the Act shall be in writing, and the applicant shall be entitled to receive a copy of the same, free of charge, on application. The Engineer shall delegate to all Public Works Subdivisional Officers the power of receiving applications, under section 31 of the Act, for temporary roadways and temporary water-courses, but no person so appointed shall pass an order for the construction of a temporary water-course, unless he has been specially authorised to do so by the Superintending Engineer. Such authority shall specify the embankments in regard to which only this power is to be exercised. In all cases where an application for a temporary water-course is made to a person appointed by the Engineer, such application shall be submitted to the Engineer for transmission to the Collector. The Engineer, in forwarding applications under this section to the Collector, shall state in writing whether, in his opinion, they can be sanctioned without endangering the safety of the embankment.

11. All Public Works Subdivisional Officers shall be authorised to open or shut sluices under general rules to be issued by the Engineer, with the approval of the Collector. A copy of all rules made under this section shall be transmitted to the Superintending Engineer.

12. Any order to remove an embankment or obstruction, or to repair damage, passed under section 79 of the Act, shall be appealable to the Court to which an appeal ordinarily lies from the decision of the Magistrate who passes the order.

13. The Engineer shall submit to Government, through the Superintending Engineer, an annual report on the state of each Schedule D embankment in his charge on the 1st of April of each year. The report shall contain the following particulars:—

(*a*) the original length of the embankment;
(*b*) the length as maintained during the year;
(*c*) the area it protects;
(*d*) the floods during the year;
(*e*) how the embankment was affected by the floods of the year;
(*f*) the cost of its upkeep;
(*g*) whether there has been any encroachment on embankment land during the year; if in the affirmative, what steps have been taken to bring the offender to justice;
(*h*) if the crest of the embankment is sufficiently high to protect the lands within from floods in the river.

14. The Engineer in charge shall submit to Government annually, through the Superintending Engineer, a report with plans shewing what embankments, if any, have been erected or added to within any tract included in a prohibitory notification issued under section 6 of the Act.

(*c*) All male candidates must forward to the undersigned an examination fee of Rs. 5, at least one week before the commencement of examination; a fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate, who, after payment of the fee, is unable, through illness, to attend the examination, will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE Women candidates are examined free of charge

(*d*) The students of the compounder class of the Medical Schools at the end of the one year of study and the students of the Licentiate class of these schools, on the completion of their second year's course, will be allowed to appear at an optional examination, to be conducted by the Committee of Examiners notified above—in minor bandaging, preparation of antiseptic lotions and dressings, sterilization of dressings and instruments, and in all the minor duties of hospital work. No additional fee shall be charged for this optional examination.

This examination is also open to persons qualified for admission to the examination prescribed under the Rules for the grant of certificates to compounders, on production of a certificate that they have received instruction in a hospital or dispensary recognised by Government in minor bandaging, preparation of antiseptic lotions and dressings, sterilization of dressings and instruments, and in all the minor duties of hospital work. Such persons shall be required to pay a fee of Rs. 2-8 for this examination. But no fee will be required from a candidate who appears at the combined Compounders' and Dressership Examination and who has paid the fee of Rs. 5 prescribed in para. (*c*).

No. 2099-W.—The following Royal Proclamation is published for general information :—

BY THE KING.

A PROCLAMATION

FOR PROHIBITING THE IMPORTATION OF PAPER MAKING MATERIALS, PAPER, TOBACCO, FURNITURE WOODS, STONES AND SLATES INTO THE UNITED KINGDOM.

GEORGE R. I.

WHEREAS by section forty-three of the Customs Consolidation Act, 1876, it is provided that the importation of arms, ammunition, gunpowder, or any other goods may be prohibited by Proclamation :

And whereas it is expedient that the importation into the United Kingdom of certain goods of a bulky character should be prohibited as hereinafter provided :

Now, THEREFORE, We, by and with the advice of Our Privy Council, in pursuance of the said Act and of all other powers enabling Us, in that behalf, do hereby proclaim, direct and ordain as follows :—

As from and after the First day of March, 1916, subject as hereinafter provided, the importation into the United Kingdom of the following goods is hereby prohibited, *viz* :—

All materials for the manufacture of paper including wood pulp, esparto grass, and linen and cotton rags.

Paper and cardboard (including strawboard, pasteboard, millboard and wood pulp board) and manufactures of paper and cardboard.

All periodical publications exceeding 16 pages in length, imported otherwise than in single copies through the post.

Tobacco unmanufactured and manufactured (including cigars and cigarettes).

Furniture woods, hard woods and veneers.

Stones and slates.

Provided always, and it is hereby declared, that nothing in this Proclamation shall apply to any goods of the descriptions specified which are imported under licence given by or on behalf of the Board of Trade, and subject to the provisions and conditions of such licence.

This Proclamation may be cited as the Prohibition of Import (Paper, Tobacco, Furniture Woods and Stones) Proclamation, 1916.

Given at Our Court at Buckingham Palace, this Fifteenth day of February, in the year of our Lord One thousand nine hundred and sixteen, and in the Sixth year of Our Reign.

GOD SAVE THE KING.

No. 2121-W.—The following Order in Council is published for general information :—

AT THE COUNCIL CHAMBER, WHITEHALL.

The 12th day of February 1916.

BY THE LORDS OF HIS MAJESTY'S MOST HONOURABLE PRIVY COUNCIL.

WHEREAS it is provided by section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under section 8 of the Customs and Inland Revenue Act, 1879, as amended by the Act now in recital, may, whilst a state of war exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas it is provided by section 2 of the Customs (Exportation Restriction) Act, 1914, that any Proclamation made under section 1 of the Exportation of Arms Act, 1900, may, whether the Proclamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

And whereas by a Proclamation, dated the 28th day of July 1915, and made under section 8 of the Customs and Inland Revenue Act, 1879, and section 1 of the Exportation of Arms Act, 1900, and section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

And whereas by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

And whereas there was this day read at the Board a recommendation from the Board of Trade to the following effect :—

That the Proclamation, dated the 28th day of July 1915, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to the same :—

(1) That the exportation of the following goods should be prohibited to all destinations :—

Carbon electrodes for electric furnaces.
Petroleum coke.

(2) That the heading "Capsicum and oleo-resin of capsicum" in the list of goods the exportation of which is prohibited to all destinations should be deleted, and there be substituted therefor the heading "Oleo-resin of capsicum."

(3) That the heading "Bladders, casings and sausage skins," in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "Bladders, guts, casings and sausage skins."

(4 That the heading "Bones for manure, dissolved bones, bone flour, bone meal and bone ash" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted and there be substituted therefor the heading, "Bones, in any form, whole or crushed (including dissolved bones, bone flour and bone meal), and bone ash."

(5) That the heading "Capsicum and peppers" should be included in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates.

(6) That the heading "Lead, pig, sheet or pipe (including solder containing lead)" in the list of goods the exportation of which is prohibited to all destinations abroad other than British Possessions and Protectorates should be deleted, and there be substituted therefor the heading "Lead, pig, sheet, pipe or scrap (including solder containing lead)."

(7) That the heading "Pepper" in the list of goods the exportation of which is prohibited to all foreign countries in Europe and on the Mediterranean and Black Seas, other than France, Russia (except through Baltic ports), Italy, Spain and Portugal should be deleted.

(8) That the exportation of the following goods should be prohibited to all foreign countries in Europe and on the Mediterranean and Black Seas, other than France, Russia (except through Baltic ports), Italy, Spain and Portugal:—

Arrack;
Casein;
Cork and cork dust not including floor coverings manufactured partly of cork dust.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

The 18th March 1916.

No. 2152-W.—With reference to the Notification in this Department No. 857-W., dated the 11th December 1915, the following order of His Majesty the King in Council is published for general information:—

AT THE COURT AT BUCKINGHAM PALACE.

The 15th day of February 1916.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS a state of war exists between His Majesty and the German Emperor, the Emperor of Austria King of Hungary, the Sultan of Turkey and the King of the Bulgarians:

And whereas His Majesty holds it to be His Prerogative Duty as well as His Prerogative Right to take all steps necessary for the Defence and Protection of the Realm:

And whereas His Majesty did by Order in Council dated November 10th, 1915, prohibit the carriage of cargo by any British steamship exceeding 500 tons gross tonnage registered in the United Kingdom from one foreign port to another, unless exempted by licence:

And whereas it has been made to appear to His Majesty that it is essential to the Defence and Protection of the Realm that, in the exercise of His Prerogatives as aforesaid, He should prohibit as from and after the First day of March 1916, any British steamship registered in the United Kingdom exceeding 500 tons gross tonnage, except steamships engaged in the coasting trade of the United Kingdom, from proceeding on any voyage, unless the owner or charterer of such steamship has been granted a licence as hereinafter provided:

NOW, THEREFORE, His Majesty is pleased, by and with the advice of His Privy Council and in exercise of His Prerogatives as aforesaid and of all other powers Him thereunto enabling, to order and it is hereby ordered that, from and after the First day of March 1916, no British steamship registered in the United Kingdom exceeding 500 tons gross tonnage, except steamships engaged in the coasting trade of the United Kingdom, shall proceed on any voyage, unless a licence to do so has been granted to or in favour of the owner or charterer of such steamship by the Licensing Committee appointed by the President of the Board of Trade under the provisions of the aforesaid Order in Council of November 10th, 1915, which licence may be general in reference to classes of ships or their voyages or special.

And the President of the Board of Trade is to act and give instructions and directions accordingly.

ALMERIC FITZROY.

The 18th March 1916.

No. 2169-W.—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), as amended by Act II of 1916, the Governor General in Council is pleased to direct that the following amendment shall be made in the Defence of India (Wolfram) Rules, 1915, namely:—

After rule 6 of the said rules the following rules shall be added, namely:—

Prohibition of removal of tungsten from certain areas except under a pass.

7. (*1*) When a license to prospect for, or a mining lease in respect of, tungsten has been granted by, or on behalf of, the Secretary of State, no person other than the holder of such license or lease or the agent of such holder shall remove tungsten from the area covered by such license or lease except under a pass specially issued for each consignment by such holder or agent.

(*2*) Every such pass shall specify therein the destination to which the tungsten shall be removed, and shall be issued in such form and subject to such conditions as the Financial Commissioner may prescribe.

(*3*) Every person issuing a pass shall, at the time of such issue, record such particulars thereof, and shall furnish to the Collector such returns of passes issued, as the Financial Commissioner may prescribe.

Prohibition of the possession, etc., of tungsten except under a permit.

8. (*1*) No person shall be in possession of, for any purpose, or shall deal in any way with, tungsten in any area not covered by a prospecting license or a mining lease except under a permit granted by the Collector in such form and subject to such conditions as the Financial Commissioner may prescribe: provided that nothing in this sub-rule shall apply—

(*a*) to the holder of a license to prospect for, or a mining lease in respect of, tungsten, or to the agent of such holder, in respect of tungsten won from the area covered by such license or lease, or

(*b*) to the holder of a pass issued under rule 7 in respect of the removal of tungsten in accordance with the conditions of such pass.

(*2*) A person, to whom a permit has been granted under sub-rule (1), shall keep such accounts, and furnish such returns to the Collector as the Financial Commissioner may prescribe, of all tungsten possessed, or dealt with by him under such permit.

9. Whoever, being authorised to issue a pass under rule 7, knowingly permits tungsten to be removed from the area in respect of which he is so authorised, except in accordance with the conditions of a pass issued under the said rule, shall be punishable with fine which may extend to Rs. 500.

Penalty for permitting removal of tungsten.

10. (*1*) Whoever removes tungsten in contravention of rule 7, or possesses, or deals with tungsten in contravention of rule 8, shall be punishable with imprisonment of either description for a term which may extend to one month, or with fine which may extend to Rs. 1,000 or with both.

Penalty for contravention of rules 7 (*1*) and 8 (*1*).

(2) Whoever attempts to commit, or abets or attempts to abet the commission of, any act punishable under this rule shall be punished as if he had himself committed the act.

11. Whoever—

(*a*) issues a pass in contravention of the provisions of rule 7 (2); or

(*b*) fails to make the record or furnish the returns prescribed by rule 7 (3); or

(*c*) fails to keep the accounts or furnish the returns prescribed by rule 8 (2),

Penalty for failure to keep records or accounts, and to furnish returns.

shall be punishable with fine which may be extend to Rs. 100.

No. 1071M.—The 20th March 1916.—In pursuance of section 37F of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), it is hereby notified for general information that the scheme submitted by the Commissioners of the Dacca Municipality for improving the water-supply of that Municipality has been approved by the Governor in Council, and that the particulars of the said scheme are as follows:—

Dacca.

(*a*) The scheme consists of erecting two elevated reservoirs (to be built with re-inforced concrete; the capacity of one would be 120,000 gallons, and that of the other 80,000 gallons; these will virtually serve as balancing tanks, through a 15-inch diameter gravitation main, connected with one, and through a 6-inch gravitation main connected with the other; the bigger reservoir will be erected in the Victoria Park, and the smaller one near the suspension bridge), making additions and alterations to the existing distribution system, providing an additional 15 feet diameter Jewell gravity filter to the existing battery of five similar filters, laying an additional line of suction main 2,200 feet long 16 inches in diameter, and erecting a screw-pile river intake jetty over 300 feet long.

(*b*) The estimated cost of the scheme is Rs. 1,80,000.

(*c*) The estimated cost of maintenance is Rs. 3,500.

(*d*) The sum of Rs. 1,80,000 on account of the cost of the scheme will be met as follows:—

	Rs.
Loan from Government	1,75,000
Contribution from General Municipal Fund	5,000
Total ...	1,80,000

The annual charge of Rs. 3,500 on account of maintenance will be met from the water-rate, and that of Rs. 12,794 on account of the repayment of the loan of Rs 1,75,000 will be met from the water-rate and the General Fund.

(*e*) A loan of Rs. 1,75,000, bearing interest at 4 per cent. per annum, will be taken by the Municipality from Government to meet the cost of the scheme. It will be repaid by forty half-yearly instalments of Rs. 6.397 each; twenty years will be required to repay it.

(*f*) The total annual charge on account of the maintenance of the scheme is estimated at Rs. 3,500, and that on account of the repayment of the loan of Rs. 1,75,000 is Rs. 12,794. The former will be met from the proceeds from the water-rate, and the latter will be met from the General Fund and the proceeds from the water-rate

(*g*) The water-rate will be levied as heretofore at the rate of 2 per cent. on the annual value of holdings having no communication pipe and at the rate of 5 per cent. on the annual value of holdings having communication pipe.

(*h*) The average incidence of the water-rate per head of present population of the said Municipality is Re. 0-8-5.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

STARRED QUESTIONS

By the Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR :—

Destruction of cattle by floods.

1. (*a*) Will the Government be pleased to state whether it is a fact that large numbers of cattle have perished by flood during the year 1915, and that in the flooded districts the cultivators are finding it difficult to till the soil owing to a scarcity of cattle?

(*b*) If so, are the Government taking any action with a view to assist the cultivators in this matter?

The Honb'le MR. BIRLEY replied :—

(*a*) Government are aware that the floods of 1915 were attended by the loss of cattle particularly in the Kishoreganj subdivision of the Mymensingh district. Complaints have been made to the local officers that for want of cattle raiyats in parts of Kishoreganj subdivision had difficulty in cultivating their land.

(*b*) The local officers are fully aware of the importance of affording facilities for purchasing cattle where such loss has occurred: the Commissioner of Dacca visited the affected area in Kishoreganj subdivision in January and allotted Rs 45,000 for loans which are intended principally for the purchase of cattle and seed.

Loans from co-operative credit banks.

* 2. (*a*) Is it a fact that no grant is given by a co-operative credit bank unless fifteen persons apply in a body for the grant?

(*b*) Is it also a fact that each of these persons is held severally liable for the whole loan?

(*c*) If the answers to clauses (*a*) and (*b*) are in the affirmative, will the Government be pleased to say whether they are considering the desirability of modifying the conditions under which these loans are granted?

The Hon'ble MR. BIRLEY replied :—

(*a*) No. The by-laws of Co-operative Credit Societies make provision for sureties: in some cases one surety is required and in no case are more than three sureties required.

(*b*) Sureties are jointly and severally liable for the loans for which they give security.

(*c*) The question does not arise.

By the Hon'ble NAWAB SAIYID HOSSAM HAIDER CHAUDHURI, KHAN BAHADUR :—

Affiliation of high English schools in mufassal districts.

* 3. (*a*) Will the Government be pleased to state the number of high English schools in mufassal districts in the Presidency of Bengal which have not yet been affiliated ?

(*b*) Has any case occurred where a non-affiliated institution has failed to meet the requirements of the University through want of funds ?

(*c*) If so, are the Government considering the advisability of helping such institutions with supplementary grants ?

The Hon'ble MR. DE replied :—

"(*a*) There are 99 such institutions in mufassal districts in the Presidency of Bengal which have not been affiliated.

(*b*) Want of funds has in certain cases been put forward as a reason for not meeting the requirements of the University.

(*c*) Government consider that the comparatively small amount of money which is available for grants-in-aid is better spent as a general rule on High English Schools which have already been recognised by the University than on those which have been unable to secure such recognition."

Plague in Birbhum.

* 4. (*a*) Are the Government aware that there have been several seizures and deaths from plague at Sainthia in the district of Birbhum ?

(*b*) If so, will the Government be pleased to state what steps they are taking to prevent the disease from spreading to the neighbouring villages and railway stations ?

The Hon'ble MR. DE replied :—

"(*a*) An outbreak of plague occurred at Sainthia in the district of Birbhum in January, 1916. There were 26 seizures and 19 deaths from plague up to the 5th February. There were no cases after this date till the 26th February, when 1 seizure was reported, which ended fatally.

(*b*) Prompt action was taken by the local authorities with the co-operation of local gentlemen for disinfection and for the removal of rats. A medical officer with special experience was deputed, and every facility given for inoculation. The bi-weekly *hât* at Sainthia was suspended, and arrangements made to hold the *hât* in an open space outside the village. Precautions were taken by the East Indian Railway with regard to the storing of grain."

By the Hon'ble MAHARAJA RANAJIT SINHA of Nashipur :—

Malaria in Birbhum.

* 5. (*a*) Is it a fact that Suri and other adjacent villages in Birbhum, formerly one of the healthiest districts in Bengal, have recently become malarious ?

(*b*) If so, will the Government be pleased to state what steps they are taking for combating malaria in those villages ?

The Hon'ble MR. DE replied :—

"(*a*) The town of Suri and its neighbourhood appear to have been relatively free from malaria until the year 1872 or 1873. Since that date the disease has been prevalent in this locality with frequent variations in its force and the extent of the area affected.

(*b*) Special medical officers have been deputed to the district of Birbhum for anti-malarial work during the last two years. During the current financial year a special grant of Rs. 25,000 has been made to the Birbhum District Board for anti-malarial measures, and of Rs. 500 to the Suri Municipality for the free distribution of quinine."

Waterworks Scheme for Suri.

* 6. (*a*) Is it a fact that the Waterworks Scheme for the Suri Municipality has been submitted to and approved by the Government?

(*b*) If so, will the Government be pleased to state when the work in connection with the scheme is likely to be commenced?

The Hon'ble MR. DE replied :—

"(*a*) The Waterworks Scheme of the Suri Municipality has received the administrative approval of Government.

(*b*) It is not yet known when funds will be available to enable the work to be commenced."

The Padma river.

* 7. (*a*) Will the Government be pleased to state whether there has been any variation in the depth of the water of the river Padma in recent years, and, if so, what is the highest figure obtainable indicating the depth?

(*b*) Is it a fact that the course of the river Padma has been diverted through other smaller channels since the construction of the Hardinge Bridge and that while the smaller channels are widening, the main river is silting up?

(*c*) Will the Government be pleased to state whether any inquiries are in contemplation with a view to ascertain whether the river-borne traffic and the passenger steamer communication are being or are likely to be affected by the irregular course of the Padma river?

The Hon'ble MR. GREEN replied :—

"(*a*) The question is somewhat indefinite but it is presumed that the Hon'ble Member refers to the flood levels of the river Padma; the high flood levels at Rampore Boalia and Goalundo are given in the subjoined schedule for the past 10 years (Statements A and B), which show no abnormal fluctuations.

(*b*) During the past few years the river Gorai has become larger and the volume of water flowing into that river from the Padma has increased. It has not, however, been found that in consequence thereof the main river has silted up.

(*c*) The Hon'ble Member is referred to the answer given to (*b*) above. It is not the intention of Government to prosecute any inquiries on this subject."

Strengthening of the Gumti embankments.

* 8. Will the Government be pleased to state what action, if any, has been taken or is being taken with a view to strengthen the Gumti embankments in the Tippera district in order to avoid the recurrence of calamities similar to those experienced during the last rains?

The Hon'ble MR. GREEN replied :—

"The Gumti embankments lying within the zamindari of the Raja of Hill Tippera have been examined by the Superintending Engineer, Eastern Circle, who has reported on the repairs which are necessary. The Collector of the district of Tippera has been requested to see that the necessary repairs are carried out by the Raj authorities in due course before the flood season of the next year. The general question of the maintenance of these embankments has been receiving the attention of Government, and it is hoped that a final decision in this matter will soon be arrived at."

Sale notices of Civil Courts.

* 9. (*a*) Are the Government aware that sale notices of the Civil Courts, in many districts of Bengal, are now published in local newspapers under the orders of the Courts and that the payment of the costs of such publication has to be met by the decree-holders?

(*b*) Are the Government aware that when objections are raised on the point of want of due publicity, the fact of the publication of such notices in the newspapers is not regarded as sufficient?

(*c*) Are the Government also aware that in several such cases the sales are eventually set aside upon that objection?

(*d*) Will the Government be pleased to state whether they contemplate making uniform rules for all districts under which the compulsory publication of sale notices in newspapers may be held to meet the requirements of the law?

The Hon'ble MR. KERR replied :—

"(*a*) Yes.

(*b*) & (*c*) Government have no information.

(*d*) The matter is regulated by Order XXI, rule 67 (*2*), in the First Schedule of the Code of Civil Procedure and by rules made by the High Court under the authority vested in them by section 122 of the Code. Government are therefore unable to take the action suggested."

Proposed sub-division in Pabna.

* 10. (*a*) Will the Government be pleased to state whether they are considering the claims of Bhanguria as being the most convenient site for the proposed subdivision which is to be created in the Pabna district?

(*b*) Is it a fact that Bhanguria is 21 miles from the sadar subdivision of Pabna, 23 miles from Sirajganj, the only existing subdivision, and 22 miles from the borders of the Rajshahi Division?

(*c*) Is it not a fact that Bera, Ullapara and Shahzadpur are all much nearer to Sirajganj than Bhanguria?

(*d*) Will the Government be pleased to state whether they have received a representation from the people of Bhanguria praying that Bhanguria be selected for the site, and, if so, what decision (if any) has been arrived at on that representation?

The Hon'ble MR. KERR replied :—

"(*a*) and (*d*) Government have recently received two petitions asking that Bhanguria should be selected as the headquarters of the new subdivision. These petitions have been referred to the local officers for report. No proposal to make Bhanguria the headquarters of a subdivision has been received from any other quarter.

(*b*) From the map, it would appear that by road Bhanguria is about 27 miles from Pabna and 28 miles from Sirajganj. It is about 24 miles in a direct line from the eastern border of the Rajshahi Division.

(*c*) It is a fact that Ullapara and Shahzadpur are nearer to Sirajganj than is Bhanguria; but Bera is further from Sirajganj than Bhanguria."

Magrahât drainage scheme.

* 11. Will the Government be pleased to state—

(*a*) how the execution of the Magrahât drainage scheme has affected—

(*i*) the health of the locality; and

(*ii*) the agricultural prospects therein?

(*b*) whether any other scheme has either been undertaken or is under contemplation in pursuance of the provisions of the Bengal Sanitary Drainage Act, 1895 (Bengal Act VIII of 1895)?

The Hon'ble MR. DE replied :—

"(*a*) The Magrahât Drainage Scheme has only recently been brought to completion; and the final report has not yet been received by Government. The greater part of the scheme was completed in the year 1909, including the Diamond Harbour sluice which was opened in June of that year. A comparison of the death-rates from fever and other causes and of attendance at dispensaries, in various parts of the Diamond Harbour subdivision, before and after the opening of the sluice, leaves no doubt that a marked relief from fever was at once effected over a wide area.

The whole of the area drained by the Magrahât Scheme, about 295 square miles, is now under cultivation, and the sluices are reported to work well for the purpose both of irrigation and drainage. The area of swamp and land which produced no crop before is estimated to have been about 100 square miles. On the opening of the Diamond Harbour sluice this area produced in the same agricultural year a crop valued at Rs. 38,40,000, or approximately twice the whole cost of the scheme.

(*b*) The scheme for the drainage of the Araoanch basin, forwarded by the District Board of the 24-Parganas, is at present under the consideration of Government."

Mortality due to malarial causes.

* 12. Will the Government be pleased to state the percentage of mortality due, either directly or indirectly, to malarial causes out of the total shown under the heading "Fever" in the reports of the Sanitary Commissioner of Bengal in the years 1913 and 1914 ?

The Hon'ble MR. DE replied :—

"Separate statistics for malarial fever are not available, the mortality for malarial fever being included in the statistics shown under the heading 'Fever.'"

* 13. (*a*) Are the Government aware that the Notification, set forth in the margin, which was published in the *Calcutta Gazette* of the 16th February, 1916, has created a general feeling of uneasiness among the people of Calcutta and its neighbourhood ?

(*b*) Will the Government be pleased to lay on the table a statement explaining the situation and the real purport which has necessitated the issue of this Notification ?

"*No. 163.*—In pursuance of Rule 2 (*iii*) of the Defence of India (Consolidation) Rules, 1915, published with the Notification of the Government of India in the Legislative Department, No. 86, dated the 9th December, 1915, the Governor-General in Council is pleased to declare that the areas defined in the schedule hereto annexed shall be defended harbours for the purpose of the said rules.

Defended Harbour.	Area
Calcutta	

The area comprised within the following boundaries :—

On the east—The right bank of the rivers Raimangal and Ichchhamati from the sea till the northern boundary is reached.

On the north—An east and west line running through Barrackpore Railway Station.

On the west—A north and south line running through Bagnan Station on the Bengal-Nagpur Railway.

On the south—The limit of territorial waters in the Bay of Bengal.

With an additional portion to the north of the above northern boundary consisting of a strip two miles in width from each bank of the river Hooghly from the northern boundary to a point 2 miles north of the Naihati bridge over the Hooghly river."

The Hon'ble MR. KERR replied :—

"A copy of the Communiqué which has been issued on the subject is laid on the table.

Communiqué referred to in the answer by the HON'BLE MR. KERR *to Question No. 13 (starred) asked by the* HON'BLE BABU SURENDRA NATH BANERJI *at the Council Meeting of the 6th March 1916.*

With reference to the definition of 'Defended Harbour of Calcutta, published with the Army Department Notification No. 163, dated 11th February, 1916, which has excited a certain amount of comment in the Press, it will be observed that it is merely consistent with similar action, taken in respect of Aden, Karachi, Bombay, Madras, Rangoon and Port Blair. Under the Defence of India Rules, published with the Notification No. 86, dated 9th December, 1915 'defended harbour' means any area declared by notification to be such for the purpose of those Rules. The only rule, so far framed with special reference to a defended harbour, is rule 19 which prohibits the

photographing of naval and military works or dock and harbour works ; and since works of military importance may lie within some distance of the harbour proper in its restricted sense, it is necessary that the definition of a defended harbour should be widely drawn. The rule and definition are merely matters of ordinary military precaution, consequent upon the existence of a state of war.

SUPPLEMENTARY QUESTION.

The Hon'ble BABU SURENDRA NATH BANERJI asked the following supplementary question :—

Are the Government considering the desirability of giving a public assurance that there is really no cause for anxiety in the public mind ? "

The Hon'ble MR. KERR replied :—

" The matter is entirely in the hands of the Government of India. The Local Government have no knowledge that any further action is contemplated."

UNSTARRED QUESTIONS

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Industrial Co-operative Societies, Agricultural Loans etc.

1. Will the Government be pleased to state what steps (if any) have been taken to give effect to the Resolutions on Industrial Co-operative Societies and Loans, Agricultural and Dairy Farms and Fruit Culture, moved by me and accepted with slight modifications by Government at the meeting of this Council held on the 2nd March, 1915 ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

FIRST PART OF QUESTION.

" The question relates to separate resolutions which were moved on March 2nd, 1915, by the Hon'ble Member and were accepted. The first of these resolutions was as follows :—' This Council recommends to the Governor in Council that steps be taken for the establishment, on a sound financial basis, of industrial Co-operative Societies in the various districts of the Presidency.'

The steps which have been taken to give effect to this Resolution are as follows :—

(*1*) *Weavers' Societies.*—An Inspector of Weaving Societies was appointed in October 1915. There are now 17 Weavers' Societies in the districts of Faridpur, Midnapore, Dacca, Hooghly, Murshidabad, Birbhum and Pabna as compared with 11 in existence in March 1915. Weavers' Societies purchase yarn for distribution amongst members and assist the members in the disposal of finished products.

(*2*) A Co-operative Sugar Factory which was opened in Faridpur district in 1914 was worked with success in the year 1915.

(*3*) *Fishermen's Societies.*—The Registrar of Co-operative Societies and the Deputy Director of Fisheries have investigated the prospects of Co-operative Societies of fishermen and four Fishermen's Societies have been started.

(*4*) A society of shoemakers has recently been started in Rampurhat and a society of carpenters and banglemakers in the subdivision of Jangipur. In Pabna a society of oilmen has been organized.

SECOND PART OF QUESTION.

This question relates to the following portion of another resolution moved by the Hon'ble Member and accepted by Government, *viz.*:—' This Council recommends to the Governor in Council that further steps be taken for encouraging the educated youths of this Presidency to take up agricultural farming, dairy farming, fruit farming and fruit preserving as their profession in life.'

The steps which have been taken to give effect to this resolution are as follows :—

(*1*) *Agricultural farming.*—A scheme for the establishment of classes at the Dacca Farm for instruction in agriculture for the sons of zamindars and others was circulated for the opinion of the leading Associations : the scheme did not receive much support except from the East Bengal Landholders' Association. The cost of the scheme is being worked out in detail, but it is unlikely that funds will be available under present financial conditions.

(*2*) *Dairy farming.*—At the Rangpur Cattle Farm a record is kept of the milk-yields of various kinds of indigenous cows with a view to establishing the best type. Besides aiming at improving the breed of indigenous cattle, the farm seeks to demonstrate the possibilities of mixed farming and to prove to educated young men that dairy farming can be conducted at a profit.

(*3*) *Fruit farming and fruit preserving.*—The Agricultural Department is now engaged on a survey of local fruits. It is hoped to follow up the survey by the establishment of orchards at Agricultural stations. Educated young men will then have an object lesson which they can follow."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Improvement of cattle and provision of pasture lands.

II. Will the Government be pleased to state what measures are being taken for the improvement of cattle and for the provision of pasture lands in each district of the Presidency ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"The following measures are being taken by Government for the improvement of cattle :—

(*1*) At the Rangpur Farm a herd of cattle is kept and attempts are being made to select the best type for the Province.

(*2*) Government maintain 36 stud bulls and local bodies maintain 28.

(*3*) Government have instructed their local officers to reserve grazing lands in Government estates. It is hoped that private landlords will follow this example. No other feasible proposal, apart from legislation, has yet been suggested."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Labour in Darjeeling and the Duars.

III. Will the Government be pleased to state what protection the Planting Communities in the Darjeeling and Duars districts have against the enticement of their garden labour units, by unscrupulous labour recruiters ?

The following answer by the Hon'ble MR. DONALD was laid on the table :—

"Government have had no complaints regarding the enticement of garden labour units by unscrupulous labour recruiters in the Duars and Darjeeling districts for employment in other labour districts. Enticement from one garden to another in the Duars is provided for by the Duars Labour Rules. Recruitment for Assam labour districts from the Duars and Darjeeling districts is regulated by the provisions of Act VI of 1901."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Relations between zamindars and tenants.

IV. (*a*) Will the Government be pleased to state whether the general relations between the important zamindari estates and their tenantry in the districts of the Presidency are on the whole satisfactory ?

(*b*) If the answer to the above question cannot be given in the affirmative in respect of all the districts, will the Government mention the districts where relations generally have been or are so unsatisfactory as to have necessitated interference by Government ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"The Hon'ble Member is referred to the paragraphs on this subject which appear in the annual reports of the Board of Revenue upon the Land Revenue Administration of the Province."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

V. Will the Government be pleased to state what special efforts, if any, are being made to reduce the shortage in the number of trained and efficient teachers for primary and secondary institutions in the Presidency?

Teachers for primary and secondary institutions.

The following answer by the Hon'ble MR. DE was laid on the table :—

"The David Hare Training College in Calcutta trains about 30 teachers annually. A scheme for the development of this College has already been considered by Government, involving a capital expenditure of Rs. 8,00,000 and a recurring expenditure of Rs. 23,000. Land has been acquired at Ballygunge for the construction of a suitable building at a cost of 2½ lakhs and the administrative approval of Government has been accorded to the building project at an estimated cost of Rs. 5,68,000. The latter will be taken up as soon as funds are available.

During the year 1914-15, 47 students were under training in the Dacca Training College. The accommodation in the College has recently been increased from 55 to 60. Proposals for the reorganisation of the College are now under the consideration of the Director of Public Instruction and will shortly be submitted to Government. The transfer of this institution to new and enlarged buildings within the Dacca University area forms part of the scheme for that University and will be carried out with it.

The Training classes at Bhowanipur under the management of the London Missionary Society are now turning out 15 students every year. Proposals for the reorganisation of the classes are under the consideration of the Director of Public Instruction.

The six Normal Schools train teachers for Middle Schools or the middle classes of High Schools and for Guru-Training Schools. These training institutions give an annual outturn of from 100 to 140 trained teachers. The reorganisation of these schools with a view to increase the number of trained teachers for Middle Schools is also engaging the attention of the Director of Public Instruction.

The total number of Guru-Training Schools in the Presidency is 116. Proposals for the development of these schools on improved lines have been considered by Government, involving a capital expenditure of Rs. 11,00,000 and a recurring expenditure on staff, including menial establishment and stipends, of Rs. 6,04,800. The monthly stipends in these schools have been raised from Rs. 6 to Rs. 10.

These schemes when brought into operation will, it is hoped, lead to a substantial increase in the annual return of trained teachers, while an improvement in the quality of the training is also confidently expected."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

VI. Will the Government be pleased to state the reason why the percentage of outlay on public works in Kurseong was as low as 1·5 in 1913-14?

Low percentage of outlay on Public Works in Kurseong.

The following answer by the Hon'ble MR. DE was laid on the table :—

"The percentage of outlay on Public Works in Kurseong Municipality was only 1·5 in 1913-14 because all the roads, with the exception of three small ones, are maintained by the Public Works Department."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

VII. Will the Government be pleased to state what support, encouragement and facilities are being given to new and growing Indian manufactories of leather, metal, cotton and glass goods, and lay on the table a list of such factories in the Presidency with a brief account of their financial and commercial position and the class, quality and approximate quantity of goods produced yearly by each?

Encouragement of Indian manufactories.

The following answer by the Hon'ble Mr. DONALD was laid on the table :—

"The Hon'ble Member is referred to Mr. Swan's Report on the Industrial Development of Bengal. The only changes of note that have taken place since the publication of that report are the failure of the glass factory at Sodepore, the establishment of a new tannery at Berhampore, and the opening of a new factory at Kidderpore for the manufacture of galvanised iron articles, chiefly buckets. The tannery at Berhampore has only recently been started. Owing to the war it has experienced difficulty in obtaining certain materials necessary for its manufactures, and Government are giving every assistance possible to secure these materials. The galvanising works at Kidderpore produce daily about 80 dozen buckets, and they are assisted largely by Government orders. As to the financial position of these Companies, as well as of those mentioned in Mr. Swan's report, the Hon'ble Member may obtain information from the proprietors, or, in the case of Joint Stock Companies, by inspection of the balance sheets filed in the office of the Registrar of Joint Stock Companies, on payment of the usual fee of Re. 1 for each inspection."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Purchase by Government of indigenous goods.

VIII. Will the Government be pleased to state whether they buy any manufactured goods for their own requirements from any indigenous factory, and, if so, the nature and quantity of such goods ?

The following answer by the Hon'ble MR. DONALD was laid on the table :—

"Yes ; the Government of Bengal purchase for their own requirements manufactured goods from indigenous factories. These goods include building materials, engineering plant, hardware, wire, leather, paints and colours, oils, furniture, canvas, cotton and woollen goods, chemicals, drugs and medicines, scientific instruments, paper, stationery, printing materials, earthenware, glass and glassware, and other goods of a miscellaneous character. Details as to the quantities purchased are not readily available, but the value of such goods purchased during the financial year 1914-15 was Rs. 3,17,838."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Number of paper-making factories in the Presidency.

IX. Will the Government be pleased to state the number of paper-making factories in the Presidency, their present general condition and the average production in each of these factories and also the support (if any) which they receive from Government in the form of purchases ?

The following answer by the Hon'ble MR. DONALD was laid on the table :—

"There are three paper-making factories in Bengal. Two belong to the Titaghur Paper Mills Company and produce about 19,000 tons of paper *per annum*, of which Government purchase about 6,000 tons. The third belongs to the Bengal Paper Mills Company. Its annual outturn is about 6,600 tons, of which Government purchase 3,000 tons. The condition of the factories is set out in the balance sheets of the Companies, which may be inspected in the office of the Registrar of Joint Stock Companies on payment of the usual fee of Re. 1 for each inspection."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Paper-making industry and the starting of factories.

X. Will the Government be pleased to state the districts suitable for the establishment of the paper industry and what facilities and encouragement they are prepared to give to those who may wish to start new factories ?

The following answer by the Hon'ble Mr. DONALD was laid on the table :—

"The Hon'ble Member is referred to the speech of the Hon'ble Mr. Beatson Bell at the Dacca meeting of this Council on the 26th July, 1915. The suitability of a particular district for the establishment of the paper industry depends on several considerations, including the supply of raw material, the supply of labour, and the accessibility to markets. Until these considerations have been examined in detail, the Governor in Council is not in a position to say which districts are most suitable, or to state what facilities or encouragement Government may extend to new ventures. The question will be examined by the Director of Industries as soon as this officer is appointed."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Mortality in Rajshahi.

XI. Will the Government be pleased to state the result of the examination of figures of mortality in the Rajshahi district which has been conducted by five Sub-Assistant Surgeons in the Nator thana, for the purpose of defining the special features of mortality from true malarial infection as distinguished from deaths resulting from fevers due to other causes ?

The following answer by the Hon'ble Mr. DE was laid on the table :—

"A statement giving the information required is laid on the table."

Infant mortality in the Presidency.

XII. Will the Government be pleased to state whether they have formulated, or are formulating, any definite line of action in order to reduce the high rate of infant mortality in the Presidency, referred to by me in a resolution in 1914, and again in the form of a question on the 2nd March, 1915?

The following answer by the Hon'ble MR. DE was laid on the table :—

"The causes responsible for the high proportion of infantile mortality are so inextricably bound up with the domestic life and social customs of the people that they cannot be eradicated by any special action of Government. It is from provision by local authorities of trained midwives and lady doctors, and their influence among country *dhais;* and from the education of women in the essentials of domestic hygiene through the instruction of girls at school, and the general diffusion of sanitary knowledge that Government believe most will be effected in mitigation of the evil. The measures taken for the reduction of malaria and for the improvement of water-supply will also have their effect in reducing the large amount of infantile mortality which is due to fever and bowel diseases. Improvement is primarily to be looked for in municipalities, but the increased attention paid to accuracy in the registration of births and deaths is likely to obscure a decrease in the proportion of infantile mortality for some time after it has set in."

By the Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI :—

Sanitation in Rajshahi.

XIII. Will the Government be pleased to state what improvements in sanitation have been effected by the posting, in January, 1913, of a Deputy Sanitary Commissioner to the sole charge of the Rajshahi Division, which appointment was intimated by Government in reply to my question on sanitation asked on the 29th January, 1913?

The following answer by the Hon'ble MR. DE was laid on the table :—

"The effects of this appointment have been observable in the stimulation of municipalities and local bodies to sanitary activities, and their education in the requirements of public hygiene. In addition to his general duties the Deputy Sanitary Commissioner has done valuable work in the supervision of the registration of births and deaths, in the inspection of vaccination, and in the investigation of malaria, and organisation of remedial measures against the disease."

Proposed acquisition of certain villages in 24-Parganas.

XVII. (*a*) Is it a fact that it is proposed to acquire about 412 bighas of land in villages Mudih, Boroz, Gobindpur, Dhakuria and neighbouring villages in Dihi Panchanangram, in pargana Khaspur, in the district of the 24-Parganas, for the purpose of the construction of a park and a lake?

(*b*) Are the Government aware that the said area contains several mosques and numerous graves and burial-grounds, some of the latter being still in use?

(*c*) Is it a fact that the Hindu and Muhammadan residents of the locality have protested against this proposed acquisition on various grounds?

(*d*) If so, will the Government be pleased to state what decision has been arrived at in the matter?

The following answer by the Hon'ble MR. DE was laid on the table :—

"(*a*) Land is being acquired in the villages named for the purpose of obtaining a sufficient supply of earth for the operations of the Calcutta Improvement Trust and for the construction of a park and a lake. A copy of notification No. 12231 L.A., dated the 14th December, 1915, is given below.

(*b*) There appear to be one building used as a place of worship and a small burial ground within the boundaries of the land notified for acquisition It is not proposed to acquire these under the Land Acquisition Act.

(*c*) A petition of this nature has been forwarded to the Chairman of the Trust over the names of seven Muhammadans and one Hindu."

NOTIFICATION.

DECLARATION.

No. 12231 L.A.—The 14th December 1915.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the expense of the Calcutta Improvement Trust, for a public purpose, viz., for the purpose of obtaining a sufficient supply of earth for the operations of the Trust and for the construction of a park and a lake, in the villages of Mudiali, Boroj, Gobindpur, Dhakuria and Gariahat, Dihi Panchannagram and pargana Khaspur, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 412 bighas of standard measurement, bounded on the—

Pension-holders of the Nizamat family of Murshidabad.

XVIII. (*a*) Will the Government be pleased to state the names of pension-holders belonging to the Nizamat family of Murshidabad and the amount of pension paid to each of them?

(*b*) Will the Government be pleased to state the legal obligations of Government (if any) necessitating the payment of such pensions?

The following answer by the Hon'ble MR. KERR was laid on the table :—

"(*a*) The total amount of the political pensions at present paid to the Nizamat family of Murshidabad is Rs. 4,86,670-2. The number of individuals who receive a pension is 458. The majority of these are descendants of former Nawabs Nazim of Bengal; but in some cases pensions have been granted to dependants and old servants who would otherwise be destitute. Government do not consider it advisable to publish the names of these pension-holders, but I shall be glad to show a list of them to the Hon'ble Member if he so desires

(*b*) The Hon'ble Member is referred to the Murshidabad Act (XV of 1891), under which Government are required to make an annual payment of Rs. 2,30,000. All grants beyond this sum are given as an act of grace."

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

Prospects of clerks in Registration offices.

XIX. (*a*) Is it not a fact that clerks and muharrirs in Registration offices are very much underpaid in comparison with the ministerial officers in other departments of Government ?

(*b*) If so, will the Government be pleased to state whether they are taking any steps to bring the pay of these officers into line with that of the ministerial officers in other Government offices, or otherwise to improve their prospects ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"(*a*) Clerks and muharrirs in Registration offices receive less pay than the ministerial officers in other departments of Government.

(*b*) The question of the revision of the pay of the ministerial establishment of the Registration Department has engaged the attention of Government for a long time. In the year 1911 schemes of reorganization were prepared both in the old province of Bengal and the late province of Eastern Bengal and Assam, but no final decision could be reached before the territorial changes of 1912. Since then a revised scheme for the Presidency of Bengal has been prepared and submitted to the Government of India. It will not be possible in any case to give effect to the scheme until the return of normal conditions after the war."

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

Promotion of Sub-Registrars in grade IV.

XX. (*a*) Is it a fact that the promotion of Sub-Registrars in grade IV of the Registration Department has been held up for some time ?

(*b*) If so, will the Government be pleased to state the reasons for this block in promotions ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"(*a*) The last list of promotions, including all vacancies up to September 5th, 1915, was published in the Gazette of November 3rd, 1915. Since September 5th there have been 10 vacancies, the earliest of which occurred on September 27th, 1915. Promotions to these vacancies will shortly be notified.

(*b*) The question does not arise."

Prospects of Sub-Registrars in grades IV and V.

XXI. Will the Government be pleased to state whether they are taking any steps to improve the pay and prospects of Sub-Registrars in grades IV and V of the Registration Department ?

The following answer by the Hon'ble MR. BIRLEY was laid on the table :—

"A scheme for revising the grades of Sub-Registrars has been under the consideration of Government since the year 1913. The scheme, when sanctioned, will improve the prospects of Sub-Registrars who are now in grades IV and V, but it is unlikely that funds will be available for giving effect to the scheme until the war is over and normal conditions are restored."

Vacancies in the Bengal Secretariat Establishment.

XXII. Will the Government be pleased to lay on the table a statement showing—

(*a*) the number of vacancies which occurred in temporary and permanent posts in the various departments of the Bengal Secretariat between the 1st April, 1912, and the 31st December, 1915 ;

(*b*) how many of these vacancies were advertised inviting qualified Muhammadan candidates to submit applications, and in how many cases Muhammadan public bodies and Associations were informed of these vacancies ; and

(c) how many of such vacancies were actually filled up by the appointment of Muhammadans otherwise than by office promotions or transfer from other offices?

Advertising of vacancies in Government offices.

XXIII. Will the Government be pleased to state what steps, if any, are taken to advertise vacancies in the various Government offices in the Presidency, and what facilities, if any, are given to Muhammadan candidates to obtain information regarding such vacancies?

The following answer by the Hon'ble MR. DONALD was laid on the table :—

"The rules for filling up vacancies in mufassal offices of Government direct that whenever a permanent vacancy occurs or is about to occur in a paid appointment, a notice of the fact shall be suspended in some prominent place in the office, and a date, which shall not be less than 15 days after the issue of the notice, shall be fixed for filling up the vacancy. In a circular issued in April, 1914, the Governor in Council directed that this procedure should be supplemented, when necessary, by inviting the assistance of recognised Muhammadan Associations to secure qualified candidates.

Under the rules regulating the appointments in the Lower Division of the Secretariat and in offices of Heads of Departments, the estimated number of vacancies during the year in these offices is notified in the *Calcutta Gazette* on or before the 30th April of each year. When, at the annual clerkship examination, there is no suitable Muhammadan candidate to whom a post specially earmarked for a Muhammadan can be offered, a candidate is selected after advertisement in the leading Muhammadan newspapers. Government have under consideration a proposal to supplement this rule by a direction that recognised Muhammadan Associations should be informed whenever vacancies specially earmarked for Muhammadans occur in these offices."

N.B.—In addition to the above grants a sum of Rs. 4,47,648 in 1913-14 and a sum of Rs. 5,29,080 in 1914-15 were allotted for enhancement of pay of teachers serving in aided primary schools and maktabs. It is not possible to say how much was spent out of these sums exclusively for maktabs.

By the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

Abolition of Survey classes, etc., in the Dacca School of Engineering.

XXV. (*a*) Is it a fact that the Vernacular Survey Classes at Dacca and the Mechanical and Electrical branches of the Dacca School of Engineering have been abolished ?

(*b*) If so, will the Government be pleased to state when and on what grounds the abolition was made in each case ?

The following answer by the Hon'ble MR. DE was laid on the table :—

"(*a*) The answer is in the affirmative.

(*b*) The Survey classes at the Dacca Engineering School came to an end in the year 1914, and the students then attending were transferred to the new Survey School at Mainmatti, Comilla. The reasons for the transfer were the want of adequate accommodation at Dacca, the difference in educational status between the Survey and Engineering students, and the advantages afforded by the new school in point of site and facilities for training.

The Mechanical and Electrical branches of the Dacca School of Engineering will be discontinued from the end of the current session with effect from the 1st April, 1916. The reasons for this decision are the small demand for men with College qualifications in these subjects, and the existence at the Sibpur College of a much larger staff and better equipment for instruction."

By the Hon'ble MR. BYOMKES CHAKRAVARTI :—

Grants for sanitation in Bengal.

XXVI. Will the Government be pleased to lay on the table a statement showing—

(*a*) the total amount of Imperial grants, both recurring and non-recurring, received for sanitation in Bengal since the year 1911 ;

(*b*) the projects on which these grants or any portion of them have been spent ; and

(*c*) the balance unspent, if any ?

The following answer by the Hon'ble MR. DE was laid on the table :—

"Statements showing the total amount of grants for sanitation since the year 1911 and the distribution of expenditure are placed on the table. The unspent balance up to the end of the year 1915-16 is estimated to be Rs. 48,32,000."

Statements referred to in the Answer by the HON'BLE MR. DE *to Question No. XXVI (unstarred) asked by the* HON'BLE MR. CHAKRAVARTI *at the Council Meeting of the 6th March, 1916.*

The Hon'ble Mr. Beatson Bell then moved the following consequential amendment :—

That the existing proviso to proposed sub-section (3) of section 9 be numbered as a separate sub-section to run as follows :—

"(4) Whenever the President makes any order under sub-section (3) he shall, as soon thereafter as conveniently may be, report the fact to the Commission."

The motion was put and agreed to.

List of Amendments—Motion No. 5.—The Hon'ble Mr. Beatson Bell moved—

that for sub-clause (*b*) of clause 9 the following be substituted, namely :—

"(*b*) for clause (*f*) of sub-section (2), the following shall be substituted, namely :—

(*f*) regulate, with due regard to the safety of shipping, the emission of smoke from the furnaces of vessels ;

(*bb*) the word "and", at the end of clause (*h*) of the same sub-section, is hereby repealed ; and"

He said :—

"We now come to the clause which at one time was contentious, but I am glad to say that it is no longer so. The House will remember that when this Bill was introduced, we maintained that the existing statutory close-time for ocean-going steamers was a mistake. Our desire was that the statutory close-time should be removed, and that the furnaces of steamers, just like those of factories and other places, should be governed at all times of the day and night by some reasonable set of rules. I am glad to say that the steamer companies have come to regard this position as reasonable, and they have met us half way. We, on our part, have been glad to meet them half way. We agreed, as a *quid pro quo* for the abolition of the statutory close-time, that there should be a distinct stipulation in the Act that the rules which govern steamers should be framed with due regard to the safety of ships. It was always our intention that they should be so framed, so we readily agreed to embody this in the Act. It was also agreed between the Government and the shipping community that the draft rules, which would be promulgated under this new sub-section, should be drafted beforehand, so that there would be no further contention after the passing of the Act. I am glad to say that we have now drafted a set of rules which are satisfactory to Government and at the same time satisfactory to the steamer companies. I need not trouble the House by going into the details of these rules, but I may say that the night which I spent in stoking a steamer was of much practical use to me in considering these rules. I saw where the shoe pinched, and where the shoe did not pinch. If we find that the rules do not adequately provide for the safety of steamers, we shall be glad to amend them without delay. If, on the other hand, this enlarged Smoke Committee, with its non-official majority, makes a strong recommendation for the alteration of the rules in the direction of stringency, we shall consider their representation, and shall of course once more consult the steamer companies. Anyhow, the rules as they now stand deserve a fair trial, and I am sure they will have a fair trial. I do not think I need say more at this stage, except to thank the representatives of the Bengal Chamber of Commerce and the Port Commissioners for the help which they have accorded to Government in bringing about a satisfactory solution of this long-standing controversy. I therefore move the amendment which I have just read out."

The motion was put and agreed to.

List of Amendments—Motion No 6.—The Hon'ble Mr. Beatson Bell moved :—

That, for the words "prescribe rules for" in sub-clause (*c*) (*j*) of clause 9, the word "regulate" be substituted.

The motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 4.

The Hon'ble Mr. Beatson Bell moved that the Secretary be directed to number the clauses and sub-clauses of the Bill in consecutive order and to make corresponding alterations in all cross-references thereto.

The motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 5.

The Hon'ble Mr. Beatson Bell moved that the Bill, as settled in Council, be passed.

The motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 6.

THE AMENDED DRAFT FINANCIAL STATEMENT.

The Hon'ble Mr. Beatson Bell presented the amended draft Financial Statement for Bengal for 1916-17.*

He said :—

"My Lord, I need not make any lengthy general remarks in introducing the amended draft Financial Statement. Every member of this House has of course studied the Imperial Budget and has read the speech which was delivered by the Finance Member of the Government of India. We are all therefore fully cognizant of the general financial position both of India as a whole and of the provinces within it. We have to exercise the most rigid economy. It is not always easy for us to see the situation in its true perspective. Our vision is necessarily somewhat limited, but the fact remains that every rupee which we—the Provincial Governments—can save is a rupee added to the general resources of the empire, to the funds with which the great battle for freedom is now being fought. It is, therefore, up to us to play the game, and wherever we can find any room for economy we must try to exercise that economy. We have, therefore, framed the provincial budget upon two guiding principles. In the first place, we have seen that the total provincial expenditure shall not exceed the total provincial income ; in other words, we have refrained from dipping into our balances, for these balances form part of what I have just described as the battle-fund of the empire. In the second place, we have scrutinised every new scheme in the most searching, I may almost say the most unsympathetic, manner. We have rejected every new scheme unless it is 'imperatively necessary or immediately remunerative.' These are the very words of the Secretary of State, and I hope we have been carrying out his orders in the way that we should. For the present these orders relate only to new schemes. The time may come when we shall have to apply the same tests not only to new expenditure, but to all existing expenditure, recurring or non-recurring. But sufficient unto the day is the evil thereof. The net result of our financial efforts has been that we have reduced our provincial expenditure to a sum which is not greater than our provincial income. In fact, there is a small balance upon the right side. These are the main outlines of the draft Financial Statement which I have the honour to lay before the House.

It has also fallen to me to introduce a few budget heads personally.

The Hon'ble MR. BEATSON-BELL then introduced the following heads :—

REVENUE—

I—Land-revenue.

EXPENDITURE—

32. Miscellaneous.

He said :—

"I begin with Land-revenue. This may conveniently be considered under the two sub-heads of ordinary Land-revenue (Provincial receipts) and Major Surveys and Settlements (which are Imperial). As regards ordinary Land-revenue, we made our estimate of receipts for 1915-16 at a time when agricultural prospects were rather gloomy. Taking the province as a whole, these prospects improved during the year, and we expect to exceed our estimate of receipts by Rs. 3,31,000. On the expenditure side of ordinary Land-revenue for the current year we have effected economies to the extent of Rs. 1,29,000. Turning to next year, and still speaking of ordinary Land-revenue, we expect an increase of receipts to the extent of Rs. 1,15,000 and a reduction of expenditure to the extent of Rs. 2,14,000. The improvement of receipts is mainly due to the recovery of the jute market and the reduction in expenditure is mainly due to the postponement, wherever practical, of petty resettlements and economy in works of improvement in Government estates.

As regards the Imperial head of Major Surveys and Settlements, I need only say that in the current year we showed leniency, wherever circumstances

so demanded, in the recovery of survey and settlement charges, and as regards expenditure, I set a good example to my colleagues by promptly stopping the work in Jessore where operations were about to begin. Last year I explained at some length to this House how fatal it is to stop survey and settlement operations after they have begun. I adhere to all that I said on that occasion. In Jessore, however, the orders of the Government of India enjoining imperative economy were received just in time to have the work stopped without disaster. We hope to resume the work in Jessore as soon as financial prospects brighten. As regards Bankura, I announced the postponement of survey and settlement operations as long ago as the 6th April, 1915. Since then the district has been visited by serious distress. I cannot yet say when the work in this district will be resumed. Taking the province as a whole, the expenditure next year on Major Surveys and Settlements will be only twenty lakhs, including buildings, as against twenty-eight lakhs if conditions had been normal. It is expected that about twenty-two lakhs will be recovered next year in the districts where operations are approaching completion.

I now turn to Excise. The actual receipts in 1914-15 amounted to Rs. 1,53,74,624 being 1¼ lakh less than the revised estimate and 4¼ lakhs less than the original estimate for the year. The revised estimate was reduced with reference to the actuals of the first 10 months, but there was a further decrease in consumption in the last two months and the revenue fell in proportion. The consumption of country spirit decreased by 105,241 gallons, of ganja by 376 maunds and of opium by 156 maunds. Two factors contributed to this decrease—administrative measures and economic conditions. There was an increase of the rate of duty on country spirit in most districts and an increase in the maximum prices in West Bengal; there was also a curtailment of the hours during which shops can remain open. The economic conditions (I am still speaking of 1914-15) were those arising from the outbreak of the war.

The sanctioned estimate for 1915-16 was Rs. 1,60,00,000, but, owing to the large fall in consumption in the first 10 months of the year, it is not anticipated that the receipts this year will exceed Rs. 1,50,00,000. With effect from the beginning of the year the treasury price of opium was raised to Rs. 40 a seer throughout the Presidency and the duty on ganja from Rs. 15 to Rs. 20 a seer. This increased taxation caused a rise in the retail price of these drugs, and this again reacted on consumption. The total decrease in consumption of ganja and opium to the end of January, 1916, compared with last year's figures, is 18,302 seers and 9,434 seers, respectively. The consumption of country spirit also decreased during the period by 60,015 gallons. To sum up, the consumption of all intoxicants was less in 1914-15 than in 1913-14, and there is every sign that it will be still less in the current year. During the months which immediately followed the outbreak of the war people became sober by the force of necessity and they have continued sober by the force of habit. I congratulate my friends of the Temperance party on the figures which I have just quoted.

We expect no increase in the income next year, for, as I have just remarked sobriety seems to have become a habit. The recent orders of the Government of India raising the cost price of opium from Rs. 8-8 to Rs. 11 a seer will also affect the revenue under the head 'Gain on the sale-proceeds of opium.'

Turning to Excise expenditure, towards the close of the year 1914-15, partial effect was given to the scheme for the reorganization of the Excise Department and its amalgamation with the Salt Department. The scheme has been further developed in the current year, but it cannot be completed till the financial position improves. The increase of Rs. 36,000 in the budget for next year over the revised for the current year is due mainly to the provision made for the probationary Superintendents and Inspectors appointed during the current year.

Turning next to the budget head of General Administration, I have nothing to add to the explanations contained in the Financial Statement.

As regards Ports and Pilotage, Receipts and Expenditure, I have little to add to the explanation given in the Financial Statement. The figures on both sides of the Budget are of course affected by the prevailing shortage of tonnage. The waterway in Chittagong harbour has continued to engage the anxious attention of Government. It is now recognised, both by this Government and by the Government of India, that a second and more powerful dredger is required at Chittagong; but it is also recognised that, even if funds were forthcoming, it is impossible at present to obtain the dredger. Meanwhile enquiries are being made as to the best type of dredger, and for 1916-17 the usual grant of 1½ lakh is being made to the Port Commissioners of Chittagong.

In regard to Stamps, I would explain that we found it necessary during the year to appoint a gazetted officer to deal with the valuation of the properties in Calcutta in respect of which probates and administrations are applied for. Hitherto the work had been done by a non-gazetted officer under the supervision of the Collector; but this was not deemed a satisfactory arrangement and it was considered advisable to place this important work in the hands of a more responsible officer.

In regard to Income-tax, I have nothing to add to what is contained in the Financial Statement.

I have also little to add to the remarks contained in the Financial Statement under the heads Interest, Refunds and Drawbacks, Receipts in aid of Superannuation, Superannuation Allowances and Stationery and Printing. I might, however, mention the buildings of the Military Accounts Department in Koila Ghat Street. Owing to the transfer of these buildings to the Eastern Bengal Railway we have to transfer to Sealdah the part of our Press which is now accommodated in Koila Ghat Street. This will necessitate a certain amount of additional expenditure.

As to Miscellaneous, the allotments under this head largely follow those of previous years. We have increased the General Reserve by half a lakh to meet unforeseen demands. We have thought it necessary to make some larger provision in this Reserve on account of the rigorous reductions made in the budgets of the various departments. We have also made a larger allotment for gratuitous relief. The sum of Rs. 50,000 provided in the current year's budget was found insufficient to meet the charges on this account brought about by the floods in Tippera and the drought in Bankura. We had to reappropriate very considerably in order to meet the necessary expenditure. We have, therefore, fixed the allotment at a much higher figure for 1916-17, as the outlook is not yet clear."

LIST OF BUSINESS—ITEM No. 8.

The Hon'ble Col. EDWARDS introduced the following heads :—

REVENUE—

XX—Medical.

EXPENDITURE—

24. Medical.

He said :—

"My Lord, during the past year our war reserve of 35 medical officers has been steadily depleted. The last Indian Medical Service man on the war call has just gone, making a total of 38. The posts formerly held by the Indian Medical Service officers have practically all been filled by non-Commissioned medical officers, and by this means a monetary saving has been effected, which will be more noticeable in the ensuing year.

Against this saving must be placed an increased expenditure owing to the rise in price of drugs, dressings, medical stores and diet.

No unavoidable expense will be incurred next year, but some expenditure must be met in connection with the Dacca Lunatic Asylum. It has been found absolutely necessary to improve the pay of the staff of keepers in this asylum, and some slight structural additions and alterations must be made both in the Dacca and Berhampore Asylums.

Our balances contain provision for the new Ranchi Asylum, but this work has been postponed owing to financial stringency.

During the past year the Tropical School has been completed, but it has not been equipped yet, and its opening will be no doubt postponed until after the war.

The hospital in connection with this school will be built by public subscription during the next year and I trust that by the end of the year, Sir Leonard Rogers, F.R.S., will have succeeded in getting a large number of the beds permanently endowed. Perhaps I may be allowed to mention here that in the last 220 years 34 men of the Indian Medical Service have achieved the very high distinction of being made Fellows of the Royal Society and that Sir Leonard has been the last to get it.

A site has been acquired during the past year for the Eye Hospital which is so urgently required; the building of this hospital will not, however, be undertaken next year. I wish to call attention to the fact that the overcrowding in the present Eye Hospital is becoming a grave matter. It is especially marked in the out-patient department where it amounts to a scandal.

I hope that before long the Belgachia Medical College will be in a position to claim the five lakhs of rupees which we have in our balances.

Major D. McCay, I.M.S., Professor of Physiology, is continuing his research work on diabetes, but the expenses incurred here are practically entirely defrayed by the Indian Research Fund.

Plans for the new Mitford Hospital buildings are now being prepared, based on Colonel Newman's very excellent suggestions. The work will be begun with the money already collected for the King Edward Memorial Fund.

These are the only points to which I think it necessary to call attention in this budget; but I wish to add that in that great group of buildings known as the Medical College, we have no hostel for students and what is worse still no servants' quarters."

26A. Agriculture.

REVENUE—

XXIB—Scientific and Miscellaneous Departments.

26B. Scientific and Miscellaneous Departments.

He said :—

"My Lord, I have the honour to introduce the budget heads which relate to the Forest Department.

The continuance of the War has adversely affected the timber market and has interfered with sales with the result that the gross revenue which we expect to realise during the current year will not exceed 11¼ lakhs. For next year the total receipts have been estimated at 11½ lakhs. This allows for some increase in the sales of timber which is anticipated, but much will depend on conditions which cannot be foreseen. On the expenditure side, economy has been observed and the current year's estimate has been reduced to 6¼ lakhs. In the estimates for next year economy has been observed and the total estimate of 6½ lakhs does not provide for anything but unavoidable expenditure.

I now turn to the receipts of the Agricultural and Veterinary Departments. The revised estimate of receipts for the current year has been raised to Rs. 84,000 from Rs. 82,000 in the sanctioned estimate. The small increase is due to larger receipts from Agricultural farms. The estimate for 1916-17 is Rs. 94,000. and provides for a growth in the revenue from Agricultural farms, especially the Rangpur Farm.

On the expenditure side of the budget under these heads Rs. 11,17,000 was provided for the requirements of the department for the current year, but this has been raised to Rs. 11,61,000 in the revised estimate. The increase is due to the expansion of the Agricultural Department, as well as to the appointment of additional auditors in the Co-operative Department. It was decided that in the present financial situation no proposals for expenditure that could be postponed without grave inconvenience should be admitted. The estimate for 1916-17 has therefore been considerably curtailed, making a provision of Rs. 11,29,000 only to carry on the current normal work of the Department.

Under the head 'Scientific and Miscellaneous Departments' the revised estimate of receipts for 1915-16 amounts to Rs. 5,20,000, as compared with Rs. 3,53,000 in the sanctioned estimate. The increase is due to larger sales of quinine for which there is a growing demand by the public as well as by the Military and other departments. The estimate of receipts for 1916-17 is Rs. 5,22,000. The expenditure under this head for 1915-16 was estimated at Rs. 5,05,000, but in the revised estimate it has been reduced to Rs. 4,64,000 The decrease is chiefly due to savings in the grant for contingencies of the cinchona factory and to smaller expenditure on Fishery Experiments. The estimate for 1916-17 is Rs. 6,44,000. The increase is due mainly to the provision of expenditure for the Director of Industries as well as for the development of industries, and also to the inclusion of the grant to the Dacca Museum."

43—Minor Works and Navigation.

EXPENDITURE—

45.—Civil Works in charge of the Public Works Department.

He said :—

"My Lord, I have the honour to introduce for the consideration of Council the Public Works heads of the Budget entitled Irrigation Major Works, XXIX—Receipts and 42—Expenditure and Minor Works and Navigation, XXX—Receipts and 43—Expenditure. The Major Works with which we have to deal in this Presidency, as at present constituted, are the Midnapore and Hijili Tidal Canals. The latter is for navigation only, while the former provides for both irrigation and navigation. The receipts have practically remained the same as previously, there being a slight increase under receipts due to navigation and the fact that the Tidal Canal has been cleared of silt and was therefore open for through traffic. The navigation receipts from these canals, however, still suffer from railway competition.

As the work of clearing silt from the locked reaches has been completed there has been no increase in the expenditure of the year 1915-16 and none is anticipated during 1916-17. As I remarked last year considerable expenditure is incurred every year on clearance of silt from portions of these canals, it would be more economical to carry out such work by a small suction dredger instead of by hand labour as at present. It is hoped that it will be possible to purchase a suitable dredger for this purpose when funds may be available.

I now turn to the heading 'Minor Works and Navigation,' which is more important in its effect upon Provincial Revenues. The chief sources of revenue under this head are the tolls received from navigation on the Calcutta Canals, the Sunderbans route and the Madaripur Bhil route, which together form the navigable route for boats and inland steamers between Calcutta and Eastern Bengal. The receipts from these sources are estimated at Rs. 4,75,000 out of the total estimated receipts of Rs. 6,20,000 against the current year's budget estimate of Rs. 5,70,000. The current year's revised estimate of receipts is expected to amount to Rs. 6,20,000. This large increase both in the current year's revised estimate and in next year's budget estimate is chiefly expected from the Madaripur Bhil route and is due to the fact that the channel has been open for navigation throughout the season, and it is hoped that this will continue to be the case in future years. On account of the opening of the Utterbhag Lock some increase is also expected under Navigation receipts—Magra Hât Drainage channels as compared with the actuals for 1914-15. There may also be an increase under water rates, Eden Canal, owing to the construction of a new supply sluice. By the construction of this sluice and connected works, when completed, a great improvement in the supply of water is expected and if this is realised it will be possible to send a larger discharge down to flush the Kana Nadi, the Saraswati and the other rivers included in this system of canals. The current year's revised estimate of expenditure under 'Minor Works and Navigation' remains practically the same as the budget, being Rs. 22,50,000 as against the budget estimate of Rs. 22,92,000. The decrease is under Establishment. A special provision of Rs. 1,30,000 has, however, been made for creating a spill from the Bidyadhari river. The work is urgently needed and cannot be deferred.

For expenditure during 1916-17 a total provision of Rs. 20,92,000 has been made. This is the minimum that will be required to keep existing works in efficient working state.

Under the head 'Capital outlay' a provision of Rs. 1,50,000 for works only has been made against the Madaripur Bhil channel for dredging the lower Kumar river at Char Magura and completing the works in connection with the new embankment along the south bank of Bhil channel. Both these works are essential in order that a return on the expenditure already incurred may be realised and are expected to prove immediately remunerative.

A sum of Rs. 1,00,000 has also been provided for the Bidyadhari spill acquisition. It is expected that this work, as at present proposed to be carried out, will be nearly completed by the end of the coming year. A sum of Rs. 15,000 has also been provided for the construction of the second supply sluice and connected works, Eden Canal, which are likely to be completed early in the ensuing year. The amount put down for river training works is the minimum that will be required to maintain the *régime* of the rivers during the dry season.

I have also to introduce the heads of *Civil Works in charge of the Public Works Department.*

I have nothing to add to the statements which have been made on pages 3, 11, 22 and 23 of the Amended Draft Financial Statement.

Paragraph 59, on pages 22 and 23, deals with the expenditure for this and the coming year. There is a decrease of Rs. 1,00,000 under Establishment in the revised budget of expenditure for this year which is due partly to an increase in the receipts from the Government of India as contribution towards the establishment employed on Imperial Works and partly to savings on account of officers on Foreign and Military Service.

For the coming year after providing for establishment and repairs and for the completion of works which will be in progress on the 1st April we have the small sum of Rs. 4,50,000 left for new works the distribution of which is shown on page 23 of the statement."

The Hon'ble MR. LYON introduced the following heads :—

REVENUE—

XVII—Police.

EXPENDITURE—

20—Police.

REVENUE—

XVI B—Jails.

EXPENDITURE—

19 B—Jails.

He said :—

"My Lord, I have the honour to introduce the heads of Jails and Police in the Budget for the coming year. I have very little to add to the Financial Statement, as it has given, either in the letterpress or in notes to the Statements, an explanation of all the variations in revenue or expenditure under these heads which are in any way noticeable.

As to Jails : we can hardly expect to maintain the profits from the heavy supplies made to the Military Department in 1915-16, and consequently the estimate of receipts from Jail Manufactures has been made cautiously and placed at Rs. 8,00,000 against Rs. 9,30,000 in the current year. Expenditure has, however, risen to 25½ lakhs, as compared with Rs. 24,31,000 last year.

This is due in part to the extra cost of dietary, but also to the large increase in the jail population, which has raised the cost of maintenance generally and has necessitated an expenditure of Rs. 25,000 on temporary accommodation for the extra prisoners. We hope also to be able to do something during the year to improve the position and prospects of our jail warders, a long-suffering class of public servants whose case requires urgent consideration at our hands. Rupees 50,000 have been provided in our Budget to meet the cost of a scheme prepared with this object, which has been submitted for the sanction of higher authority.

The Budget for the police force has been drawn up with the most scrupulous regard for economy, and the estimate of expenditure stands at Rs. 1,09,62,000 as compared with Rs. 1,10,26,000 last year. Although there has thus been a small reduction in actual expenditure, this sum includes some items of new expenditure which have been necessitated by recent conditions in Calcutta, among which may be noted the appointment of a Superintendent for the Motor Vehicle Department, the appointment of additional European police for duty in the trading quarters of the town and provision for an additional company of armed civil police.

Under general police heads we have had to provide for the continuance of the admirable work initiated by the Inspector-General of Police for dealing with organised gangs of dacoits under the Criminal Tribes Act, while the Training School at Surdah, which has been recently inspected by His Excellency the Governor and myself and found to be working on excellent lines, requires an additional grant.

There are also increases of not inconsiderable size, based upon actual expenditure in the past year, in the estimates for travelling allowance, clothing and so on, due to the enlargement of the force and its increased activity.

Unfortunately, however, the circumstances of the year prevent our proceeding with many excellent schemes for the improvement and strengthening of our police force, and the betterment of the position of the men employed in it, which have been worked up with great care and ability by the Inspector-General of Police and which the Governor in Council would have been very glad to have carried through with the minimum of delay. They are calculated to affect the efficiency of the police materially by improving the health, the position and the prospects of the force and thus making it more contented. The Government greatly regret the inevitable postponement of such schemes and sympathise sincerely with Mr. Hughes-Buller, the Inspector-General, who has been forced by considerations of health to take long leave and will thus be prevented from seeing these plans and schemes, in which he has taken such practical and zealous interest, brought into actual working."

The Hon'ble MR. HORNELL introduced the following heads :—

REVENUE—

XIX.—Education.

EXPENDITURE—

22.—Education.

He said :—

"My Lord, I have the honour to introduce the heads of Revenue and Expenditure in the Education Budget Estimate for the year 1916-17.

2. *Receipts.*—There is nothing specially interesting on the revenue side of the budget except the fact that the steady increase in the receipts of the

Education Department has been maintained, as will be evident from the following figures :—

			Rs.
1912-13	...	Actuals ...	... 7,77,676
1913-14	...	Do. ...	... 8,10,953
1914-15	...	Do. ...	... 8,47,110
1915-16	...	Sanctioned Budget	... 8,86,000
1916-17	...	Estimate ...	... 9,05,000

3. *Expenditure.*—The upward tendency on the expenditure side of the Budget has, however, been arrested and the estimate under review shows a decline not only from the sanctioned budget for the current year, but also from the actuals for the year 1914-15.

The following figures explain the situation :—

			Rs.
1911-12	...	Actuals ...	... 61,21,873
1912-13	...	Do. ...	... 73,76,829
1913-14	...	Do. ...	... 81,12,515
1914-15	...	Do. ...	... 92,07,022
1915-16	...	Sanctioned Budget	... 1,05,62,000
1916-17	...	Estimate ...	... 88,30,000

4. The abnormal financial conditions which now prevail are responsible for this state of affairs. The estimate which I am now placing before the Council shows a falling-off of Rs. 17,32,000 from the sanctioned budget for the current year, but this is solely under the Imperial assignments. Of the non-recurring Imperial grants a provision of Rs. 3,44,000 only has been made for expenditure during the next year. Moreover the recurring allotments have been reduced by Rs. 5,00,000—the sanctioned grant for the Dacca University. The total reduction under the Imperial grants amounts to Rs. 20,56,000. Against this must be set off an increase of Rs. 3,24,000 which has been allowed in the charges provided from Provincial Revenues, the total expenditure estimated from this source amounting to Rs. 63,66,000 against a sanctioned provision of Rs. 60,42,000 in the current year's Budget. The grant for the Calcutta University hostels has not been included in the above estimate of expenditure on the Provincial side of the Budget, but has been considered along with the other Imperial grants. The net decrease is, therefore, Rs. 17,32,000 as already stated.

5. The increase of Rs. 3,24,000 in the expenditure financed from Provincial funds is distributed as follows :—

	Increase (over the sanctioned provision in the current year's Budget).	Decrease.
	Rs.	Rs.
University	No change	...
Direction	...	6,000
Inspection	95,000	...
Government Colleges, General ...	24,000	...
Ditto, Professional ...	8,000	...
Government Schools, General ...	1,11,000	...
Ditto, Special ...	72,000	...
Grants-in-aid*	...	26,000
Scholarships	No change	...
Miscellaneous	47,000	...
Refunds	...	1,000
	+ 3,57,000	— 33,000

The total increase is therefore Rs. 3,24,000.

* Excluding the grant for the Calcutta University Hostels.

6. The Financial Statement before us explains the increase and the decrease in detail. I shall not repeat the explanation; I will content myself with setting out a few outstanding features of the estimate for the year in prospect—

(*a*) A provision of Rs. 25,860 has been made for five additional Assistant Inspectors for Muhammadan Education. This is not a new item. The appointments were sanctioned temporarily in 1914-15 and the charge hitherto has been met from savings in the Imperial grant for Secondary Education included in the Recurring Imperial assignment of Rs. 13,20,000—this assignment has been reduced in the estimates for the coming year to Rs. 8,20,000.

(*b*) Provision for the School at Hastings House, Alipore, has been made in the estimate under "Government Schools, General," "High Schools for boys."

(*c*) An increase of Rs. 30,000 has been provided for stipends for primary school teachers under training. The increase does not provide for any new stipends, but is intended to meet the cost of the stipends already sanctioned. There will be a deficit in the sanctioned budget for the current year under this head which will be made good from the Imperial recurring grant for the purpose.

(*d*) A provision of Rs. 60,000 has been included under "Miscellaneous" under the head "Grant to Dr. Bose for Scientific research", and the scholarship and research grants hitherto provided under "Arts Colleges for boys" have been withdrawn. On his retirement from the service of Government, Dr. Bose has been appointed an Emeritus Professor of the Presidency College and this provision represents his pay and research grants and the pay of his assistants.

7. To revert to the Imperial assignments. I will merely add a word in conclusion to show how the non-recurring grant provided in the Budget will be spent. A total provision of Rs. 3,44,000 has been made against all the non-recurring Imperial grants. This sum includes Rs. 50,000 which is the unspent balance of the 10 lakhs grant to the Calcutta University for college hostels in Calcutta. The provision is also designed to cover a contribution of Rs. 2,23,000 towards these hostels, which contribution will be in part payment of the amount of Rs. 3,50,000 which this Government have agreed to make over to the University from the balance of certain previous Imperial grants. After paying Rs. 2,73,000 to the University there will be a balance of Rs. 71,000, and this balance will be spent in completing the schemes in connection with the Baker Madrassa Hostel and the Calcutta University Institute which are now in hand."

LIST OF BUSINESS—ITEM No. 13.

The Hon'ble NAWAB SYED SHAMS-UL-HUDA introduced the following heads :—

EXPENDITURE—

19 A.—Courts of Law.

24.—Sanitation.

REVENUE—

XXXI.—Civil Works in charge of Civil Officers.

EXPENDITURE—

45.—Civil Works in charge of Civil Officers.

He said :—

"My Lord, I rise to introduce the heads of the Financial Statement standing in my name.

The total budget estimate for the year 1915-16, which was Rs. 1,01,24,000, has been raised to Rs. 1,05,40,000 in the revised estimate

with reference to the actual charges of the first eight months of the year. This increase is chiefly due to large payments of lawyers' fees in connection with political cases, to the extra expenditure caused by the appointment of Additional District and Sessions Judges, and to the charges under the Defence of India Act in connection with political cases.

The total estimate for the year 1916-17 has been fixed at Rs. 1,00,20,000. The decrease is due to provision having been made for 13 instead of 19 Judges of the High Court, and some reduction in the establishment and contingent charges of the Appellate Side of that Court owing to the creation of a separate High Court at Patna. Additional provision has been made in the budget for the grant of a contract allowance of Rs. 1,000 a month to Mr. Haydn for the supply of typewritten transcripts of evidence of witnesses in the Calcutta High Court, for an additional Legal Remembrancer and his establishment and contingencies, and for four new posts of District and Sessions Judges and their establishment in Bengal. With a view to improve prosecutions in important State trials, the post of Additional Legal Remembrancer has been created for a period of one year for the present. The main duty of the officer appointed to the post will be to work out, in consultation with the Legal Remembrancer, a detailed scheme for the organization of a Department of Public Prosecutions in Bengal. Increased grants for fees to pleaders in criminal cases in the mufassal, and for diet and travelling expenses of witnesses have also been provided for.

It has not been possible to make provision in the Provincial Civil Works Budget for the year 1916-17 for any new major works except Rs. 21,000 for the construction of drains and privies in the Alipore District Judge's Court. A provision of Rs. 18,900 has been made for works in progress. A sum of Rs. 5,000 has also been provided in that budget for judicial minor works and reserve."

"My Lord, I also beg leave to introduce the consideration of the figures in the revised Financial Statement for 1916-17 which relate to Sanitation. The figures will be found on page 56.

The expenditure for the current year was originally estimated at Rs. 3,07,000, exclusive of the lump grant of 9½ lakhs for recurring expenditure on Sanitation, but on consideration of the actuals of the past nine months this figure has been reduced in the revised estimate to Rs. 2,88,000. The decrease is due largely to the deputation of officers for military duty. In response to the present demand for stringent economy 6½ lakhs have been surrendered from the lump grant of 9½ lakhs. The principal items which have already been sanctioned from these grants are shown in paragraph 50, pages 19 and 20.

The estimated expenditure for the coming year is governed by the same policy of retrenchment. The maximum expenditure on Sanitation for which it has been found possible to provide in accordance with the general principles determining the Budget is Rs. 1½ lakh to be debited against the lump recurring grant of Rs. 9½ lakhs and Rs. 2,73,000 for administration of the Sanitation and Vaccination Department.

I am also to introduce the figures relating to Civil Works in charge of Civil Officers.

The receipt side of the estimates calls for little comment. The budget estimate for the current year was Rs. 1,57,000, but in the revised this has been reduced to Rs. 1,50,000 on the basis of 'nine months' actuals. The budget for 1916-17 has been taken at Rs. 1,59,000. The increase is chiefly due to re-settlement of ferries.

As regards expenditure, the revised estimate has been placed at Rs. 22,56,000 against the budget grant of Rs. 22,09,000 for the current year, and shows an increase of Rs. 47,000. The increase is chiefly due to the debit to this head of more than two lakhs from the lump grant for sanitation, provided under 'Medical' in the original estimate against the savings in the allotments at the disposal of the Divisional Commissioners and the District

Magistrates as well as to the curtailment of Rs 40,000 provided for repairs to feeder roads. The following grants have been sanctioned from the amount of 2 lakhs transferred from 'Medical' :—

	Rs.
Bankura Municipality for drainage and water-supply of the town	14,025
Chittagong Municipality to meet the pay of its European Engineer Secretary	10,200
Calcutta Corporation for drainage of the fringe area ...	42,017
Experiment on the sewage of Calcutta	5,400
Bankura District Board for tank digging and other sanitary works	50,000
Tippera District Board for excavating tanks	57,454
Improvement on sanitation in the town of Pankura ...	5,000
Burdwan Municipality towards drainage scheme ...	25,390
Total ...	2,09,486

In addition to Rs. 50,000 and Rs. 57,454 specified above, special grants of Rs. 82,666 and Rs. 27,546 were made, respectively, to the District Boards of Bankura and Tippera in excess of their legitimate share of the augmentation grant for the current year in order to enable them to alleviate distress of the labouring classes in those districts. A similar contribution of Rs. 25,000 in excess of a rateable share of the augmentation grant was made to the District Board of Birbhum to undertake anti-malarial measures in the malaria stricken areas of the district.

The estimate for 1916-17 amounts to Rs. 11,40,000 of which details for Rs. 10,73,000 are given in paragraph 60 of the Financial Statement.

The grant of 1½ lakh to the Calcutta Improvement Trust is the recurring annual contribution for 60 years with effect from 1911-12. The other grants which are usually made every year do not call for special comment."

LIST OF BUSINESS—ITEM No. 14.

The Hon'ble RAI PRIYA NATH MUKHARJI BAHADUR introduced the following heads :—

REVENUE—

X.—Registration.

EXPENDITURE—

12.—Registration.

He said :—

"My Lord, I beg to introduce the Budget Estimates relating to the Registration Department.

The receipts for the year 1916-17 are estimated at Rs. 20,50,000. The estimate for the current financial year was initially placed at Rs. 19,00,000. In the first nine months of the current year (April to December), the actual receipts, however, exceeded that in the corresponding period of 1914-15. by Rs. 1,17,152. The revised estimate for the current year has, therefore, been put at Rs. 20,00,000 and that of next year allows for an increase of Rs. 50,000 over this figure.

In 1914-15, with the outbreak of the War, the consequent dislocation of trade, specially in jute, and the suspension of credit, there was a rather serious fall of Rs. 2,00,000 in registration receipts. In the current year, the

loss has been nearly made good. The trade in jute has largely recovered and owing to the high prices of food grains and distress in several districts on account of floods and drought, there has been an increase in registrations and receipts which are likely to go up further in the coming year. It is a peculiar feature of the Department that prosperity and adversity contribute almost equally towards the increase of registrations. The former encourages speculation and investment of money in real property and the latter compels the poorer classes to mortgage or sell off their lands.

On the expenditure side, we have provided for Rs. 11,09,000. The sanctioned Budget for the current year was Rs. 11,23,000 and the revised estimate, based on the actuals, has been placed at Rs. 11,22,000. But this has been further cut down by Rs. 13,000 for the next year.

This smaller provision is due to the imperative need for economy which has obliged us not only to postpone expenditure on some important and useful schemes matured with considerable trouble and care for the improvement of the Department, but has compelled us to curtail even many items of necessary expenditure, such as the supply of furniture, iron safes, rebinding of books, etc.

The birth of this department, as an organized Department of Government, really dates from the year 1905, when the Sub-Registrars, working in their own homes and paid by commission, were replaced by a graded, transferable and pensionable service, the offices being taken over by Government. So that a great many things require to be done before the reorganization of the staff or the equipment of offices is complete. It is a pity, therefore, that we must wait till normal conditions return before we can give practical effect to the sanctioned scheme for improving the cadres of District Sub-Registrars and Sub-Registrars with a view to ensuring a more rapid flow of promotion, and to the larger and long-deferred scheme for improving the pay and prospects of the establishments at district head-quarters and mufassal offices, which is nearing the final stage of sanction."

RESOLUTIONS.

(*Under the rules for the discussion of matters of general public interest.*)

LIST OF BUSINESS—ITEM No. 15.

The Hon'ble BABU MAHENDRA NATH RAY moved the following resolution :—

This Council recommends to the Governor in Council that, in selected District Boards in the Province, steps be taken to increase the proportion of elected members, so as to admit of two-thirds of the whole District Board (exclusive of the Chairman) being elected by the Local Boards, under section 7 of Bengal Act III of 1885.

He said :—

"My Lord, it may perhaps be convenient if I give a summary, as briefly as I can, of the existing constitution of the rural boards as prescribed by law. The smallest units of rural boards in the districts outside the principal towns, are the Union Committees. Where they have been constituted in selected areas, the members of such Union Committees are elected from among the residents of the Union, except in certain special cases where Government might, for reasons to be stated in writing, otherwise direct. The next larger unit is the Local Board, the territorial limits of which are co-extensive with either a subdivision or two or more subdivisions combined. In 15 out of 25 districts in this Presidency, a Local Board must be established in every subdivision, and two-thirds of the members of each Local Board must be elected. Lastly, we have the District Board, and with regard to the constitution of the members of the District Board, and the proportion of such members as should be elected, the law requires that where the Local Board has been established in any District, it shall elect such proportion of the whole of the

District Board, as the Government may from time to time direct, provided that where Local Boards have been established throughout the whole area of any District, not less than half of the whole District Board, exclusive of the Chairman, shall be elected by such Local Boards. This is the existing constitution, and in setting it out, I have not trusted to my memory, but I have referred to the notes which I have prepared from the different sections of the Act. It is clear, therefore, that the question raised by this resolution is one entirely for the Government to determine by virtue of executive order and not by legislation. The law distinctly provides that it is for the Government to fix the proportion of elected members of a District Board, but a minimum is prescribed in case where Local Boards have been established for an entire area under the District Board, and the minimum prescribed is that one-half at least of the members of such District Boards should be elected by Local Boards. This minimum is under the law a compulsory minimum in the 15 districts to which I have referred, because a schedule of the Act sets out that in 15 districts which are named therein, Local Boards must be established for the entire area under the District Boards. This was the law that was made in the year 1885. Then we have the Royal Commission upon Decentralisation, and the resolution of the Government of India dated the 28th April 1915. It would perhaps save the time of the Council if, instead of referring to the report of the Royal Commission, I read an extract from the resolution of the Government of India summarising the recommendation of the Commission upon this point. Paragraph 27 of the resolution of the Government of India dated the 28th April 1915 runs thus : 'District and sub-district boards in the opinion of the Commission (Royal Commission upon Decentralisation) should contain a large preponderance of elected members together with a nominated element sufficient to secure a due representation of minorities and of official experience.' The paragraph goes on to say—'In the United Provinces the number of nominated members * * * ; in the Central Provinces the number of nominated members cannot exceed one-third of the total number.' With regard to Bengal there is a remark which is somewhat curious in the light of the actual facts, because the Government of India proceeded to say—'There is already a substantial majority of elected members both in the district and sub-district boards in Bengal and in Bihar and Orissa.' I take it in the light of existing facts to be a pious expression of a desire on the part of the Imperial Government that this should be the case, if it is not the case already. As a matter of fact, as I have just submitted to the Council, although the proportion of elected members of Local Boards is prescribed by law in the case of the 15 districts at least to be two-thirds there is no such proportion fixed by Government for the District Boards concerned. As a matter of fact, what I find, my Lord, is this,—I am referring to the figures available from the Government resolution published on the 5th January last, in the *Calcutta Gazette* reviewing the administration of District Boards. The figures supplied furnish interesting material for comment. I find that in 22 districts only a proportion of the number of the District Boards consists of elected members : out of 465 members, only 213 are elected. The remainder consists of *ex-officio* and nominated members, *ex-officio* members numbering in all in these 22 districts, 119, and the nominated members, 133. The total of *ex-officio* and nominated members being thus 252 against 213, the number of elected members. With regard to *ex-officio* members I find that these 22 District Boards contain the total number of 119, which will give in the average more than 5 *ex-officio* members to each District Board, and I hope the number is sufficiently representative of official experience in the language—if I may adopt the language—of paragraph 27 of the resolution of the Government of India.

My Lord, it seems to me the time has come when in selected District Boards at any rate in this Presidency, the proportion of elected members of the District Boards might be increased. We are all aware of the proportion of elected members in the municipalities constituted under the Bengal Municipal Act. No doubt it was not considered desirable that at the very beginning these rural boards lying outside the principal towns should start with such a majority of elected members. But the time, I submit, has come, when this

experiment among selected District Boards in this Province may fairly be made, and if official support was needed to the views which this resolution recommends, we have the opinion of the Royal Commission upon Decentralisation, which has been adopted by the Government of India. The resolution, my Lord, relates to the existing constitution, and therefore the recommendations of the Bengal District Administration Committee have no bearing upon the present question. We are all aware, at any rate those of us who have read the recommendations of the Bengal District Administration Committee on the subject, that the Committee looked upon Local Boards with disfavour, that they desire that the Local Boards should be abolished and Circle Boards should be appointed in their place. At the same time, the District Administration Committee suggest that when Circle Boards replace the existing Local Boards, they would not in the least affect the elected proportion of members of the District Boards. Their recommendations are that the functions now performed or discharged by the Local Boards with regard to the election of members of the District Board, should be discharged then, not by the Local Board, but by the Circle Boards which they would like to substitute in their place. The question therefore is not material, and any suggestion that, in view of the report of the Bengal District Administration Committee, this matter ought to stand over, is a point, I am sorry, my Lord, I would be unable to realise. The principle of election which is fair and which is reasonable and which is in consonance with the spirit of the time, and which is recommended by the Royal Commission upon Decentralisation, and which is adopted by the Government of India, should, I submit, be given effect to, whether the Local Boards, as now constituted by law, continue to exist or by any change of law, they be replaced by other Boards. This is all, my Lord, I have got to submit in support of my resolution."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said —

"I want only to correct a mistake. The Government of India have since corrected paragraph 27 of their letter and it now runs thus :— 'There is already a majority of elected members in several sub-district boards in Bengal and in a few such boards in Bihar and Orissa. As regards district boards, the present system in Bengal provides for an elected majority to be worked up to as each district progresses in capacity for self-government.'"

The Hon'ble BABU MAHENDRA NATH RAY said :—

"I am very glad this has been pointed out, but it does not affect in the least the principle which I am advocating, it rather supports it."

The Hon'ble RAI NALINAKSHA BASU BAHADUR said :—

"I feel great pleasure in supporting this resolution. I do not find any legal difficulty whatever which bars the carrying out of the terms of the resolution. The Governor in Council has power to lay down the proportion of members to be elected by the local boards. The question is whether it is advisable to increase the proportion of elected members. In my humble opinion however after the good work which has been done by the district boards they are entitled to greater privileges. It is also to be borne in mind that in municipalities the proportion of elected members is one-half, and I do not understand why in the case of district boards the proportion has been less especially when it is borne in mind that the Chairman of the District Board is the executive head of the District. In these circumstances I give my cordial support to this resolution."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, I have great pleasure in supporting this resolution. It is more than 30 years ago that the framers of the Local Self-Government Act—Act III of 1885—enacted that not less than one-half of the members of the District Boards (exclusive of the Chairman if appointed under section 22) shall be elected by the Local Boards. During the last 30 years though education has made rapid strides throughout the length and breadth of the land yet no steps have been taken by Government to increase the proportion

of elected members in the District Boards. In my pamphlet on 'Local Self-Government' which was published on the 30th November last—a few days before my esteemed and hon'ble friend Babu Surendra Nath Banerji had moved his Resolution in this Council for the extension of local self-government in this Presidency, while speaking of District Boards, the first thing that I suggested was to extend the proportion of elected members in the District Boards. I stated, 'With reference to District Boards, I think the majority of the members should be elected as in the case of municipalities, and not as at present only half the number. This is also the recommendation of the Royal Commission on Decentralization.' In paragraph 27 of the Local Self-Government Resolution of the Government of India, dated the 28th April 1915, we find the following: 'District and Sub-District Boards in the opinion of the Commission (the Decentralization Commission) should contain a large preponderance of elected members, together with a nominated element sufficient to secure the due representation of minorities and of official experience.' The Decentralization Commission submitted their report about seven or eight years ago. The Commission was composed of some of the ablest members of the Indian Civil Service—men like the Hon'ble Mr. Wheeler and the late lamented Mr. Ramesh Chandra Dutt If it was their deliberate opinion, after having taken a large body of evidence, that there should be a preponderance of elected members in the District and Sub-District Boards, we cannot understand why the recommendation has not been given effect to so long. It may be that your Lordship's Government may be desirous of taking the opinion of District Officers in this matter; but, my Lord, we cannot understand why these Commissions are appointed composed generally of picked men in the service if again the opinion of the District Officers has to be taken to give effect to their recommendation. It would not be necessary for your Lordship's Government to amend or alter the law. The framers of the Local Self-Government Act had the prescience to look far into the future and frame the Act in such a way as to meet the requirements of the progressive times. A generation has passed away since the passing of the Act, but we stand where we did 30 years ago. The municipalities have two-thirds of their members elected. There has not been so far any complaint for this preponderance of the elective element in the municipalities. Why should not the District Boards have the same proportion of elected members? My Lord, we must admit that of late a large measure of liberal policy has characterised the administration in this Presidency. I have advocated for the financial independence of municipalities more than once since April 1913 in my budget speeches in this Council and also in my pamphlet on 'Local Self-Government.' We are thankful to your Lordship's Government for having given us this right. A very important circular has recently been issued by your Lordship's Government regarding the appointment of non-officials as chairmen of municipalities. The circular shows unmistakeably which way the wind blows. These rights are no doubt a great step in advance. On the principle that 'knock and it shall be opened' we ask your Lordship's Government for this privilege of a preponderance of elected members in District Boards. It would not be too much to say that the reform which is now sought to be introduced by this resolution will be greatly appreciated in all districts. I feel bound to say that the privilege which should have been granted ere now has unnecessarily been kept back and remains long overdue. It is for your Lordship's Government to grant it and thereby satisfy the educated community of Bengal."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"I cordially support the resolution which has been so ably moved by my hon'ble friend Babu Mahendra Nath Ray. I was waiting, my Lord, to listen to the arguments of the Hon'ble Member in charge of the Department, as to what he had to say in reply to my hon'ble friend the mover of the resolution. But the Hon'ble Member has chosen to remain silent. Perhaps he will speak after everyone has spoken, but it would have been a great advantage to listen to his arguments and to understand both sides of the question. My Lord, as far as we have been able to follow the argument

for increasing the number of elected members, one thing has particularly struck me, and it is this—that since 1885, 31 years ago, the elected and nominated element in the District Board has been half and half, to which of course must be added the Chairman of the District Board who is generally the Collector of the District. Therefore, my Lord for the last 31 years the official majority has been predominant in the District Board. When we look back to the 31 years that have rolled by since 1885, we find that momentous changes have been made in the system of local self-government in this country, and momentous changes have also been made in the constitution of your Excellency's Government; but the constitution of the District Board has remained stationary without any changes, without any progress during the last 31 years My Lord, the Local Boards are situated in the interior of the country in backward places and there two-thirds majority is granted by Government. Here, in the sadar districts, where the cream of the educated community assembles and presides, half the number is allowed to be elected, and that has been going on for the last 31 years. People, rightly or wrongly, complained that the District Boards seemed to have a little more power than the Local Boards, and it is for that reason that a non-official majority, or a little larger preponderance of the elected element has not been granted. Having regard to the progressive development of self-government in the country, the aspirations of my countrymen to have a larger and larger share in the administration of the districts remain unfulfilled. Therefore, there is naturally a grievance in this respect, which, I believe, your Excellency's Government will see fit to remove. My Lord, this is an opportune time, having regard to the hope, and I should say the unqualified expression of assurances, uttered in higher quarters, that Indians should take their proper place in the administration of the country. This is the proper time to give effect to that pledge. This, my Lord, is the last rung of the ladder of self-government—the granting of a somewhat larger number of the elected element in the District Board. The administration of the country, taken as a whole, will be vested in the officials. This is a very reasonable and moderate request, and I hope your Excellency's Government will accede to it."

The Hon'ble BABU SURENDRA NATH BANERJI said :—

"My Lord, I do hope and trust that my hon'ble friend will rise from his place and give us the assurance that Government are prepared to accept this resolution. The resolution is an exceedingly moderate one. My friend, the hon'ble mover, does not want that in all the District Boards throughout this Presidency the elected element should at once be raised to two-thirds. His submission to this House is that in certain selected areas this should be done. If he had gone a step farther and if he had urged that in the 15 districts where there are Local Boards, two-thirds of the members of the districts should be elected. I, for one, should have supported him wholeheartedly, and his position from a logical point of view, as well as from the standpoint of the policy of Government, would have been altogether unassailable. I cannot possibly understand what objection there could be to the acceptance of this resolution except the one made, that there are districts in which there are no Local Boards. To this objection, I would say—eliminate those districts, confine the reform merely to those districts where there are Local Boards, and you have 15 districts in Bengal in that category. It therefore seems to me that the strength of this resolution lies in its extreme moderation, and I hope and trust that my friend will be in a position to accept this resolution. My Lord, the policy of Government has been distinctly in favour of the extension of local self-government. I may say it is part and parcel of the policy which underlies the reform scheme of 1909. My Lord, those who have read Lord Morley's famous Despatch on the reform scheme will bear in mind his observations and pronouncements that local self-government forms an integral part of the scheme of constitutional reform which is associated with his name. In pursuance of that policy the Government of India and your Excellency's Government have taken definite and deliberate steps for the

purpose of advancing local self-government. My Lord, my hon'ble friend opposite has just read out an extract from the Government of India's report in regard to certain corrections made by him. What does the report say? It says that the minimum limit should be one half, and that it is to be worked up as circumstances progress. Therefore that seems to me to be the strongest argument in favour of my friend's resolution. My Lord, the Decentralization Commission have recommended that there should be a preponderance of elected members in these local bodies. In the municipalities we have that preponderance; in the rural areas, I admit that you should proceed with a little caution, but have you not been overcautious in this matter? Thirty-one years back we started the experiment with one-half elected element, and after a generation has passed away, we stand on the same footing, and still the elected element is one-half. Is it not time to make advance, and if an advance is to be made, is it not cautious and statesmanlike that we should have selected areas where an advance should be made? and it would be a policy which would have the unstinted support of the educated community of this Presidency. My hon'ble friend observed some time ago that he was going to remove municipalities from Schedule I, and I believe that he has already taken steps in that direction, and a circular has been issued to all municipalities, asking them, or rather giving them definite instructions, that they should as a rule elect a non-official as chairman. This represents the distinct trend of your Excellency's policy in this matter as regards the District Boards. My hon'ble friend stands somewhat pledged in this matter, and I will read out what he said in reply to my resolution on the 13th of December last. In the course of his speech he said :—

> **The desirability of raising the proportion of elected members in the District Boards will be taken up for consideration in connection with the resolution of the Government of India.**

At that time, three months ago, it was an open question. Since then, there has been a deliberate advance in the direction of the expansion of local self-government. I do hope and trust that he will be able to give us an assurance that in conformity with the somewhat modified speech which he gave to this House, he is now prepared to try the experiment referred to by my hon'ble friend in selected areas. It would be in entire accordance with the policy of the Government of India, the recommendation of the Decentralization Commission and the policy of your Excellency's Government and, what is more, in entire conformity with the advancing trend of educated opinion in this country. I do hope and trust that my friend will accept the resolution moved by my friend."

THE Hon'ble NAWAB SYED SHAMS-UL HUDA said :—

"My Lord, I fully remember the promise which I made in dealing with the resolution moved by my hon'ble friend, Babu S. N. Banerji, for further advancement of local self-government in this Presidency. I gave a promise to take up for consideration the question of raising the proportion of elected members in the District Boards. My hon'ble friend, Babu Mahendra Nath Ray, has not allowed the grass to grow under his feet and has asked for a very early fulfilment of this promise and we, on our part, have not been slow in giving the matter the consideration we promised. If in dealing with this Resolution I do not enter into a lengthy consideration of the arguments put forward by the hon'ble mover of the resolution and of others who have spoken in support of it, it is for the simple reason that Government are not opposed to the principles underlying it. We have not, however, been able to accept the resolution because considerable changes are in contemplation in the scheme of local self-government under the existing Act in accordance with the recommendations of the District Administration Committee. It is in contemplation to substitute Local Boards by Circle Boards, and the reasons for the change will be found fully set forth in

the report of that Committee. The keynote of these alterations will be found in the following remarks at page 32 of the report, the soundness of which will, I am sure, not be questioned by those interested in the development of local self-government in this Presidency :—

> We think that it was a mistake to make the District Board the administrative unit of local self-government and to leave the smaller bodies dependent on its charity and with no clearly-defined position in the general scheme. This was to begin Local Self-Government at the wrong end, for the system ought to start from the bottom and work up, as was originally intended in 1883, rather than from the top and work down.

When the Circle Boards are established Government will then consider, and, I may assure the House, consider sympathetically, the proposal for a larger elected element in the constitution of the District Board. My hon'ble friend, the mover of the resolution, has modestly asked for an increase in the number of elected members in selected District Boards. When the time comes Government will probably go farther and if a selection has to be made at all it will probably be of those who should not get the more liberal constitution rather than those who should. In view of what I have said it will be for my hon'ble friend to consider whether he would press the resolution."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"My Lord, I am sorry that I am unable to accept the suggestion so kindly made by the Hon'ble Member who has just explained the position of Government. As I said in moving my resolution, I had occasion to give a careful attention to the report of the District Administration Committee, and if I may say so without disrespect, I agree with the recommendations of the District Administration Committee that we should not begin working from the top downwards, but that we should work up to the top. But if the point which is just before the Council is carefully examined, the recommendation which I propose for the acceptance of this Council contemplates not working from the top downwards, but from the bottom upwards. Here, we have Local Boards which have the power of electing a proportion of members of the District Boards which constitute the top. The Local Boards by their very consitution have a majority of elected members in their bodies, and they are required to help in the constitution of the higher body—the District Board—and the point is whether these Local Boards which have an elected majority in their constitution, and which have got to perform the statutory duty of helping to make up the District Board, should not, as representatives of the ratepayers, have the power of returning a larger proportion of members to the District Board. The principle which this question raises is one which is quite in consonance with the recommendations of the District Administration Committee, namely, that we should work from the bottom upwards. I am glad to hear although we have no official information, that some of the recommendations of the District Administration Committee, have been embodied in a Bill which will come before this Council for consideration. If the recommendations of the District Administration Committee with regard to the replacing of the existing Local Boards by Circle Boards, forms a part of this Bill, it is a matter which will no doubt be discussed on its merits by this Council, but that, I take it, will require time, and I do not believe that in a matter like this we shall have the Local Self-Government Act of 1885 amended for some time to come. At the same time I fail to see why the existing constitution should not be utilised for the purpose of improving the constitution of the District Boards. If it is suggested that the present Local Boards have failed to do their duty, this is a matter of very serious importance upon which we have not heard the Hon'ble Member making clear to us the position of Government. I was looking into the constitution of the Local Boards as revealed by the last resolution of the Government on the subject, and I find that in all the numerous Local Boards in the 15 districts to which I have referred, people return the proportion of requisite members by election, and there is one Local Board in Arambagh which appears to have failed to make the election, so that Government appointed members to

to the Board. This does not show that, so far as the duty of electing two-thirds of the members of the Local Board is concerned—a right the electors enjoy under the law—they have failed so far. The reason why Local Boards have not been quite so successful is because they occupy a very subordinate position to the District Board, and I agree with the report of the District Administration Committee that, under the Act and under the present constitution, they are mere agents of the District Board. But surely that does not take away their respresentative character. The Local Boards or a substantial majority of them represent members elected by the cess-payers concerned, and I fail therefore to see why the Local Boards which surely possess a representative character under the constitution should not have the right of electing more than the minimum number of members of the District Board as required by the statute. I am sorry, therefore, my Lord, that I am unable to withdraw the resolution, and I beg that it might be put to the vote."

A division was then taken with the following result :—

LIST OF BUSINESS—ITEM No. 16.

The following resolution was to have been moved by the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

"This Council recommends to the Governor in Council that a recommendation be made to the Governor General in Council that it be provided in the Regulations for the nomination and election of additional Members of the Legislative Council of the Governor of Fort William in Bengal, that the additional Member to be elected to the Bengal Legislative Council by the non-official Commissioners of the Corporation of Calcutta, under Regulation II, sub-head (xi) of the said Regulations, shall not be a Commissioner of the Corporation, or that, in the alternative, a separate electorate be formed for the purposes of the election, comprising such classes of persons as the Governor General in Council may deem fit."

He said :—

"My Lord, since I gave notice of this resolution, I have had an opportunity of consulting some of my hon'ble friends, and I find that there is a difference of opinion among the non-officials as to the advisability of moving a resolution of this character at the present time in this Council. I myself am very unwilling to raise a discussion which may lead to controversy, and in these circumstances, I beg that I may be allowed to withdraw this resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 17.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following resolution :—

"This Council recommends to the Governor in Council that the opinion of Judicial Officers and various public bodies be invited on the proposal to frame a scheme for the execution of Civil Court Commissions by means of Sub-Deputy Collectors and that, meanwhile, the said proposal be held in abeyance."

He said :—

"My Lord, I am sorry I cannot adopt the same course with regard to this resolution. In moving this resolution, my Lord, I do not wish at the present stage to make a long speech, but I wish to place a few facts before the Hon'ble Members of this Council in order that they may know the history of the system which is just now in force, and also the various circumstances under which that system came to be developed. It appears that as early as 1890 a report was submitted to Government by Messrs. Toynbee and Stevens on the ministerial establishments and they brought to notice the very unsatisfactory working of employing civil court amins to make investigations. They therefore recommended the total abolition of that system. The proposal went up to the High Court and their Lordships insisted that members of the legal profession who might be employed in carrying out these commissions, must be well qualified in surveying. In 1902 a system of examination of survey was introduced and at the present time the pleaders who are employed in carrying out these commissions, are gentlemen who held certificates of proficiency in surveying. I think it is known to members of this Council that this class of legal practitioners who are generally employed in carrying out civil court commissions have practically given up their professional work, and this is their only source of income. When this system was introduced, a sort of promise was given that, so far as may be practicable, pleaders who have got the qualification of surveying would be preferred to outsiders, and this system has, I understand, been consistently followed. It now appears in the letter which has been addressed by the Chief Secretary to the District and Sessions Judges, that it is proposed to

frame a scheme abolishing the existing system and introducing a system by which Sub-Deputy Collectors, with the help of a subordinate staff of amins, will carry out this work. Now, my Lord, I do not know if public bodies or judicial officers in each District were consulted before a scheme like this was taken into consideration. I find from the letter itself that the High Court Judges were consulted Whatever may be the value of the High Court as the repository of judicial wisdom, I doubt whether the Judges of the High Court are competent to advise in a matter like this, as they have seldom occasion to deal with Civil Court Commissions. It is only the Munsiffs and Subordinate Judges who have to deal first hand with the work which is done by the Commissioners under the present system, whose opinion can be of any real value and it is very unfortunate that this body of men, who alone are competent to give Your Excellency's Government the most efficient advice in this matter, were left out, and those consulted were the very persons who have never had anything to do first hand with the work done by the present body of Commissioners. It is a pity that on the recommendations of their Lordships of the High Court it is proposed to abolish the present system and introduce a system for which I myself see no justification.

It will be seen, my Lord, that the present body of men who execute these commissions, are in the first place graduates in law of the University, and are pleaders of some standing. They know the practice of working of the courts, and over and above that, they have got proficiency in surveying. I cannot see how the Sub-Deputy Collectors can be considered at all a superior class of men, to whom might be entrusted the duty of carrying out the Civil Court Commissions. At the same time I do not wish to labour this point because my resolution only wants that an inquiry may be made, and that the opinions of judicial officers may be collected. I hope your Excellency will have no objection to this course. The change that it is proposed to make is a somewhat drastic one, and before a change of this character is introduced, I think it is but fair that the opinions of those who are competent to advise your Excellency's Government in the matter should be consulted, and if there is a substantial majority in favour of the change, sufficient time should be granted for this information to be collected. Till then I hope the proposal may be held in abeyance. With these words, my Lord, I beg to commend this resolution for the acceptance of this Council."

The HON'BLE BABU RAMTARAN BANERJI said :—

"My Lord, I agree with the mover of the resolution that a general scheme for the execution of Commissions for local investigations should receive careful consideration from your Excellency's Government, and that the opinion of judicial officers and of public bodies should be obtained on this scheme. Under Rule 9 of order 26 of the Civil Procedure Code the power which is now vested in the court to issue the Commission to such person as it thinks fit will be taken away as soon as the local Government makes rules as to persons to whom such Commissions shall be issued. It is therefore necessary, *firstly*, to inquire whether the existing system of appointing pleader-commissioners for the work has failed ; if so, in what respect, and can the existing system be improved ; and *secondly*, whether the appointment of Sub-Deputy Collectors with a staff of amins under them to do survey and other work in connection with local investigations in civil cases is likely to prove more satisfactory, or in other words whether it would be an improvement on the existing system.

The abolition of the old system of having local investigations done by civil court amins and the introduction of the existing system was effected after mature consideration. There was the report of Messrs. Toynbee and Stevens, there were the opinions of the Hon'ble Judges of the High Court and various other materials which were duly considered, and all these resulted in the repeal of Act XII of 1856 and the passing of the Act II of 1899.

Since then a large body of survey-passed pleaders have qualified themselves for the execution of such Commissions and their work generally has

been found satisfactory, at any rate there has been no serious imputation, as far as I am aware, made against their honesty. No doubt these pleader-commissioners have proved far more expensive than Civil Court amins, but it is not at all difficult to prescribe rules regulating their remuneration, their hours of work and other matters of detail. As yet we have not been able to ascertain whether there are any strong and cogent reasons for the discontinuance of the present system, although it is capable of much improvement. These pleader-commissioners have in many cases sacrificed their prospects in the Bar to secure work as Commissioners, and some of them have proved efficient and earned considerable experience. and now, after many years of toilsome, arduous and honest work, to be all of a sudden deprived of their means of livelihood may result in great hardship in many cases, especially in the case of those who have advanced in years. Moreover the appointment of Sub-Deputy Collectors with a staff of amins under them to execute commissmissions for local investigations in civil cases, I am not disposed to think will prove after all satisfactory. True it is that Sub-Deputy Collectors are mostly graduates of the University, whose integrity is unquestionable, but they belong to a different branch of the provincial service. They belong to the Executive branch and are subordinate to the District Collector.

They are in no way subordinate to the Civil Courts whose commissions they are to execute. No doubt inquiries as to prevailing rates in Enhancement suits are, under section 31 of the Bengal Tenancy Act, made by Revenue Officers as has been pointed out in the circular ; but the delay which takes place in execution of the work by them has proved embarrassing to the Courts and highly inconvenient to the suitors. Requisitions from the Civil Courts do not always meet with ready compliance. Moreover the work done in many cases is perfunctory and sometimes ignores the conditions which the law imposes in the ascertainment of rates. I know of a Sub-Deputy Collector who, in determining prevailing rates, altogether lost sight of the important provisions of the Bengal Tenancy Act that the rates of rent should be those paid by ryots of the same class in respect of similar description of lands, with similar advantages, and while examined before the Civil Court reiterated his ignorance of the law. The Survey and Settlement Proceedings of Estate Chowrashi conducted by the Revenue Officer some years ago betrayed the same state of things.

It appears from the reports of the decisions of the High Court that the quality of the work of the Revenue Officers has not always impressed the Hon'ble Judges favourably. There are cases in which three separate reports were made one after the other by the Revenue Officer, but still it did not satisfy the Civil Court.

To obviate this difficulty in some districts the work of the Revenue Officer under Chapter X of the Bengal Tenancy Act is given to the Munsiff deputed for the purpose.

But the strongest objection to the proposed scheme is that neither the Sub-Deputy Collector nor his staff the amins will be subordinate to or directly under the control of the Civil Courts. This is likely to delay the execution of the work and is hardly conducive to efficient work. I should go further and say that the work is likely to suffer if those who are to execute it are not directly subordinate to the Court whose orders they are to carry out. The Sub-Deputy Collector is not the servant of the Civil Court but of the District Collector who can make or mar his prospects in the service. But no such consideration will weigh with him in doing the work for the Civil Court and this may give rise to friction.

The scheme, as far as one can make out, provides for some portion of the work being done by the Sub-Deputy Collector and by far the greater portion, if I may take it, by his subordinate staff the amins, he being held responsible for their work. I am afraid this may in practice lead to a return of the old repealed system of having local investigations carried on by civil court amins. The fact that formerly we had the Munsiff or the Sub-Judge, or the District Judge directly controlling and supervising their work and now the work of supervision will be done by the Sub-Deputy Collectors who no doubt

may have the advantage of personally going to the *locale*; I am afraid, is not likely to improve matters much. On the contrary the chances are that there is likely to be a renewal of the practices or rather the malpractices of the old system. Such practices were pointed out in the joint report referred to above and there can be no doubt that they existed. Your Excellency will therefore be pleased to give this matter your consideration with the help of the materials and the opinion of public bodies and judicial officers which may be placed before the Government and as the scheme bears upon the administration of justice by the Civil Courts, the innovation be not introduced before the matter is fully considered by your Excellency."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, before dealing with the resolution I should like to give a short history of the employment of pleader-commissioners for executing surveying commissions because the facts stated by the Hon'ble Mover of the resolution are incomplete. Originally this work was entrusted to civil court amins. Apart from other defects it was found that the retention of a permanent inelastic staff to do fluctuating work was undesirable and in 1890 Messrs. Toynbee and Stevens recommended the total abolition of the system and the employment of junior pleaders on that duty. In 1896 the Hon'ble Judges of the High Court were consulted and they expressed themselves on the whole in favour of making the experiment and, as a necessary first step, recommended the repeal of Act XII of 1856 so far as Bengal was concerned. Accordingly the Act was abolished in 1899. To test the knowledge of pleaders to be employed, from 1902 an examination was instituted to be held every year at the Sibpur, Patna, Dacca and Cuttack Colleges under the control of the Pleaders' Survey Examination Board. In April 1914, the Board reported that they were not satisfied with the results of the examinations and were of opinion that it was not possible for pleaders with their scanty opportunities for learning and practising survey to become a competent agency for the performance of this important technical work and recommended the organisation of a skilled service of surveyors or the employment of some other agency for the performance of the work now done by pleader-commissioners. In May 1914, Government consulted the Hon'ble Judges of the High Court on the question, and the Hon'ble Judges after consulting all the District Judges under them recommended the abandonment of the present system and the creation of a service of specially trained men in surveying, and suggested that the system should be tried in selected areas. In support of their recommendation the Hon'ble Judges referred to numerous complaints received of the unsatisfactory manner in which surveying commissions issued by Civil Courts were being attended to and to the opinions received from the District Judges, who were on the whole unfavourable to the existing system of pleader-commissioners and considered them to be expensive, dilatory and not easily amenable to check and control.

The question has since been under the consideration of this Government. As the High Court have condemned the present agency of pleader-commissioners it has become necessary to find a substitute. We cannot accept the contention that the Judges of the High Court are not competent to advise in a matter like this. We are at present drawing up estimates of a new scheme and when ready it will be submitted to the High Court and the Council may rest assured that no orders will be passed without the fullest consideration of the views of those who are competent to give an opinion of value on the question. We cannot, however, accept the resolution in its present form, but in view of what I have said it is for the Hon'ble Mover of the resolution to consider whether he will serve any useful purpose by pressing it."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"The Hon'ble Member in reply to my resolution has twice referred to the High Court. As to the opinion which has been given, and which has perhaps led to the circular letter which has been addressed to

the District and Sessions Judges, I have already said that so far as I am concerned, I am not one of those who is dazed by the judicial glamour of the High Court, and I repeat that the High Court Judges are not necessarily competent to advise Government for the very simple reason that they seldom have any occasion to deal with the reports or with the work of these commissioners, first hand. I am certainly very glad to hear that Government propose to consult those who are competent to give advice in this matter. It is for this reason that in moving this resolution, I suggested that the judicial officers, meaning by that munsiffs and subordinate judges, should be consulted if any consultation is at all necessary, and I repeat that it will serve very little purpose if the consultation is only confined to the High Court Judges, or even the District Judges, for even the latter have seldom any occasion to deal with the work of the pleader-commissioners.

As far as I can understand the Hon'ble Member in charge is ready to take the opinion of those who are competent to advise in this matter, and I think I may fairly claim that Government have accepted my resolution."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"I have not really accepted the resolution."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"Since the Hon'ble Member gives the assurance that Government are going to consult those who are competent to advise in this matter, I beg to withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 18.

The Hon'ble RAJA MAHENDRA RANJAN RAY CHAUDHURI was to have moved the following resolution :—

"This Council recommends to the Governor in Council that all travelling and halting allowances of Gazetted Officers in Civil Departments, including Members of Council, be stopped for a period of two years, and the money thus saved be used for starting a fund, which shall also be open to public subscriptions, and which shall be known as the Bengal Patriotic Fund for the Benefit of Disabled Soldiers; and its proceeds devoted, in accordance with the recommendations of a Committee to be appointed hereafter, towards helping disabled soldiers of His Majesty's Indian Army returning from the War."

He said :—

"My Lord, in view of the cheery budget just presented and passed by the Government of India giving a fairly large scope to most people for the exercise of patriotism and which, doubtless in due course, will be further extended, and owing to certain other reasons subsequently pointed out to me, I beg with your Excellency's permission, to withdraw the resolution standing against my name."

The resolution was then, by leave of the President, withdrawn.

Improvement of village sanitation, etc.

III. Will the Government be pleased to state what practical measures were carried out in the years 1914 and 1915 by the Sanitary Department and the District Boards in each district towards the improvement of village sanitation and the supply of good drinking water, and also the amounts spent by each District Board for those purposes?

The following answer by the Hon'ble MR. DE was laid on the table :—

"A statement showing the expenditure of each District Board on these objects during the past two years, and the nature of their activities, is laid on the table. The Department of the Sanitary Commissioner is not concerned with carrying out works of this nature. No scheme has been executed under the supervision of the Sanitary Engineer outside municipal areas."

(*c*) Is it a fact that both these persons were arrested by the Police at 5-30 A.M. on the 18th November, 1915, and were not produced before any Magistrate until 2 P.M. on the day following, *i.e.*, more than 32 hours after their arrest?

(*d*) Are the Government inquiring into the cause of the alleged undue detention?

The following answer by the Hon'ble MR. KERR was laid on the table —

"(*a*) Yes.

(*b*) An order under Rule 3 of the Defence of India Rules directing Anukul Chakravarty to take up his residence at Contai was served, in his

absence, on his father on the 8th November 1915 by the Superintendent of Police, Noakhali, in accordance with section 70 of the Criminal Procedure Code. Anukul was arrested in Dacca on the 18th November 1915, and prosecuted under section 109 of the Criminal Procedure Code.

(*c*) and (*d*) It is a fact that these two persons were arrested by the Superintendent of Police at the beginning of the search in the early morning of the 18th November. They were sent to the court shortly before noon on the following day. It is reported that this breach of the law was due to the fact that the accused were arrested for the second time at 12-30 P.M. on the 18th November, after the conclusion of the search, by a Sub-Inspector who was not aware of their previous formal arrest by the Superintendent of Police, and consequently considered himself entitled to hold them under arrest until noon on the 19th. The Governor in Council regrets that the law should have been infringed in this way, but he is satisfied that a *bona-fide* mistake was made, and does not propose to take any further action in the matter."

(b) Babu Kshirod Chandra Sen, one of the two teachers of the Mechanical and Electrical branch, is under orders of transfer to the Chittagong Collegiate School. The pay of the post is Rs. 45 a month outside the grades, but the arrangement will not involve any loss to him as it is proposed to allow him to draw his grade pay up to 31st March, 1916, and thereafter to appoint him to a vacancy that will be available in the Subordinate Educational Service. He will in that event be given the same place in the grade that he at present enjoys. The other teacher of that branch—Babu Animesh Chandra Ghosh—has served for three years. He will be eligible for compensation gratuity if he cannot be provided with an appointment elsewhere. The two teachers in the Survey classes of the Dacca School of Engineering are eligible for compensation pension or gratuity in accordance with the Civil Service Regulations and their cases are now under the consideration of the Director of Public Instruction, Bengal.

House-searches in Dacca.

XI. (*a*) Will the Government be pleased to state whether it is a fact that on the 18th November, 1915, Mr. Tegart, Deputy Inspector-General of Police, together with the District Superintendent of Police of Dacca, conducted a house-search at a place called Alur-Bazar in Dacca and took away quite a number of apparently innocent-looking articles on the strength of a search warrant which empowered them to search the house and seize arms, papers, documents and other articles or things relating to the alleged offence under section 395 of the Indian Penal Code.

(*b*) Is it a fact that, among the articles seized and carried away by the Police on the said occasion, there were, besides household utensils of every day use, pictures of Sri Chaitanya and Swami Vivekananda, a copy of "Gitanjali" and one of "Gora" by Sir Rabindranath Tagore, a biography of Bankim Chandra Chatterjee, a copy of the late Mr. Keir Hardie's book "India", odd copies of newspapers and periodicals, treatises on English Grammar and Translation and a copy of a dictionary?

(*c*) If the answer to the foregoing question be in the affirmative, will the Government be pleased to state whether there was any allegation that the articles mentioned formed part of the loot of the dacoity which occasioned the search?

(*d*) Are the Government considering the desirability of enunciating the principles on which seizures of literary masterpieces and sacred books and pictures are made in Bengal on the strength of search warrants?

The following answer by the Hon'ble MR. KERR was laid on the table :—

"(*a*) It is a fact that Messrs. Tegart and Bradley searched a house at No. 107, Alur Bazar, in Dacca on the 18th November, 1915, on the authority of a search warrant issued under section 96 of the Criminal Procedure Code in relation to the commission of an offence of dacoity.

(*b*) It is a fact that the articles mentioned in the question were taken away by the police from that house.

(*c*) No allegation was made that these articles formed part of the loot of the dacoity which occasioned the search.

(*d*) In this house two persons were found living in such suspicious circumstances that they were subsequently ordered to find security under section 109 of the Criminal Procedure Code. One of them (Anukul Chakravarty) at first refused to give his name or address or to answer any questions, but eventually gave a name and address which was found on subsequent inquiry to be correct. The other man (Bhuban Behari Bose) gave a name and address and an account of himself which Mr. Tegart believed to be false and which was subsequently found to be false. There were no other persons in the house in question except the two accused persons whose personal property was seized by the police for the purposes of the inquiry in which they were engaged under the law and especially of establishing the identity of the accused persons. There is no hard and fast rule about the seizure of documents, etc., for which a search is authorised under a warrant, and every case must be judged on its merits. It is frequently not possible to examine minutely all documents and books, etc., which may be found during such a search, and as they often contain names and other information necessary for the investigation, and as cryptic communications are often carried on between men of suspicious character with the help of apparently innocent works and printed matter, it is imparative to make a minute examination of all such papers before the connection of an accused person with a specific offence or his association with other suspects can be definitely established or negatived."

Charges	6,40,01,000	6,17,97,000
Closing balance	2,58,90,000	2,60,97,000

5. Copies of the revised Financial Statement are circulated herewith.

N. D. BEATSON BELL.

REVISED FINANCIAL STATEMENT, BENGAL, 1916-17.

PART I.—General Review.

(1) ACCOUNTS FOR 1914-15.

In the revised estimate for 1914-15, which was laid before the Council on the 27th March 1915, the receipts of the year were taken at Rs. 6,20,06,000 and the charges at Rs. 6,56,86,000, while the estimated closing balance was Rs. 2,81,31,000. The accounts of the year, which have now been finally closed, show that the actual receipts amounted to Rs. 6,22,09,895 and the charges to Rs. 6,67,60,684, and the closing balance was Rs. 2,72,60,323. The receipts were thus better by Rs. 2,03,895, this improvement having occurred chiefly under Provincial Rates (Rs. 60,453), due to realization of arrear Public Works Cess; Income-tax (Rs. 42,305), owing to the continued prosperity of banks and industrial concerns in 1913-14; Jails (Rs. 1,03,256) on account of larger supplies of gunnies and other manufactures to the Military and other departments; and Civil Works in charge of the Public Works Department (Rs. 92,750), owing to the sale of the old Presidency Jail buildings and the surplus profits of the Darjeeling-Himalayan Railway. The actual charges were also higher by Rs. 10,74,684, chiefly under Refunds and Drawbacks (Rs. 36,906), due to heavy refund of license fees for Excise shops towards the closing months of the year, and refund of Public Works Cess; Courts of Law (Rs. 74,200), on account of larger payments to pleaders and counsel in political cases; Education (Rs. 6,84,022), chiefly caused by the payment of Rs. 1,59,000 to the Calcutta University, being the unspent balance of the eight lakhs grant sanctioned for the acquisition of the fish market adjoining the University buildings, and by the payment of arrear salaries consequent on promotions to the Provincial and Subordinate Educational Services being sanctioned from 1912-13; and Civil Works in charge of the Public Works Department (Rs. 8,81,625), due to larger expenditure in the latter part of the year and larger advance collection of road metal.

(2) REVISED ESTIMATE, 1915-16.

2. The revised estimate for 1915-16 as now provisionally passed, on the basis of the actuals of the first nine, or in some cases eleven, months of the current year, is compared below with the sanctioned estimate for the year :—

	Sanctioned estimate.	Revised estimate.	Better (+) or worse (−).
	Rs.	Rs.	Rs.
Opening balance ...	2,81,31,000	2,72,60,000	−8,71,000
Revenue receipts ...	5,61,40,000	5,68,16,000	+6,76,000
Transfers between Imperial and Provincial Revenues ...	+56,67,000	+58,15,000	+1,48,000
Total receipts ...	6,18,07,000	6,26,31,000	+8,24,000
Grand Total ...	8,99,38,000	8,98,91,000	−47,000
Total expenditure ...	6,58,29,000	6,40,01,000	+18,28,000
Closing balance ...	2,41,09,000	2,58,90,000	+17,81,000

3. The increase under Transfer between Imperial and Provincial Revenues is due to the following additional assignments :—

	Rs.
Additional assignment for forms, etc., for the Assam Administration	+81,000
Assignment for forms, etc., for Bihar and Orissa	+45,000
Assignment to Bihar and Orissa in connection with training of shoals in the Ganges ...	-10,000
Reduction in the assignment from Bihar and Orissa in connection with fishery experiments	-7,000
Additional assignment in connection with scientific research by Dr. J. C. Bose ..	+31,000
Assignment for Archæological works ...	+8,000
Total ...	+1,48,000

4. The increase of revenue is the net result of increases under some heads and decreases under others. The improvements aggregate Rs. 24,25,000 ; and are chiefly under the following heads :—

Land Revenue—(Rs. 3,31,000), due to better collections of ordinary revenue and collections from Government estates owing to improvement in the jute trade, and to the sale of certain khas mahal lands to the Calcutta Improvement Trust.

Stamps—(Rs. 9,50,000), due to larger sales of both general and court-fee stamps owing to the partial recovery of trade as well as the opening of the Share Market which remained closed during the last few months of 1914-15.

Provincial Rates—(Rs. 1,15,000), due to collection of arrear Public Works Cess for 1912-13 and preceding years.

Income Tax—(Rs. 3,50,000), due to better collections from banks and industrial concerns than expected last year.

Registration—(Rs. 1,00,000), due to an increase in the number of registrations owing to the effects of flood and scarcity in certain tracts and the rise in prices.

Jails—(Rs. 1,73,000), due to larger supplies to the Military Department.

Scientific and Miscellaneous Departments—(Rs. 1,67,000), chiefly under Cinchona plantation on account of larger sales of quinine.

Civil Works in charge of the Public Works Department—(Rs. 1,75,000), mainly due to adjustment of the value of racks dismantled from the Secretariat buildings at Dacca and to the sale-proceeds of the Calcutta Police Office buildings.

The decrease, on the other hand, amounts to Rs. 17,45,000, and is mainly under the following heads :—

Excise—(Rs. 10,00,000), due to smaller consumption owing to high prices of food-grains, to scarcity in some areas and to economic conditions arising from the war.

Forests—(Rs. 3,25,000), caused by the slump in trade on account of the war and shortage in sales of timber in the Sunderbans, Jalpaiguri and Buxa on account of bad market conditions.

Courts of Law—(Rs. 73,000), mainly under General fees, fines and forfeitures.

Ports and Pilotage—(Rs. 2,05,000), due to smaller receipts from pilotage in the Port of Calcutta owing to the effect of the war on shipping.

Miscellaneous—(Rs. 60,000), chiefly under unclaimed deposits.

5. On the expenditure side the revised estimate shows a total decrease of Rs. 35,05,000, which is mainly under the following heads :—

Land Revenue—(Rs. 1,29,000), due to savings in the grants for salaries and Survey and Settlement charges and in the grant for the improvement of Government estates owing to the enforcement of economy.

Forests—(Rs. 46,000), mainly to curtailment of expenditure on communications, buildings and improvements, etc.

Ports and Pilotage—(Rs. 71,000), due to the dislocation of seaborne trade which reduced the earnings of pilots.

Education—(Rs. 16,01,000), due to savings in the Imperial grants for both recurring and non-recurring expenditure.

Medical—(Rs. 8,61,000), due to savings in the grant for works of sanitary improvement and non-utilization of the grant for equipment of the School of Tropical Medicine, and the transfer of a portion of the grant for sanitation to the heads Civil Works in charge of civil officers and the Public Works Department.

Scientific and Miscellaneous Departments—(Rs. 11,000), due to savings in the grants (1) for supplies and services of the Cinchona Factory, (2) for Inspector of Factories, (3) for fishery experiments, and (4) for the charges of the Registrar of Joint Stock Companies.

Superannuation—(Rs. 2,56,000), due to smaller payments for commutation of pensions and savings in the grant for retired allowances.

Stationery and Printing—(Rs. 70,000), due to savings partly in the Government presses and partly under stationery supplied from Central Stores.

Miscellaneous—(Rs. 3,58,000), chiefly due to the transfer of charges for grain allowance to the different departments by re-appropriation from the lump provision, and partly to the adjustment of grants made by His Excellency to the appropriate heads.

On the other hand, there was a total increase of expenditure of Rs. 16,77,000, of which the most noticeable items are :—

Courts of Law—(Rs. 4,16,000), due to larger payments to pleaders and counsel in connection with political and other cases and to charges under the Defence of India Act.

Jails—(Rs. 2,36,000) on account of increased expenditure under rations and larger purchase of raw materials for the manufacture of supplies to the Military Department.

Police—(Rs. 1,91,000), due to the debit of grain allowance charges by transfer from 32—Miscellaneous, and to larger expenditure on Supplies and Services and Contingencies of the District Police.

Civil Works in charge of the Public Works Department—(Rs 3,12,000), due to additional grants sanctioned for land acquisition and construction of buildings, for the Dacca University, Baker Hostel and Calcutta University Institute, and other works.

Civil Works in charge of the Civil Department—(Rs. 47,000), due to grants to local funds for works of sanitary improvements by transfer from Medical.

6. The net result of these changes is that the closing balance of 1915-16, which was estimated in March last at Rs. 2,41,09,000, is now placed at Rs. 2,58,90,000. The increase is chiefly due to smaller expenditure under Education, Medical and Superannuation as mentioned above, and partly to the special assignments mentioned in paragraph 3 and to increase of revenue under Stamps, Income Tax and Land Revenue.

(3) BUDGET ESTIMATE, 1916-17.

7. The opening balance of 1916-17 is the closing balance of 1915-16, and is therefore Rs. 2,58,90,000.

8. The estimates of the year as provisionally approved by the Government of India adopt Rs. 6,20,04,000 as receipts and Rs. 6,17,97,000 as

expenditure, and a closing balance of Rs. 2,60,97,000. A portion of the closing balance is earmarked for the following special expenditure :—

	Rs.
Minimum balance	20,00,000
Balance of discretionary grant	6,97,000
Balance of the Imperial grant for the reorganization of subordinate police and river police in Eastern Bengal (non-recurring) ...	10,77,000
Balance of the Imperial grant for the School of Tropical Medicine	13,000
Balance of the Imperial grant for Sanitation ...	55,20,000
Ditto ditto ditto Education ...	94,63,000
Ranchi Lunatic Asylum	25,00,000
Amount earmarked for Provincial equipments for three years as promised	24,00,000
Grant promised to the Belgachia Hospital ...	5,00,000
Total ...	2,41,70,000
This leaves a free balance, which could be spent in future years, of	19,27,000
Total ...	2,60,97,000

9. In the exceptional circumstances of the present year it has been found impossible to provide for the regrant of all the unexpended balances of the Imperial grants for Education, Sanitation, Police and the Discretionary grant. Under the orders of the Government of India the budget has been prepared on the principle that the Provincial balances would not be available for expenditure in 1916-17, while the total expenditure must be kept within the estimated revenue. The departmental budgets were, therefore, pruned to the utmost extent and no proposals for expenditure that could safely be postponed were admitted. The expenditure heads accordingly only provide for current normal expenditure and unavoidable expansion. Even the recurring grant for Education, which included the provision for the Dacca University (5 lakhs recurring and one lakh non-recurring for five years) has been omitted and a provision of 2½ lakhs only has been made in the budget for grants for sanitary improvements against 9½ lakhs, the recurring allotment. The total estimated charges for 1916-17, however, amount to Rs. 6,17,97,000, which is less than the income by Rs. 2,07,000; and provision has been made for the following noticeable non-recurring items :—

	Rs.
Grant for gratuitous relief	2,25,000
Non-recurring grant to the Police Department for Police buildings, etc., in connection with the reorganization of the Eastern Bengal Police and River Police including works in progress ...	1,58,670
Non-recurring grant to the Education Department for expenditure on buildings (works in progress)	71,000
Salaries, establishment and other charges for the Press Censors	45,000
Charges under the Defence of India Act ...	1,00,000
Extra expenses for manning the steamer *Guide* while employed on station duty at Port Blair ...	20,000
Grant to the Calcutta University for hostels, being the unspent balance of the ten lakhs sanctioned by the Government of India	50,000
Additional grant to the Calcutta University to be given from the Provincial revenues	2,23,000

10. A schedule is attached showing the new schemes costing individually more than Rs. 5,000 in any one year which have been included in

the budget. The non-recurring charges on account of these schemes amount to Rs. 3,19,133 and the recurring charges to Rs. 5,25,371. The budget includes, in addition, the following new items of a more or less petty nature :—

(*a*) NON-RECURRING CHARGES.

	Rs.
Land Revenue—	
Rewards for arrest of dacoits	3,000
Revision of the record-of-rights	9,000
Stamps—

PART II.—Detailed remarks on the Budget for 1916-17.

RECEIPTS.

11. *Land Revenue.*—The total collections in 1914-15 amounted to Rs. 2,82,67,073, and the estimate for 1916-17, as provisionally passed by the Government of India, is Rs. 2,97,99,000 against Rs. 2,92,28,000. the revised estimate for 1915-16. The estimate includes Rs. 22,78,000 for recoveries of Survey and Settlement charges against Rs. 13,75,000, provided on the same account in the revised estimate for 1915-16.

12. The estimated Provincial share of Land Revenue is calculated thus :—

	Estimate, 1915-16.	Revised estimate, 1915-16.	Estimate, 1916-17.
	Rs.	Rs.	Rs.
Gross Land Revenue ...	2,91,49,000	2,92,28,000	2,97,99,000
Deduct—Estimated collections from Government Estates (wholly Provincial) ...	44,37,000	46,00,000	45,00,000
Deduct—Recoveries of cost of maintenance of boundary pillars (wholly Provincial)	.....	3,000	4,000
Deduct—Recoveries of Survey and Settlement Charges (wholly Imperial) ...	17,92,000	13,75,000	22,78,000
Total deduction ...	62,29,000	59,78,000	67,82,000
Net amount divisible between Imperial and Provincial revenues	2,29,20,000	2,32,50,000	2,30,17,000
Provincial share, one-half ...	1,14,60,000	1,16,25,000	1,15,08,000
Add—Collections from Government Estates (wholly Provincial)	44,37,000	46,00,000	45,00,000
Add—Recoveries of cost of maintenance of boundary pillars (wholly Provincial)	.....	3,000	4,000
Total Provincial receipts	1,58,97,000	1,62,28,000	1,60,12,000

13. *Stamps.*—The Budget estimate of the total revenue from Stamps for 1915-16 was passed by the Government of India at Rs. 2,03,00,000. The actuals in 1914-15 amounted to Rs. 2,02,68,265, while those in the first ten months of 1915-16, exclusive of receipts on account of unified stamps used as receipt stamps, exceeded the figures of the corresponding period of the preceding year by Rs. 13,32,000. In view of these figures and in consideration of further adjustment between the Postal and the Stamp Departments of receipts from the sale of unified stamps, the revised estimate for 1915-16 has been provisionally placed at Rs. 2,22,00,000. On account of the large increase anticipated in 1915-16, it is not safe to provide for a large increase in 1916-17; and since the sale of court-fee stamps in Calcutta will be affected by the creation of the new Patna High Court, allowance has been made for a small increase of two lakhs and the estimate for 1916-17 has been placed at Rs. 2,24,00,000. The Provincial share is one-half and amounts to Rs. 1,11,00,000 for 1915-16 and Rs. 1,12,00,000 for 1916-17.

14. *Excise.*—The total collections under this head in 1914-15 amounted to Rs. 1,53,74,624 and the estimate for 1915-16 was passed by the Government of India at Rs. 1,60,00,000. The actuals in the first ten months of 1915-16 show a decrease of Rs. 3,61,000 as compared with those of the corresponding period of the preceding year, and the revised estimate for 1915-16 has been placed at Rs. 1,50,00,000. The revenue under this head depends mostly on the economic condition of the people. This has been largely affected by the war. The jute trade has been slightly better than during the last year, but agricultural distress has occurred in some districts owing to drought or flood. During the continuance of the war the receipts under this head are not expected to rise and the estimate for 1916-17 was provisionally passed for the same amount as the revised estimate for 1915-16. But the new taxation on liquors recently imposed will bring in an increase of Rs. 50,000 in 1916-17 and the total estimate has been placed at Rs. 1,50,50,000. The receipts under this head are wholly Provincial.

15. *Provincial Rates.*—The collections from the Public Works cess have been surrendered to District Boards since the year 1913-14, but the arrears of 1912-13 and the preceding year are still under collection. They amounted to Rs. 1,10,398 in the first nine months of 1915-16 and are expected to be Rs. 1,25,000 by the close of the year. Nothing is expected to be left for collection in 1916-17. Under General Rates for the management of private estates the estimate for 1915-16 is Rs. 1,10,000, but in view of the decrease in the collections in the first nine months of the current year, the revised estimate has been placed at Rs. 1,00,000 and the estimate for 1916-17 at Rs. 1,04,000.

16. *Income Tax.*—The receipts under this head in 1914-15 amounted to Rs. 69,84,610 and the estimate for 1915-16 as passed by the Government of India was Rs. 61,00,000. The actual collections in the first ten months of 1915-16, however, show a decrease of Rs. 2,97,000 as compared with those of the corresponding period of last year; and the revised estimate for 1915-16 has been placed at Rs. 68,00,000. Owing to the continuance of the war, the conditions of trade are unfavourable and no increase in collections can be expected next year, as the assessment for 1916-17 will be based on the profits of 1915-16. The estimate for 1916-17 was originally passed for Rs. 66,00,000, but additional taxation imposed by the Government of India is expected to bring in an increase of revenue of Rs. 40,80,000 and the total estimate for 1916-17 has now been placed at Rs. 1,06,80,000. The Provincial share is one-half and amounts to Rs. 34,00,000 for 1915-16 and Rs. 53,40,000 for 1916-17.

17. *Forests.*—The budget estimate for 1915-16 was Rs. 14,50,000 against Rs. 13,04,196, the actuals of 1914-15. The actual collections in the first ten months of 1915-16 show a large decrease of Rs. 1,59,000 as compared with those of the corresponding period of the previous year, and the revised estimate has been placed at Rs. 11,25,000. The decrease is chiefly due to shortage in sales of timber in the Sundarbans and reduced sales owing to the war. The estimate for 1916-17 has been placed at Rs. 11,50,000, as increased sales are expected in Buxa, Jalpaiguri and the Sundarbans.

18. *Registration.*—The receipts under this head in 1914-15 amounted to Rs. 18,12,868 and the estimate for 1915-16 was passed by the Government of India for Rs. 19,00,000. The actual collections in the first nine months of 1915-16 show an increase of Rs. 1,17,152 as compared with those of the corresponding period of the previous year and the revised estimate has been placed at Rs. 20,00,000, and in consideration of a probable increase of Rs. 50,000, the estimate for 1916-17 has been passed for Rs. 20,50,000.

19. *Interest.*—The estimate of loans, as submitted to the Government of India, provides for a return in the way of interest during 1916-17 of Rs. 6,40,000 against Rs. 5,13,000, the revised estimate for 1915-16, as shown below :—

	Revised estimate, 1915-16.	Estimate, 1916-17.
	Rs.	Rs.
Interest on advances to cultivators, etc.	1,02,000	1,40,000
Interest on advances to Co-operative Credit Societies	2,000	2,000
Interest on drainage and embankment advances	1,000	10,000
Interest on loans to landholders ...	1,92,000	2,08,000
„ „ „ to municipalities and District Boards, etc. ...	2,16,000	2,80,000
Total ...	5,13,000	6,40,000
Miscellaneous	23,000	14,000
GRAND TOTAL ...	5,36,000	6,54,000

The increase under "Interest on loans to Municipalities and District Boards" is due to the anticipated realization of interest from the District Board of the 24-Parganas on the Magra Hât Drainage loan; this work has now been completed. The revised estimate under "Miscellaneous" includes Rs. 10,000 for interest on arrears of Public Works Cess not yet paid.

20. *Law and Justice—Courts of Law.*—The total collections in 1914-15 under this head amounted to Rs. 8,60,139 and the estimate for 1915-16 was passed by the Government of India at Rs. 9,13,000. The actuals in the first nine months of 1915-16 show a decrease of Rs. 16,853, chiefly under "General fees and fines, etc.," and the revised estimate for 1915-16 has been placed at Rs. 8,10,000. The estimate for 1916-17 is Rs. 8,30,000. The decrease is due to the transfer of a portion of the fees and miscellaneous receipts of the High Court, Calcutta, to the new Patna High Court.

21. *Jails.*—The actuals in 1914-15 amounted to Rs. 8,34,256 and those in the first nine months of 1915-16 show an increase of Rs. 1,63,579 over those of the corresponding period of last year, chiefly on account of larger supplies to the Military Department. The budget estimate for 1915-16 has accordingly been raised from Rs. 7,60,000 to Rs. 9,33,000. As it is not anticipated that the supplies to the Military Department will continue to be as large during the coming year, the estimate for 1916-17 has been placed at Rs. 8,02,000.

22. *Police.*—The actuals in 1914-15 amounted to Rs. 1,77,419 and the receipts in the first nine months of 1915-16 show a decrease of Rs. 23,114, chiefly under Miscellaneous and Presidency Police, due to fewer supplies to private persons, and the revised estimate has been reduced from Rs. 1,86,000 to Rs. 1,57,000. The estimate for 1916-17 is Rs. 1,67,000.

23. *Ports and Pilotage.*—The budget estimate for 1915-16 was Rs. 16,20,000 against Rs. 15,52,988, the actuals of 1914-15. The actuals of the first nine months of 1915-16 show a decrease of Rs. 1,01,142 as compared with those of the corresponding period of last year, chiefly under Calcutta Pilotage Receipts due to a reduction in the number of vessels entering and leaving the Port of Calcutta in consequence of the dislocation of trade caused by the war. In view of this decrease the revised estimate for 1915-16 has been placed at Rs. 14,15,000 and the estimate for 1916-17 at Rs. 14,25,000.

24. *Education.*—The budget estimate for 1915-16 was Rs. 8,86,000 against Rs. 8,47,110, the actuals of 1914-15. The actual collections in the first nine months show an increase of Rs. 27,302 as compared with those of the corresponding period of last year, chiefly under "Schools general," owing to the opening of the residential school at Hastings House, and the revised estimate has been placed at Rs. 8,77,000. The estimate for 1916-17 has been passed at Rs. 9,05,000 and includes larger collections from schools—General and Special, but chiefly from the above mentioned school.

25. *Medical.*—The actuals in 1914-15 amounted to Rs. 3,94,558, but the collections in the first nine months of 1915-16 show a decrease of Rs. 32,822, chiefly under "medicines sold by Civil Surgeons, and hospital receipts." The budget estimate for 1915-16 has therefore been reduced from Rs. 3,80,000 to Rs. 3,59,000 in the revised estimate. The estimate for 1916-17 has however been placed at Rs. 3,81,000 as larger receipts are expected from contributions. The Indian Research Fund Association has promised a grant of Rs. 1,000 per month for the establishment, etc., employed in the investigation into the causation and prevalence of diabetes in India by Major D. McCay, I.M.S., Professor of Physiology, Medical College, Calcutta.

26. *Agriculture.*—The budget estimate for 1915-16 was Rs. 82,000, but the actuals in 1914-15 were Rs. 71,678 and those in the first nine months of 1915-16 show an increase of Rs. 16,841 over those of the corresponding period of last year; the revised estimate for 1915-16 has therefore been placed at Rs. 84,000. The estimate for 1916-17 has been passed

at Rs. 94,000 and provides for a growth in the revenue from agricultural farms, especially the Rangpur farm.

27. *Scientific and Miscellaneous Departments.*—The estimate for 1915-16 was Rs. 3,53,000 against Rs. 4,61,291, the actuals of 1914-15. The collections from the sale of cinchona and its preparations in the first nine months show an increase of Rs. 47,020 over those of the corresponding period of the previous year and the revised estimate for 1915-16 has been raised to Rs. 5,20,000. The estimate for 1916-17 amounts to Rs. 5,22,000.

28. *Receipts in aid of Superannuation.*—The estimate for 1915-16 was Rs. 40,000, but in view of the actuals of 1914-15 amounting to Rs. 58,567 and those of the first nine months of 1915-16 amounting to Rs. 37,793, the revised estimate for the current year has been placed at Rs. 57,000. The estimate for 1916-17 has however been placed at Rs. 56,000.

29. *Stationery and Printing.*—The actuals in 1914-15 amounted to Rs. 1,49,601, while the budget for 1915-16 was Rs. 1,32,000. This has been reduced to Rs. 1,16,000 in the revised estimate with reference to the actuals of the first nine months of the current year, which show a decrease of Rs. 31,309 as compared with those of the corresponding period of the previous year. The estimate for 1916-17 has been passed at Rs. 1,27,000.

30. *Miscellaneous.*—The estimate under this head was Rs 6,90,000 (including Rs. 5,80,000 from unclaimed deposits) against Rs. 6,71,057, the actuals of 1914-15. In the revised estimate the budget has been reduced to Rs. 6,30,000 as the total unclaimed deposits in 1915-16 are not expected to exceed Rs. 5,25,000. The estimate for 1916-17 has been passed for Rs. 6,52,000 and includes Rs. 5,50,000 for unclaimed deposits.

31. *Irrigation, Major Works (Direct Receipts).*—The estimate for 1915-16 was Rs. 2,40,000 against Rs. 2,53,962, the actuals of 1914-15. The actual collections in the first ten months of 1915-16 show an increase of Rs. 7,000, and both the revised estimate for the current year and the estimate for 1916-17 have been placed at Rs. 2,57,000. The Provincial share is one-half and amounts to Rs. 1,29,000.

32. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The estimate for 1915-16 was Rs. 5,70,000 against Rs. 4,86,466, the actuals of 1914-15, and Rs. 5,65,040, those of 1913-14. The actual collections in the first nine months of 1915-16 show an increase of Rs. 1,03,248 as compared with the figures of the corresponding period of 1914-15. A large increase is expected from the Madaripur Bhil route, and both the revised estimate for the current year and estimate for 1916-17 have been passed at Rs. 6,20,000. The Provincial share (one-half) is Rs. 3,10,000.

33. *Civil Works in charge of the Public Works Department.*—The budget estimate for 1915-16 was Rs. 4,25,000. The actual collections of the first nine months of 1915-16 show an increase of Rs. 35,965 over those of the corresponding period of last year. The increase is due to the adjustment of the value of racks dismantled from the Secretariat buildings at Dacca. The market value of these racks was credited to this head by debit to stock. There is also a special receipt of Rs. 35,000 from the sale of the Lal Bazar Police buildings which have been demolished and sold. The revised estimate for 1915-16 has accordingly been placed at Rs. 6,00,000 against Rs. 5,62,750, the actuals of 1914-15. The estimate for 1916-17 is Rs. 4,30,000.

34. *Transfers between Imperial and Provincial Revenues.*—The estimate includes the following transfers from Imperial Revenues :—

EXPENDITURE.

35. *Refunds and Drawbacks.*—The total Provincial expenditure in 1915-16 was originally estimated at Rs. 1,41,000, but in view of the actuals of the first nine months of the year this has been raised to Rs. 1,82,000 in the revised estimate for the year against Rs. 2,00,906, the actuals of 1914-15. The increase is due to special refunds of license fees of excise shops in Calcutta. The budget for 1916-17 has been passed at Rs. 1,50 000 based, as usual, on the average actuals of the past three years, excluding special payments.

36. *Assignments and Compensations.*—The estimate for 1915-16 was Rs. 42,000, but this has been reduced to Rs. 31,000 in the revised estimate with reference to the actuals of 1914 15, amounting to Rs. 34,273,

and the actuals of the first nine months of 1915-16 showing a decrease of Rs. 5,528. The budget for 1916-17 has been placed at Rs. 35,000. The variations are under *Malikana*, which is always an uncertain item.

37. *Land Revenue.*—The total provincial expenditure for 1916-17 is estimated at Rs. 34,52,000 against Rs. 35,37,000, the revised, and Rs. 36,66,000 the budget estimate for 1915-16, as shown below:—

	1915-16.		1916-17.
	Budget.	Revised	Budget.
	Rs.	Rs.	Rs.
(1) Charges of District Administration ...	28,48,000	27,98,000	28,18,000
(2) Charges on account of Land Revenue collections	24,000	14,000	15,000
(3) Management of Government Estates ...	5,28,000	4,98,000	4,48,000
(4) Survey and Settlement...	2,00,000	1,62,000	1,00,000
(5) Land Records ...	66,000	65,000	70,000
Total ...	36,66,000	35,37,000	34,52,000

The decrease in the revised under (1) is due to savings under Salaries. The estimate for 1916-17 includes provision for one additional Magistrate, three Joint-Magistrates and eight Assistant Magistrates; additional grants for travelling allowances of officers and for diet and travelling allowances to witnesses. The decrease under (3) is on account of a reduced grant for improvements in Government estates, and that under (4) is due to postponement of new operations.

38. *Stamps.*—The sanctioned estimate for 1915-16 was Rs. 6,05,000, which has been raised to Rs. 6,30,000 in the revised owing to larger issues of stamp paper from the Central Stores following the increase of sales. The budget for 1916-17 is Rs. 6,96,000 and provides for larger issues of stamp paper and discount for the sale of general stamps. It also includes the pay of the newly appointed Probate officer in the Calcutta Collectorate. The charges of this Department are divided equally between the Imperial and Provincial revenues, and the Provincial shares amount to Rs. 3,15,000 and Rs. 3,48,000, respectively.

39. *Excise.*—The estimate for 1916-17 is Rs. 8,39,000 as compared with Rs. 8,03,000, the revised estimate for 1915-16, and Rs. 7,17,585, the actuals of 1914-15. The increase in 1915-16 over the preceding year is due to the reorganization of the Department and its amalgamation with the Salt Department. Under the present arrangement the expenditure of the two Departments is being debited to this head in the first instance and a fixed sum of two lakhs will be transferred to the head "5—Salt—(Imperial)" at the end of the year. Full provision has been made in the budget for the revised establishment, but a saving has been anticipated as the full number of officers will not be entertained during the year.

40. *Income Tax.*—The budget estimate for 1915-16 was Rs. 1,52,000 and this has been repeated as the estimate for 1916-17. The revised estimate for 1915-16 has, however, been placed at Rs. 1,54,000 with reference to the actuals of the first nine months. The increase has been caused by the payment of leave allowances in Calcutta. The Provincial share (one-half) is Rs. 76,000 for 1916-17 and Rs. 77,000 for 1915-16.

41. *Forests.*—The estimate for 1915-16 was Rs. 6,66,000, but in the revised estimate this has been reduced to Rs. 6,20,000 with reference to the actuals of the first nine months. The decrease is due to curtailment of expenditure on communications and buildings. The budget for 1916-17 is Rs. 6,54,000 and includes Rs. 4,000 for the purchase of an elephant for the Chittagong Hill Tracts Division to replace a casualty.

42. *Registration.*—The estimate for 1915-16 is Rs. 11,23,000, but in the revised this has been reduced to Rs. 11,22,000 with reference to

the actuals of the first nine months of the year. The budget for 1916-17 is Rs. 11,09,000 and provides for no new expenditure.

43. *Interest on Ordinary Debt.*—This is interest payable from the Provincial revenues to the Imperial Government on the amount advanced by the latter to the Provincial Government for loans to cultivators, for advances to co-operative societies, for advances on drainage and embankment schemes, and for loans to notabilities, municipalities (excluding presidency corporations) and district boards.

44. *General Administration.*—The estimate for 1915-16 was Rs. 23,74,000, but in the revised estimate this has been raised to Rs. 24,06,000. The increase is chiefly under Civil Secretariat, due to the adjustment of the charges of the Press Censor to this head instead of to the head "32—Miscellaneous—War Charges." and to larger expenditure under Staff and Household of the Governor owing to the debit to this sub-head of the charges for rates and taxes of Government houses. The estimate for 1916-17 has been passed at Rs. 24,36,000. It includes provision for the Press Censor (Rs. 45,000); for rates and taxes of Government houses (Rs. 38,356); and the balance of the non-recurring grant for furniture of Government houses (Rs. 10,000).

45. *Law and Justice—Courts of Law.*—The estimate for 1915-16 was Rs. 1,01.24,000, but the revised estimate has been raised to Rs. 1,05,40,000 with reference to the actual charges of the first nine months of the year. The increase was partly under "Law Officers," due to large payments of lawyers' fees in connection with political cases, and partly under "Civil and Sessions Courts," caused by the appointment of additional District and Sessions Judges, by charges under the Defence of India Act in connection with political cases, and by the payment of grain compensation allowance for which provision was made under "32—Miscellaneous." The estimate for 1916-17 is Rs. 1.00,20,000. The decrease is due to provision having been made for 13 instead of 19 judges of the High Court and some reduction in the establishment and contingent charges of the Appellate Side, owing to the creation of a separate High Court at Patna. The budget includes the following provisions :—

	Rs.
Contract allowance of Rs. 1,000 a month to Mr. Haydn for the supply of typewritten transcripts of the evidence of witnesses given in one court of the Calcutta High Court ...	12,000
Additional Legal Remembrancer and his establishment and contingencies	35,000
Additional grant for fees to pleaders in criminal cases in the mufassil	55,000
Two probationary officers for the Juvenile Court and Detention House for Juvenile Offenders ...	1,200
Four posts of District and Sessions Judges sanctioned by the Secretary of State ...	1,16,107
Establishment for ditto	12,000
Additional grant for allowances to jurors and assessors	7,000
Additional grant for diet and travelling expenses of witnesses	10.000

46. *Jails.*—The estimate for 1915-16 was Rs. 21,95,000 against Rs. 23,50,828, the actuals of 1914-15. In view of the actuals of the first nine months of 1915-16, the revised estimate for the year has been raised to Rs. 24,31,000. The increase is due to larger charges for diet and for the purchase of clothing owing to a greater influx of prisoners and also to larger outlay on raw materials and European stores for manufactures required by the Military Department. The budget for 1916-17 is Rs. 25,50.000. It includes larger provision for dieting charges; a lump provision of Rs. 50,000 for revision of the warders' establishment, and Rs. 25,000 for temporary accommodation required in the several jails to meet overcrowded conditions.

47. *Police.*—The following table compares the charges under this head :—

Total ...	1,03,72,545	1,05,35,000	1,10,26,000	1,11,12,000

In view of the actuals of the first nine months of 1915-16, the revised estimate has been placed at Rs. 1,10,26,000. The increase is mainly due to the adjustment of charges on account of grain compensation allowance by transfer from "32—Miscellaneous," and partly also to the appointment of another Deputy Inspector-General and the deputation of officers to special duty. The estimate for 1916-17 is Rs. 1,11,12,000 and includes the following charges :—

	Rs.
Additional European police for duty in trading quarters, Calcutta	26,260
Creation of a 3rd Armed Company in Calcutta ...	25,000
Entertainment of temporary clerks in the offices of the Inspector-General and Deputy Inspector-General of Police	10,740

Guard for shell factories	6,330
Supply of arms to the Calcutta Police Inspectors and Sub-Inspectors	5,646
Reorganization of the Eastern Bengal Railway Police	8,000

48. *Ports and Pilotage.*—The estimate for 1915-16 was Rs. 14,76,000, but in the revised estimate this has been reduced to Rs. 14 05,000, due to less payments to pilots owing to the partial suspension of trade. The estimate for 1916-17 amounts to Rs. 13 30 000 and generally follows the revised, with reduced grants for victualling officers and men afloat and for the purchase of marine stores. It includes Rs. 1,50,000 for a grant to the Chittagong Port Trust and Rs. 20,000 for charges for the hire of vessels for towing the yacht *Rhotas* during His Excellency's river tours.

49. *Education.*—The following table shows the charges under this head since 1911-12 :—

The estimate for 1915-16 was Rs. 1,05,62,000, but in the revised estimate this has been reduced to Rs. 89,61,000 with reference to the actuals of the first nine months of the year. The decrease is chiefly due to the non-utilization to the full extent of the Imperial grants, and to the transfer of some grants to the Public Works Department for the construction of buildings, chiefly the Dacca University, the University Institute Calcutta,

the Baker Madrassa Hostel and the *guru*-training schools in Thakurgaon and other places. The budget for 1916-17 includes the following items :—

	Rs.
Balance of the grant to the Calcutta University for hostel buildings (Rs. 10 lakhs) sanctioned by the Government of India	50,000
Additional grant to the Calcutta University for hostels in addition to the 10 lakhs sanctioned by the Government of India	2,23,000
Grant for the completion of the buildings in progress in 1915-16 which cannot be met from the Public Works Department grant	71,000

50. *Medical*.—The budget grant for 1915-16 was Rs. 36,13,000. This has been reduced to Rs. 27,52,000 in the revised estimate with reference to the actuals of the first nine months of the year. The decrease is chiefly due to savings in the grant for expenditure on sanitation and also to the transfer of a portion of the grant to the Public Works Department, to Municipalities and District Boards to the head "45—Civil Works," and non-utilization of the grants for the School of Tropical Medicine and medical relief. The estimate for 1916-17 is Rs. 28,25,000 and includes the following items :—

	Rs.
Local allowance for Civil Surgeon, Alipore, for charge of the Venereal Hospital	1,800
Clinical laboratory assistant for Medical College	1,020
Lady doctor for Sambhu Nath Pundit Hospital ...	960
Lump grant for sanitation	2,50,000
Charges for gratuitous relief to malaria-stricken areas	5,000
Government contribution towards the pay of Health Officers	26,100
Additional Demonstrator for Medical College ...	1,200
Increased provision for diet, clothing and bedding of lunatic asylums	5,000
Grant for establishment, etc., for investigation into the causation and prevalence of Diabetes in India	12,000

The grants for Presidency hospitals are shown below :—

The following grants have been sanctioned from the lump provision for Sanitation in 1915-16 :—

	Rs.
Bankura Municipality for drainage and water-supply of the town	14,025
Anti-malarial operations conducted by the Sanitary Commissioner	12,500
Distribution of quinine amongst school children in the district of Hooghly and in the Kalna Subdivision	5,000

Improvement of sanitation in the town of Bankura	5,000
Printing of the Bengali Almanac for 1323 for quinine advertisement	4,692
Burdwan Municipality towards drainage scheme	25,390

51. *Political.*—The estimate for 1915-16 was Rs. 30,000; but in the revised estimate this has been reduced to Rs. 24,000 with reference to the actuals of the first eight months of the year. The decrease is due to the post of the Political Agent, Hill Tippera, having remained vacant from December 1914 to July 191 . The budget for 1916-17 is Rs. 23,000.

52. *Agriculture.*—The estimate for 1915-16 was Rs. 11,17,000, but with reference to the actuals of the first nine months of the year the revised estimate has been raised to Rs. 11,61,000. The increase is due to the expansion of the operations of the Agricultural Department as well as to the appointment of additional auditors and an additional grant for travelling allowances in the Co-operative Department. The budget for 1916-17 is Rs. 11,29,000 and includes the following items of expenditure :—

	Rs.
Deputy Superintendent for the Veterinary Department	2,400
Allotment for travelling allowance of ditto ...	2,000
Provision for travelling allowance of officers of the Veterinary College to other provinces to enlarge their experience	1,000
Travelling allowance of additional Veterinary assistants	5,800
Additional cost of serum	5,000
Additional grant for travelling allowance of officers of the Agriculture Department ...	22,000
Appointment of two overseers for the Burirhat and Rangpur dairy farms	720

Potato, Bonemeal and Ufra experiments ...	30,000
Annual contribution to the Indian Tea Association	4,000
Additional grant for seeds, manures, implements, rents, etc., of the Divisional Seed Stores ..:	8,235
Additional Inspectors of the Co-operative Department	10,000
Additional grant for travelling allowance of the officers of the department	5,000

53. *Scientific and other Miscellaneous Departments.*—The total charges under this head for 1915-16 were originally estimated at Rs. 5,05,000, but in the revised estimate this has been reduced to Rs. 4,64,000 with reference to the actuals of the first nine months of the year. The decrease is due to savings in the grant for contingencies of the Cinchona factory, to the post of the Certifying Surgeon being vacant for sometime, to smaller expenditure on fishery experiments and to savings in the office of the Registrar of Joint Stock Companies, the post of the Assistant Registrar being vacant for some time

and the office removed to Government buildings. The estimate for 1916-17 is Rs. 6,44,000 and includes the following provisions :—

	Rs.
Expenditure on the development of industries ...	1,00,000
Director of Industries	30,000
Additional grant for stores for Cinchona factory ...	7,500
Grant for the maintenance of Dacca Museum ...	6,000
Cost of constructing a new bungalow for the Assistant Superintendent of Emigration, Goalundo ...	3,000
Cost of the removal and repairs of the office of the Assistant Superintendent of Emigration and other sheds to a different site	1,100
Travelling allowance of Muhammadan Marriage Registrars	1,000

54. *Superannuation.*—The estimate for 1915-16 is Rs. 34,29,000, but in the revised estimate this has been reduced to Rs. 31,73,000 owing to smaller expenditure on commutation of pensions and retired allowances. The estimate for 1916-17 is Rs. 33,71,000, and includes two lakhs for commuted value of pensions and an increased provision of Rs. 75,000 over the revised estimate for superannuation, as the charges under this head rise yearly as the number of pensioners increases.

55. *Stationery and Printing.*—The estimate for 1916-17 is Rs. 13,48,000 against Rs. 13,87,000 and Rs. 13,17,000, the budget and revised estimates for 1915-16 respectively, and Rs. 12,69,717, the actuals of 1914-15. The following table compares the figures :—

HEADS.	Actuals, 1914-15.	Budget estimate, 1915-16.	Revised estimate, 1915-16.	Budget estimate, 1916-17.

The Forms Department has been amalgamated with the Presidency Jail Press from the beginning of 1915-16. The savings in 1915-16 under Government Presses were chiefly under overtime and contingencies. The decrease under Presses in 1916-17 is due to smaller requirements of European stores for the Presidency Jail Press.

56. *Miscellaneous.*—The budget estimate for 1915-16 was Rs. 10,16,000, but in the revised estimate this has been reduced to Rs. 6,58,000. The reduction is chiefly due to the adjustment under the appropriate heads of the expenditure on grain allowance and the charges sanctioned by His Excellency from the provision for petty grants, and to the reappropriation of the reserve provision of Rs. 1,50,000 in order to meet expenditure under other heads. Against these transfers an additional grant of

Rs. 2½ lakhs was sanctioned under Gratuitous relief. The estimate for 1916-17 is Rs. 12,28,000 and inlcudes the following items :—

	Rs.
Gratuitous relief	2,25,000
Allotment for petty grants by His Excellency ...	1,00,000
Ditto for grain allowance	4,00,000
General Reserve	2,00,000
Guarantee charges for telegraph lines	13,000
Subscription to the *Moslem Hitaishi*	9,516
Rewards for proficiency in Oriental languages ...	10,000

57. *Irrigation Major Works (Working expenses).*—The actual expenditure during 1914-15 was Rs. 2,57,760 and the estimate for 1915-16 was Rs. 2.67,000, but in view of the actuals of the first nine months of the year the revised estimate has been reduced to Rs. 2,00,000. The decrease is chiefly due to reduced expenditure on maintenance and repairs of the Midnapore Canal. The budget for 1916-17 has been placed at Rs. 1,90,000 which is the minimum required to keep the canals in an efficient state of working. No expenditure is anticipated on silt clearance in the Hijili Tidal Canal. The Provincial share (one-half) is Rs. 95,000.

58. *Irrigation Minor Works and Navigation.*—The actual expenditure during 1914-15 was Rs. 27,39,691, and the estimate for 1915-16 was Rs. 22,92,000, but in view of the actuals of the first nine months of the year this estimate has been reduced to Rs. 22,50,000 in the revised estimate. The decrease is under Agricultural and Drainage works. The estimate for 1916-17 is Rs. 20,92,000 and includes the following items :—

	Rs.
Creating a spill from the Bidyadhari river ...	1,00,000
Constructing an embankment with sluices along the south side of the Madaripur Bhil Channel	1,00,000
Dredging the Lower Kumar river at Char Maguria	50,000
Training works in the river Ganges ...	10,000
Dredging the Bhagirathi entrance	15,000
Completing the new head works of the Eden Canal	15,000
Training works in the Dhaleswari and Buriganga rivers by bandelling	35,000

The creation of a spill from the Bidyadhari river is a work of extreme urgency : if it be deferred for even two or three years the removal of the Calcutta Sewage outfall and the stoppage of all navigation through the Dhappa lock at an expenditure which can barely be estimated—certainly not less than a crore of rupees—will have to be faced. The Provincial share is one-half and amounts to Rs. 11,25,000 for 1915-16 and Rs. 10,46,000 for 1916-17.

59. *Civil Works in charge of the Public Works Department.*—The estimate for 1915-16 was Rs. 64,88,000, but in the revised estimate this has been raised to Rs. 68,00,000 on account of expenditure of the special grants sanctioned during the year for the Dacca University, Calcutta University Institute, Baker hostel, *guru*-training schools and several other projects. The estimate for 1916-17 is Rs. 52,60,000, and is distributed as shown below.

	1915-16		1916-17.

	———	3,30,000

60. *Civil Works in charge of Civil Department.*—The estimate for 1915-16 was Rs. 22,09,000, but in the revised estimate this has been raised to Rs. 22,56,000. The increase is due to the special grants sanctioned for digging tanks in the affected areas of Bankura and Tippera ; Rs 42,017 to the Calcutta Corporation for the fringe area drainage and Rs. 7,500 for water-supply in Bankura Municipality against savings in the allotments at the disposal of the Divisional Commissioner and the District Magistrates as well as to the transfer of a portion of their grants to Education and Medical. The estimate for 1916-17 amounts to Rs. 11,40,000 and includes the following :—

	Rs.
Grant to the Calcutta Improvement Trust ...	1,50,000
Special grants at the disposal of the Divisional Commissioners	1,00,000
Special grants at the disposal of the District Magistrates	52,000
Augmentation grants	7,03,000
Grants to District funds for road works ...	67,631

20—Police.

Presidency Police ...	Creation of a third Armed Police Company for Calcutta.	6,363	19,937	26,300	6,000	19,000	25,000	Owing to the prevalence of dacoities by dacoits in motor cars the security of the public offices in Calcutta (*e.g.*, the General Post Office treasury, Collectorate, Small Cause Court treasury, Calcutta Custom House treasury, etc.) has to be ensured by posting armed guards and this cannot be done without an additional company of armed police. The sanction of the Government of India has been applied for and a lump provision of Rs. 25,000 made to meet the charge.
Ditto ...	Supply of arms to Inspectors and Sub-Inspectors	5,646	.....	5,646	5,646	.....	5,646	The recent cases of dacoity in the city by armed bands in motor-cars have rendered it necessary that all Inspectors and Sub-Inspectors should be armed with revolvers. It has therefore been decided to ask the Government of India to sanction the supply of 140 revolvers and 2,000 rounds of revolver ammunition and a provision of Rs. 5,646 has been made in next year's budget on this account.
Superintendence ...	Entertainment of temporary clerks in the offices of the Inspector-General and Deputy Inspectors-General of Police.	.....	10,740	10,740	.....	10,740	10,740	The work of the office has greatly increased in recent years, and in view of the recent abnormal development of anarchical crime, an increase of staff to cope with the work is necessary. Provision has therefore been made for 10 clerks.
Ditto ...	Deputation of Mr. J. S. Wilson, Officiating Superintendent of Police.	.....	16,920	16,920	.....	11,280	11,280	Government have already sanctioned the deputation of Mr. Wilson to act as Intelligence officer for a period of one year from 6th August 1915, but as the war may not end by that date, provision has been made to meet the cost of his deputation till the end of the next financial year.

This has already received the sanction of the Secretary of State and effect is being given gradually as funds permit. In the current year's budget a provision of Rs. 39,562 recurring and Rs. 660 non-recurring was made and a lump non-recurring provision of Rs. 4,00,000 provided for all building projects of the Police Department, including those connected with the River Police scheme. The Inspector General wants for 1916-17 Rs. 3,59,988 for non-recurring and Rs. 51,088 for recurring expenditure. In view of the present state of Provincial finance, it is proposed to provide Rs. 60,000 as shown below :—

	Rs.
Recurring	36,160
Non-recurring	23,840
	60,000

This represents the cost of supplying guards to watch factories which are making shells and other munitions of war for Government.

It is necessary to increase the police force employed on the Sealdah section of the Eastern Bengal Railway as crime has in recent years developed in several police stations. Extra staff is also necessary for adequate police arrangements in the Sealdah Station which, under the new arrangemens, has three separate blocks of platforms with separate booking offices, waiting halls, hackney carriage stands, etc.

The scheme was placed in the optional schedule in 1915-16, but on account of financial stringency nothing could be provided.

It is now proposed to make a lump provision of Rs 8,000 for this so as to give partial effect to the scheme

The Hon'ble Mr. BEATSON BELL said :—

"My Lord, I have only to invite the attention of the House to the memorandum, dated the 11th March, which has been placed in the hands of Hon'ble Members. The brief purport of this memorandum is that during the last few months receipts have come in somewhat better than we had anticipated. As a result we have been able to make an additional allotment for purposes of sanitation and an additional allotment for purposes of police. The additional sanitary allotment is 1 lakh of rupees and the additional police allotment is 1½ lakh. The other items in the memorandum are self-explanatory."

RESOLUTIONS ON THE REVISED FINANCIAL STATEMENT.

Appendix to the List of Business—Motion No. 1.—The Hon'ble Maulvi Mazharul Anwar Chaudhuri moved the following resolution :—

Expenditure—Head 43—Minor Works and Navigation.

This Council recommends to the Governor in Council that—

(*a*) a sum of Rs. 20,000, or such smaller sum as may be deemed sufficient, be set apart to meet the cost of selecting the site of a second reservoir for the Damodar river and for the preliminary surveys, etc., in connection therewith ; and

(*b*) the said sum be taken out of the grant of Rs. 1,00,000 provided in the Financial Statement for constructing an embankment with sluices along the south side of the Madaripur Bhil Channel, or from the allotment of Rs. 1,00,000 in the hands of His Excellency the Governor for petty grants.

He said :—

"My Lord, I fully discussed the subject of the misery and loss annually caused by the floods of the Damodar river in about 800 villages in the districts of Burdwan, Hooghly and Howrah, when I had the honour of moving a resolution on the subject on the 3rd March, 1914, and I do not wish to trouble the Council again with them. The sympathetic reply which the Hon'ble Mr. Finnimore gave on that occasion led the people to believe that the Government were considering the subject with an earnest desire to help them as far as possible. When in November, 1914, your Excellency, in your reply to the address of the Hooghly District Board, announced the scheme recommended by Mr. Addams-Williams, the long-suffering people came to entertain very high hopes that their miseries would soon be over Unfortunately for them and for the world, this terrible war which is now raging in three continents broke out, and the people had perforce to come to the conclusion that they would have to wait till the restoration of peace and the return of normal financial conditions, for the scheme to be fully given effect to. But the people fully believed and hoped that the preliminary works, such as, selection of sites of reservoirs, etc., etc., recommended in the scheme, would in the meantime be completed ; and this hope and belief were strengthened when a provision of Rs. 35,000 was made for this purpose in the Budget of 1915-16, for the purpose of these preliminary works.

My Lord, in consequence of that provision the site of one reservoir has been selected and the preliminary surveys in connection therewith have been made. If no provision be made in the Budget of 1916-17 for the selection of the site of the other reservoir, people will necessarily come to the conclusion that the scheme, which your Excellency's speech at Chinsurah and the provision in the Budget of 1915-16 of Rs. 35,000 for the preliminary works in connection with this scheme, proved to have been adopted by Government, has now for some reason or other been abandoned, and they will again fall into the slough of despair. Consequently, my Lord, it is necessary that some provision should be made in the Budget under discussion for continuing and completing the preliminary works recommended in the scheme.

Now the question is about ways and means. My Lord, it is not likely that the whole sum of Rs. 1,00,000 provided in the Budget for the construction of the Embankment on the south side of the Madaripur Bhil Channel will be spent in the course of the next financial year, and the work will not suffer if a small sum be taken from the sum of Rs 1,00,000 and be used for the selection of the site of the remaining reservoir in connection with Mr. Addams-Williams's scheme; and the sum so taken be again provided in the Budget of 1917-18. In the course of the year, there may be savings in other heads, and, if necessary, the whole sum of Rs. 1,00,000 for the Madaripur Bhil embankment be made good from those savings by the end of the year. If, however, it be found impossible to take any sum from the Madaripur Bhil Embankment Scheme, the small sum necessary for the purpose of this resolution may safely be taken from the allotment of Rs. 1,00,000 in his Excellency's hands for petty grants.

My Lord, I do not wish to detain the Council by any further observations, but I most earnestly hope that your Excellency's Government will see their way to accept this most molest resolution, which will have the effect of preventing a large number of people from falling into despair."

The Hon'ble MR. BEATSON BELL said :—

"My Lord, I think we can deal with this resolution very briefly. The survey for a second reservoir in which the Hon'ble Mover and many others are interested will not cost Rs. 20,000, but at the utmost Rs. 5,000. We are prepared to make a provision for this work and to take it up in due course next cold weather, provided that the staff is available. It is impossible to take the money from your Excellency's grant for petty improvements. Your Excellency's grant is a provincial head and irrigation is a divided head, that is to say, half the cost of irrigation is met by the Government of India and half by the Provincial Government. It is not open to us to make transfers between provincial and divided heads, but we have ascertained that we can with safety make a small reduction in the grant for the Madaripur Bhil Canal. I am, therefore, prepared to accept the resolution of my hon'ble friend in a slightly modified form. The resolution may be modified so as to read :—

That a sum of Rs. 5,000 be set apart to meet the cost of selecting the site of a second reservoir for the Damodar river and for the preliminary surveys, etc., in connection therewith; and

that the said sum be taken out of the grant of Rs. 1,00,000 provided in the Financial Statement for constructing an embankment with sluices along the south side of the Madaripur Bhil Channel."

The resolution was then put in the above form and agreed to.

Appendix to the List of Business—Motion No. 2.—The Hon'ble Rai Radha Charan Pal Bahadur moved the following resolution :—

Expenditure—Head 32—Miscellaneous.

This Council recommends to the Governor in Council that—

(*a*) a sum of Rupees one lakh be specially allotted for carrying out anti-malarial operations in certain selected areas, preferably in the Presidency Division; and

(*b*) the expenditure be met from the grant of Rs. 5,30,000 under the head 32—Miscellaneous and Unforeseen Charges.

He said :—

"My Lord, it is not necessary for me to make any lengthy speech to commend this resolution to the sympathetic consideration of your Excellency's Government and of the Hon'ble Members of this Council. This question has been discussed elsewhere, and I believe it meets with the sympa-

sympathy of Government, and I shall not be surprised if it meets with the acceptance of the Hon'ble the Provincial Chancellor of the Exchequer. My Lord, the recent discussion in the Viceregal Council has fully demonstrated the anxiety of the Government of India that although much has been done in the direction of ascertaining the principal measures which should be taken to prevent the spread of malaria, and also to eradicate it, still much remains to be done, and that the Government of India, as far as the proceedings of the Imperial Council show, are anxious that the Provincial Government should continue these measures vigorously. My Lord, the difficulties at the present time are fully appreciated by the people at large, but, my Lord, although this is a war budget, I am sure that the cost to meet the measures necessary for the prevention of malaria will be admitted to be as paramount as any expenditure which might be entered in the budget. My Lord, in Bengal, the mortality from malaria, it is needless to say, has been so high that it has raised quite an apprehension in the country that the decrease in birth-rate, and the increase in death-rate, if it goes on in this way, will, in a few years, depopulate the country. Since the year 1912, the mortality from fever in Bengal has been steadily rising. In 1912 it was 927,000, and in 1913, 965,000 and in 1914, 1,061,000 and within the last five years there has been a steady increase year by year. It will thus be seen that although Government have done their best to take certain measures which can at once be taken in hand, such as the free distribution of quinine, the distribution of pure drugs by the agency of travelling dispensaries and such other measures, they have not been able to cope with the spread of malaria, and therefore it is necessary that the Government should take further steps which they might think necessary to cope with the evil. The recent lectures of Dr Bentley, which have been listened to with great attention throughout the city of Calcutta and outside the city, have opened the eyes of the public to the necessity of reclaiming some of the silted-up rivers. I am sure the Malaria Committee, which has been appointed by Government, will take the suggestion into their consideration. As a layman it is not for me to suggest any measure, but all that we want is this, that sufficient funds be placed at the disposal of the Committee to prosecute these measures which may be found necessary for the prevention and reduction of malaria in Bengal. My Lord, I am not one of those who say that Government have not been doing anything in this direction. I think that what has been done in the matter of affording facilities for the sale of quinine and free distribution of quinine has to a certain extent met the evil in certain parts of Bengal, but if the condition of the Presidency Division is inquired into, it will be found that, in many parts of the Division, the water-logged condition is a fruitful cause of malaria, and, I believe, my Lord, that if Dr. Bentley's suggestion is taken into consideration by the Malaria Committee, the Presidency Division will no doubt to a great extent be benefited. Within the Presidency Division lies Calcutta, the provincial capital of Bengal, and owing to malaria, a large number of people have fled to Calcutta, and so the the city is necessarily congested. If the Presidency Division is improved, if malaria is driven from some of the worst places contiguous to Calcutta, I am sure the existing congested condition of Calcutta will diminish, and people will readily leave Calcutta and go to contiguous places to their homes, from where they can come to their places of business in Calcutta. I do not wish, my Lord, to take up the time of the Council with further observations. As I have said before, this question has been discussed before, and I believe that no further observations are necessary on my part to elicit sympathy from the Hon'ble Member in charge."

The Hon'ble MAHARAJA RANAJIT SINHA of Nashipur said :—

"My Lord, I beg to support the resolution moved by my hon'ble friend, Rai Radha Charan Pal Bahadur. The question of the improvement of sanitation has already been discussed and has engaged the attention of Government, so it is needless for me to comment on the matter at any great length. The only question which is to be decided is whether this sum of one

lakh can be provided for this purpose during the present year. We have already got sufficient funds—non-recurring grants—which the Government of India have been pleased to give for the purpose, but the sum cannot be spent owing to the war, because the Government of Bengal must limit their expenditure to their income. But my appeal to your Excellency's Government is this, that if it be possible, *i.e.*, if there be no other unforeseen charges to be met from this sum of Rs. 5,30,000, one lakh of rupees be added for the purpose of sanitation."

The Hon'ble DR. NILRATAN SIRCAR said :—

"My Lord, I think it my duty to support the resolution moved by the Hon'ble Rai Radha Charan Pal Bahadur. I can understand there are various measures that cannot be taken up for want of funds ; but it is extremely deplorable that in this particular matter nothing is being done in Bengal not for want of funds but for want of proper advice.

Experts do always differ, and will go on differing for all time to come ; but in the meantime the poor villagers are dying by the thousands. The Drainage Committee who had the advantage of the co-operation of Captains Stewart and Proctor attributed the excessive prevalence of malaria in some areas in Bengal to the following conditions :—(*a*) Insanitary state of villages, (*b*) Waterlogged state of the country. As regards the part played by jungle their conclusion as formed from later observations was that spleen rate varied from 88·8, 48·1 to 26·2 according as the jungle was thick, moderate. or little, respectively. The Drainage Committee made these observations in Bengal and in the year 1907 'Sir Ronald Ross says in connection with the Public Prevention of malaria "Malaria can be always greatly reduced, or may soon be extirpated in any locality. Large marshes in populous places must be drained, deepened or filled up."

Anti-malarial measures have been adopted in different parts of the world on the above ideas with very great success.

To sum up, these measures amount to two, *viz.*, (1) jungle clearing ; (2) making the land near habitations, water-tidy." '

But we are now told by a great authority that to adopt these measures would be quack sanitation in Bengal ; that jungle clearing would be injurious and might be favourable to the spread of malaria as in such a case the homeless anophilines would seek shelter in human homes ; that water-logging was not favourable to the spread of malaria, and that drainage might be injurious ; that the comparative freedom of municipal areas from malaria was due not so much to the absence of water-logging and other improvements, as to the crowding of people in a limited area, as thereby in that area, the proportion between human beings and anophilines became large ; that the people of India or most of them have naturally to pass through a stage of malarial infection in the course of their racial life ; and that against all the anti-malarial measures that have been adopted and found successful elsewhere there was only one measure suitable here as a remedy for malaria, and that is flooding the country with silt from flood water. I am not against "bonnificazione" where it is applicable and I would certainly adopt this measure in certain areas. But certainly it is absurd that jungle clearing, drainage and securing water-tidiness in proper areas should be cried down as quackery, and as useless and even injurious measures when adopted for preventing malaria in Bengal.

The Drainage Committee in their report said :—'The whole question of a remedy is bound up with the large issue of the practicability, in the present state of public opinion, of constituting any local authority with powers of supervision over the sanitation of a small area and with funds from which minor works can be carried out.'

In their resolution of May 23rd, 1914, the Government of India indicate that 'besides encouraging the use of quinine by the populations and minor anti-malarial methods, they advise that, notwithstanding the initial expense, those anti-malarial methods should be chosen which will act automatically be independent of outside help and permanent in their effects.'

Presumably, under this comprehensive definition the wide employment of major and minor sanitary engineering works is contemplated.

But unfortunately in Bengal neither the idea of the Drainage Committee nor that of the Government of India could be given effect to.

Here is a case in point. The Panihati Municipality approached the authorities with a proposal to carry out a drainage scheme for making a particular water-logged portion of the municipal area, where the spleen rate was 70 per cent., water-tidy under the Sanitary Drainage Act. The estimates for work amounted to Rs. 69,000, and the municipality was prepared to pay their portion of the expenditure. But they were told that according to the authority of the Sanitary Commissioner water-logging was not injurious and drainage might aggravate malaria in the area concerned.

No wonder that amongst the echoes of success of anti-malarial campaigns in distant lands like the United States, Panama, Jamaica, Brazil, Spain, Italy, German possessions, French possessions, Khartoum, South Africa, Durban, Malay States and Japan, we have to remain satisfied with supplying quinine gratis to some sufferers, and selling it to others ; and with accepting the woeful situation.

I may be permitted to quote an extract from an article by Dr. C. A. Bentley in the *Journal of Tropical Medicine and Hygiene* which says that 'epidemics' whether of malaria, plague, cholera, and other infectious diseases to which such races as those occurring in India, China and Russia are prone, appear no longer mere isolated, inexplicable catastrophies, but as perfectly natural phenomena fundamentally related to each other, though very different in their manifestations.' This is the mental attitude of our Chief Sanitary officer.

Against this I would quote the words of Dr. Andrew Balfour, another officer in charge of anti-malarial campaigns, though in Khartoum he says that 'The lesson which has been learnt is that in this anti-malarial warfare the motto must be "defiance" and not "defence." It is necessary to go out to attack and not to wait to be attacked. The further the skirmishing line can be extended the safer will be the area which is to be protected. The more mobile your force the better will you be served, and every facility should be afforded to the sanitary service for making river surveys and for inspectors to get quickly from place to place. It is a straightforward fight, but it has to be waged carefully, persistently and thoroughly if it is to be successful ; and one must not be surprised if now and again defences are pierced. This will very often happen, but rarely if the staff are keen in their work and the sinews of war are adequately supplied.'

I feel, my Lord, that the officers in charge of the anti-malarial campaign in Bengal are not very keen on this matter ; and that is one of the reasons of our suffering.

With these few words I beg to support the resolution moved by my hon'ble friend."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, I think the discussion on this resolution has somewhat wandered from the point. We are not here concerned with the conduct of our expert advisers. The resolution asks for a lakh of rupees for carrying out experiments preferably in the Presidency Division, and suggests that the money should be taken from the 'Miscellaneous and Unforeseen charges.' So far as it is a question of spending more money on experiments, the matter has been much facilitated by the announcement which my hon'ble colleague Mr. Beatson Bell has made, that an additional lakh of rupees has been given to Sanitation, and I am prepared to say that if any definite proposals for carrying out experiments come up to us, we shall be quite willing to provide the funds necessary for the purpose. At the same time, it is difficult for us to accept the resolution, and that is for two reasons. In the first place, we have not as yet any definite proposals for carrying out any experiments before us, and in a matter like this, whatever may be the merits or the demerits of our officers, we are bound to rely on them. Although there are no proposals before us

yet, yet I know that Dr. Bentley has been considering the matter and he told me that he would place some of his proposals before the Malaria Committee, of which my hon'ble friend Dr. Nilratan Sircar is a distinguished member. If the Malaria Committee advise Government as regards the advisability of making any experiments, I can assure the Hon'ble Mover of the resolution that we shall be able to find the money; but, at the same time, we do not like to ear-mark money for experiments, not knowing how much any experiment is likely to cost, and what other very urgent demands we may have to meet. As regards the source from which my hon'ble friend would like to obtain this money, it is not possible to curtail the items that go to make up the amount of Rs. 5,30,000. However, I do not think my hon'ble friend lays much stress on that point. I can tell him that if we have before us any schemes that we can approve, we will be quite glad to find the money, but we do not like to bind ourselves by ear-marking any money for this purpose. We cannot also agree that preference should be given in the matter of these experiments to the Presidency Division, as there are other districts and divisions which are equally malarious. It is for my hon'ble friend to consider whether he should insist on the resolution. If a suitable scheme is recommended, we are prepared, if necessary, to give a lakh of rupees for financing it."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I have only a few words to say in reply. In the first place I would like to state that I do not wish to lay particular stress upon any particular item in the Budget. Of course, we non-officials are all laymen so far as the Budget figures are concerned. We do not understand all the items because we do not know what are the items of expenditure each budget head provides, and therefore there is some excuse if there is confusion on our part. Just before coming to this Council, I found that instead of Rs. 1,50,000, Rs. 2,50,000 has now been given to 'Sanitation.' I think, my Lord, that if I had known it, I would have altered my motion so that I should have moved that one lakh might be provided from this item, but as far as I can follow the Hon'ble Member, he is quite prepared, if necessary, to set aside one lakh during the course of the year for the prevention of malaria. With regard to that, I have only one word to say. I am not discussing the measures which are to be taken. My hon'ble friend, Dr. Sircar, is a member of the Malaria Committee, and I think he owes it to the Council and to the public to state what he, as a member of that Committee, has done to see that proper steps are taken with a view to extirpate malaria from Bengal. He is a public-spirited citizen and an expert medical man, but we have heard nothing from him on this point. In the Imperial Council, Sir Edward Maclagan observed that each province had started a Malaria Committee, that is to say, in each province a body of men are appointed whose main duty it is to advise Government how to cope with malaria. These bodies have got an executive officer, who in some cases is the chief malaria officer. These officers are accessible to the public. As regards the prevalence of malaria in certain areas in Bengal, the Malaria Committee have not been able to present to the public a satisfactory report of what they have done with a view to the promotion of steps for the prevention of malaria. When my Hon'ble and distinguished friend is a member of that Committee, I think we would have been very pleased in this Council to hear some account of what practical steps the Committee have taken in that direction. My Lord, I am not very anxious to press this motion to a division; but following my experience in the past, I am inclined to submit, for Your Excellency's consideration, whether any harm will be done if this sum be entered in the budget. If it is so entered will always be before the eyes of Government. The assurances that are given in this Council will then be much more vividly borne in mind and adequate steps will be taken and pressure will be put upon the executive officers to see that the money allotted under that item is spent. My Lord, if no money is allotted, the discussions in this Council will, perhaps, be forgotten, and steps might not be taken at all in this direction. This is my apprehension, if I can have the assurance from the Hon'ble Member, I hope

I shall have no apprehension but that is my difficulty. I hope, my Lord, that my hon'ble friend, as a fellow countryman of ours, having a deep interest in the well-being of the country, and of the malaria-stricken population, will himself see that at least during the course of the year steps will be taken in that direction, and that money will be freely placed at the disposal of the executive officers, for the purpose. I, for my own part, would then cheerfully withdraw this resolution."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, I have already given the assurance, and I have no objection to repeat it. The only thing necessary is that the Hon'ble Dr. Sircar should lash up the Malaria Committee and induce them to place definite proposals before Government at an early date."

The resolution was then, by leave of the President, withdrawn.

Appendix to the List of Business—Motion No. 3.—The Hon'ble Rai Radha Charan Pal Bahadur moved the following resolution :—

Expenditure—Head 22—Education.

This Council recommends to the Governor in Council that—

(*a*) a recurring grant of Rs. 1,200 a year be made over to the Calcutta University for providing the Namasudra and other students of the backward classes with hostel accommodation in the town of Calcutta ; and

(*b*) the expenditure be met from the grant of Rs. 1,91,000 under the head 22—Education—Miscellaneous.

He said :—

"My Lord, at the outset I again plead my ignorance of the various items in the Budget. As regards this item, I am quite prepared to accept the suggestion of the Hon'ble Member as to what should be the proper item from which the money could be drawn. I find, my Lord, there is a lump grant on page 55 of the Budget, amounting to Rs. 11,80,000 from which this money, which is a very small sum, is perhaps available. As regards this question, I would remind your Excellency that in the year 1914, this question was raised by the Hon'ble Dr. Nilratan Sircar and the Hon'ble Mr. Küchler, the then Director of Public Instruction.

This is what Mr. Küchler said :—'A proposal was under the consideration of the Department for Namasudra hostels at Barisal, Faridpur and Dacca. There is a Mahisya hostel at Dacca which receives a monthly grant not exceeding Rs. 30. It will be seen from this that Government are already taking steps to provide proper hostel accommodation for boys belonging to the depressed classes. This policy will, of course, be extended with the help of the funds at our disposal.'

The Hon'ble Babu Surendra Nath Banerji said :—'May I put a question to the Hon'ble the Director of Public Instruction in connection with the hostel accommodation for Namasudra boys? The Hon'ble Member has referred to the hostels being established at Chittagong and some other places in Eastern Bengal. But there is a considerable number of Namasudra boys in Calcutta, and speaking from my own personal experience, we have had very considerable difficulty in getting hostel accommodation for Namasudra boys in Calcutta.'

To this the Hon'ble Mr. Küchler said :—

'There would be no objection to that being done provided the conditions which are to be attached to the Government of India grant permit us to extend these hostels to Calcutta.'

Then the Hon'ble Mr. Küchler also observed as follows :—'I am afraid I shall not be of much help, as my term will expire in a short time, but I am sure the adjudication will be carried out by my successor.'

It will thus be seen, my Lord, that this question met with sympathetic consideration at the hands of Government at the time when it was brought

up by the Hon'ble Dr. Nilratan Sircar. My Lord, two years have passed away since then, and although in Calcutta many hostels have been added, and many messes have been opened for Bengali boys and for Muhammadan boys, nothing has yet been done as regards these depressed classes. I am inclined to think that (I may be wrong, but still that is my impression) if an item is entered in the budget, the assurance of the Hon'ble the Director of Public Instruction would not be forgotten. My request is a very moderate one. In fact, my hon'ble friend, the Director of Public Instruction, told me as I was entering the Council Chamber that he was amazed at my moderation. Having regard to what has fallen from the lips of the Chancellor of the Provincial Exchequer on more than two occasions in this Council, I think my resolution will receive sympathetic consideration. My object is that some beginning should be made to provide the backward classes with hostel accommodation."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I am one of those accommodating people, who are always very glad to have money placed in their hands and to do the best or the worst with it. I am very thankful to my friend, the mover of this resolution, for bringing forward this resolution. I feel quite sure that in this House there can be no difference of opinion as to the need for making some provision of the kind suggested by the resolution, and the urgency of that need was foreshadowed clearly more than two years ago, as will be found from the extract my friend has just read out. During the interval that has passed, no material advance has been made so far as Calcutta is concerned, but I can bear willing testimony to the excellent results that have been achieved in centres like Dacca where I visited the Namasudra hostels, and was struck with the great capabilities of the people who find little assistance like that and can make the most of it. Recently, I received a very large deputation of these people—some 30 of them—who came to ask me if I could do anything in the matter. Of course, with the limited grant in our hands, it has not been possible to do what we wanted. The whole question is being considered by your Excellency's Government and the University. We are thankful for the grants that we have been receiving, but it is by no means sufficient to meet the demands that are made to us from time to time. As I indicated in my Convocation speech on Saturday last, the handsome grant of the Government of India to which your Excellency's Government have been good enough to add 3½ lakhs, will enable us not only to have hostels accommodating 200 students each, for the Ripon, St. Xavier's, the Metropolitan Institution, the City College and the Bangabasi College, not only will it enable us to have a central Muhammadan hostel, but by close supervision and careful conduct of the building operations, I think we shall have money left for hostels for what I am unwilling to call 'depressed classes,' but any other name would do just as well. I think we shall be able to have a hostel for them as well as for the Buddhist students, but in the meantime there is no doubt that some temporary arrangement should be made to give immediate relief to those who find it difficult to obtain accommodation without resorting to fraud. So long as a man does not aspire to be a 'Ghosh', 'Bose' or 'Mitter', he could take any Kayasta surname and get admission to any mess. We do not want that state of things to continue. I am sure your Excellency's Government will view sympathetically the proposal that has been put forward. At the present moment, we have not got any mature scheme to put forward for the Namasudra class and other special classes. If the matter is left to stand like that, I am almost sure there will be no difficulty during the next year, or the year after next, to have a hostel, accomodating 30 or 40 Namasudra boys."

The Hon'ble MR. HORNELL said :—

"My Lord, this resolution is but another example of the generosity and good nature of our quixotic colleague, but I am afraid that, as it is put, it is scarcely practical politics. The Local Government are asked to make a grant of Rs. 1,200 a year to enable the University to provide hostel accommodation for Namasudra and other students of the backward classes. Why Rs. 1,200 is asked for, and not Rs. 14,000 or Rs. 12,000 is not clear. I suppose this

moderate amount is suggested to be entered in the Budget as a sort of perpetual prick to the Government's conscience. However, what I think the Hon'ble mover had in mind was the fact, as explained by the Vice-Chancellor, viz., that the Calcutta University and not the Local Government is responsible for the residence of students. Now, surely, if the Hon'ble Mover had wanted to suggest that the University should provide temporary accommodation for a certain type of students, his first step should have been to approach the University and not the Local Government. On the necessity or otherwise of this hostel accommodation, I am not prepared to express an opinion. The University are now spending 10 lakhs of rupees recently assigned to them by the Government of India on the construction of hostels for private colleges, and this scheme will include a non-collegiate hostel for Muhammadans, and not for Namasudra students. I have never heard it even suggested, the Vice-Chancellor has only just suggested it, that the Namasudra hostel might have been provided out of these Rs. 10 lakhs. Possibly this was not suggested before, because the funds we have are not sufficient, or rather because there were more urgent needs, and possibly it may have occurred to some of the University authorities that the number of Namasudra students who are perpetually at residence, were scarcely sufficient to justify the construction by the University of a hostel out of public funds. Be that as it may, I take it that what the Hon'ble Mover has in mind is that the University should rent a special mess for Namasudras. If this is what he means, I think the Hon'ble Mover should reflect that the University is and perhaps has been for some years, running a mess scheme with the assistance of a Government grant. If he contemplates that the University should make provision for accommodation of this kind in connection with this mess scheme, there is nothing to prevent them from working out a proposal, and if necessary, seeking Government assistance. I may say that the whole question of the financing of this mess scheme is under consideration.

In conclusion, I would only suggest that the Bengal Legislative Council is scarcely the place to discuss the requirements of a particular class of students. The Calcutta University is not under the Local Government, and it has occurred to me that the generous impulses of my chivalrous colleague will perhaps bear more fruit if, in a proposal of this kind, he would, in the first instance, address his aspirations at any rate to the Vice-Chancellor. I understand that the Hon'ble the Vice-Chancellor is already considering the matter, and I do not myself quite see what purpose would be served by the present resolution.

As regards the head from which this expenditure should be met, the head 'Miscellaneous' is not the proper one for a charge of this kind, but I gather that this is a point on which the Hon'ble Member does not insist."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, in the first place, replying to the Director of Public Instruction as to why I asked for Rs. 1,200 and not Rs. 14,000, I would at once say that the non-official members, at least most of them, are in this position. They have not got certain cut and dried estimates prepared by the executive officers placed at their disposal as the official members have. Therefore, whatever figures we put down in a resolution are generally in order to give a clue to the items that we think should, according to the public needs, be entered in the budget, and therefore I am afraid the observations of my Hon'ble friend are not in order. Unfortunately for us, we are not in the happy position in which he is, with an army of expert estimators and advisers behind him. The Hon'ble Member has stated that this is not the place to bring forward a resolution regarding the needs of a particular class of students. Unfortunately, my Lord, everyone, whether official or non-official, whether the present or the past Director of Public Instruction, does not always hold the same view as my Hon'ble friend, the present Director. His predecessor, Mr. Küchler, did not deprecate discussion in this Council of the claims of a particular class of the community, who, though belonging to the depressed classes, have nevertheless equal claims on the benevolent Government. There is not the slightest trace in the speeches and discussions on these occasions to show

that discussion in this Council of the claims of a particular class of the community is to be deprecated. I am in a state of bewilderment from whom to take my wisdom, whether from the last Director or from his successor, the present Director.

I may state briefly that my object in asking for Rs. 1,200 is this, that a beginning may be made so that a temporary house might be rented for the accommodation of Namasudra boys. The Hon'ble the Vice-Chancellor has spoken to me after he resumed his seat, and I find that he is in entire agreement with me. Therefore, I think that as far as this resolution is concerned, it meets with the full approbation of the Hon'ble the Vice-Chancellor. I have nothing more to say, my Lord, but if the Director of Public Instruction from his high place in this Council, deprecates discussion of this matter and advises the rejection of my resolution, I know very well what its fate will be, but nevertheless I respectfully and humbly place this motion before the Council.

The motion was then put and lost.

Appendix to the List of Business—Motion No. 4.—The Hon'ble Maulvi A. K. Fazl-ul-Haq moved the following resolution :—

Expenditure—Head 26A—Agriculture—Head 26 B—Scientific and Miscellaneous Departments—Head 32, Miscellaneous.

This Council recommends to the Governor in Council that—

(*a*) ample provision be made in the Budget to give effect to the proposal for raising the minimum grade pay of Munsifs to Rs. 250 a month so as to bring it into line with the minimum grade pay of Deputy Collectors ; and

(*b*) the charge be met from the lump grant of Rupees one lakh for the development of industries, the grant of Rs. 30,000 for potatoes, bonemeal and other experiments and also the general reserve of Rupees 2,00,000.

He said :—

"My Lord, it is not without some reluctance that I yield to a sense of duty in moving this resolution. I feel that it is very difficult at the present moment, owing to the necessity for the utmost economy in all our items of expenditure, to touch any of the various allotments that have been made for meeting the exigencies of the administration. If, therefore, I have ventured to bring forward a proposal for entailing an expenditure not provided for in the present budget, it is because I feel that the scheme is one which ought to be undertaken without any further delay at least in the interests of the public service itself. It is useless for me to take up the time of the Council by a discussion of the grave injustice that is being done to a very deserving class of public servants by what I consider an almost invidious distinction in the matter of pay between them and their sister service, the Executive service. As far as I remember, my Lord, allotments have been made in the previous budgets, but no steps have been taken in this direction. As I have said, I consider that this reform is one which is long overdue, and I hope that Government will not lose any time in taking up this scheme of reform. The only question is as to the head of expenditure that may be drawn up in order to find funds for the recommendation embodied in my resolution. I have indicated three, but I do not wish to say anything at present on these allotments, because I wish to know what Government really think of this resolution.

With these few words I commend my motion to the acceptance of your Excellency's Council."

The Hon'ble BABU RAMTARAN BANERJI said :—

"My Lord, I am sorry to find from the Financial Statement that nothing has been done to ameliorate the condition of the Munsifs by raising the initial pay from Rs. 200 to Rs. 250. The demands upon our finances may not permit us to give effect to this suggestion in the budget before us, but it is a matter which I hope will engage the attention of the Government as soon as the financial position improves. This suggestion, I may point out, is bare justice

to them as it means nothing more than restoring to the service the pay which they enjoyed many years ago before 1878-79. In those days Munsifs began their service early. promotions were rapid, 10 or 12 years' service was sufficient in most cases to qualify them for a Subjudgeship with a pay of Rs. 600 per mensem. Moreover, living in those days was much cheaper. But now the times are hard, they begin service late generally at the age of 29 to 30, promotions are slow and retarded and one cannot expect to be a Subordinate Judge before he has put in 20 or 22 years' service. In course of five years, he rushes through the several grades and becomes superannuated and retires. In the circumstances, it would be something if his initial pay is increased to Rs. 250. I need hardly say that the pay which the Munsifs draw in the early years of their service is not sufficient for them to maintain the dignity of their position as Civil Judges, so necessary for the prestige of the administration and to inspire respect and regard in the minds of the suitors. Their poor pay hardly leaves them a margin which they can utilise in making the most useful of all investments, viz., the purchase of books, to keep up their general efficiency. In this connection, I am constrained to observe, while I do not mean to detract from the ability of some of the members of the service, that those who as Munsifs show promises of brilliant futures have failed to answer those expectations when appointed Subordinate Judges. This is mainly due to excessive overwork, and add to this the constant trepidation in which they sometimes live owing to unsympathetic District Judges, generally young officers who try to extort the maximum quantity of work even at the sacrifice of quality, denying them even a word of encouragement. They seldom have time to keep up their study of law.

I would, therefore, support the resolution for the improvement of the initial pay of these hard-working class of Judicial officers and if practicable some provision may be made for it."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, I need not discuss the merits of this resolution for there is not much difference of opinion between Government and the object of it. As a matter of fact, two years ago, we budgeted a sum of Rs. 21,000, for introducing this very reform, but after careful consideration, we had to postpone giving effect to it, because we had made certain recommendations in this connection to the Public Services Commission, and decided to wait and see what the recommendations of the Commission are. The matter has been further complicated by the present financial situation. I may assure my Hon'ble friend that when we know what the Commission have to say on the subject, and we have the money, we will be glad to give effect to the reforms which this resolution seeks to introduce. I am sorry therefore to have to oppose the resolution.

There is also another reason, and that is as to the source from which this money is to come. The resolution asks that this money should be found from the money budgeted for for the development of industries, for potatoes and for certain other purposes. I may tell my Hon'ble friend that this year's budget has been so framed that what has been provided for for a particular object is the least that could be given to it, and I do not think the Council would sympathise with the desire to take away money, for the development of industries. For these reasons, I am sorry, I have to oppose the resolution."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, I do not know if I have done any service to the Munsifs by moving this resolution, for after the reply that has been given by the Hon'ble Member this body of public servants who have so long been living in hope, will now be driven almost to despair, because the prospect of this reform being taken up will now, according to the reply, be indefinitely postponed. I do not think, however, if Government agree that this reform should be undertaken, there need be any difficulty even in our present

financial condition. It may be that the two items I have suggested should not be touched upon, but Government can find the ways and means, and can find money enough not exceeding Rs. 30,000 or Rs. 40,000 in order to carry out this very necessary reform.

As regards the development of industries and the potatoes cultivation, I do not wish to say anything now, because I shall say what I have to say regarding this in connection with the other resolution which stands in my name.

A division was then taken, with the following result :—

Appendix to the list of Business—Motion No. 5.—The Hon'ble Maulvi A. K. Fazl-ul-Haq moved the following resolution :—

Expenditure—Head 26A— Agriculture—Head 26B—Scientific and Miscellaneous Departments—Head 32—Miscellaneous.

This Council recommends to the Governor in Council that—

(*a*) provision be made in the Budget for increment to the pay of clerks and mohurrirs attached to Registration offices in Bengal, and

(*b*) the charge be met from the lump grant of Rupees one lakh for the development of industries, the grant of Rs. 30,000 for potatoes, bonemeal and other experiments and also the general reserve of Rupees 2,00,000.

He said :—

"My Lord, I do not think I need detain this Council with any long speech in support of this resolution. The principle embodied in this resolution has long been recognised by Government, and it is a matter of common knowledge that these clerks and mohurrirs in Registration offices are very much underpaid, having regard to the responsible work which they have to perform in the discharge of their duties. Even so recently as about a week ago, the Hon'ble Mr Birley in answer to an interpellation, made the following statement in Council :—

'The question of the revision of the pay of the ministerial establishment of the Registration Department has engaged the attention of Government for a long time. In the year 1911 schemes of registration reform were prepared both in this Province and the late province of Eastern Bengal and Assam, but no final decision could be reached before the territorial redistribution. Since then a revised scheme for the Presidency of Bengal has been prepared and submitted to the Government of India. It would not be possible in any case to give effect to this scheme until the return of normal conditions after the war.'

It will thus be seen that the principle has been accepted by Government and efforts have been made from time to time to carry out this very reform. In order to enable this Council to judge of the necessity of this reform, I do not think I need say anything, but I will only say a few words as to the amount which will approximately be necessary in order to carry out this reform. There are about 400 registration offices, or put it exactly 401, and the number of clerks and mohurrirs attached to these offices is a little over 1,100. An increment of say Rs. 5 a month works out to Rs. 67,440 a year, and the question is whether this expenditure should be incurred, or whether this scheme should be put forward after the war is over. In order to realise the present pay and prospects of these persons, I need only remind the Council, that although in some places the head-clerk gets about Rs. 40, in rural offices they get only Rs. 25 a month and the poor mohurrir gets the magnificent sum of Rs. 15 a month. It is no wonder that with all the responsible work he has got to do, and the small pittance he draws, he has to replenish his pockets by preying on the public. An increment of Rs. 5 a month would not be very much, but it means a good deal to the mohurrirs. My Lord, whenever a scheme like this is suggested, we are met with the observation that the financial conditions are very much strained, and we must wait till the war is over. I have only one observation to make to this, and it is this. Does everything else stand over till the war is over? Those of us, for instance who can afford to lose a little portion of our income, do we agree to any of our privileges being withheld from us till the war is over? I will be more explicit, and I will put it to some of the high officials who draw big salaries Will they agree that a pice from their salary be taken off?"

The Hon'ble MR. BEATSON BELL : "Yes."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ : "Supposing I said that promotions be stopped till the war is over. Will that meet with a ready response?"

The Hon'ble MR. BEATSON BELL : "Yes."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ : "At any rate, My Lord everyone in this house, official and non-official, when the time comes to find funds for the conduct of the war will gladly contribute their money, but so far as the present budget is concerned there are no indications that any scheme of such reform, for instance the promotions that will be due, will be withheld till after the war is over. Why should these poor mohurrirs on Rs. 15 a month, be allowed to hope on and hope on, simply because financial conditions are strained. After all, if we cannot take up the big measure of reform, if we do not sanction the increment to the clerks and the mohurrirs, let us at

least make a beginning, and I am willing to modify the resolution if a beginning is made which would not cost more than Rs. 20,000 and that sum can be met under any of the allotted heads of expenditure. My Lord, I have got to say only a few words as regards the development of industries. One lakh has been budgeted for under this head. The development of industries is a most fascinating subject. At any rate, it has supplied many a splendid peroration on many public platforms, and I am afraid if Government really take to developing our industries, they will take away a very fruitful source of our eloquence from our public platforms. So far as the development of industries is concerned, I do not think Government can do very much by making any allotment in the budget. The appointment of a Director of Industries has been suggested, but what advice is he going to give? Probably this one lakh of rupees will be spent on the salary of the Director of Industries and his establishment."

The Hon'ble MR. BEATSON BELL : "This lakh is not for the Director's salary at all ; it is for other objects."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ : "I think reading the allotments that are set forth in the budget, there is a provision for the appointment of a Director of Industries, and a scheme for the development of the industries of the province. The recurring estimate is Rs. 1,30,000. The Government of India have applied for the sanction of the Secretary of State for the appointment of a Director of Industries on a salary of Rs. 1,500 rising to Rs. 2,000 with an establishment and other charges. The sanction of the Secretary of State has not yet been received. In pages 16, 17 a provision of Rs. 30,000 has been made on this account, and a further sum of one lakh of rupees is provided for expenditure on industries in addition to the provision made for the appointment of a Director and establishment."

The Hon'ble. MR. BEATSON BELL : "The salary of the Director and his establishment will come out of the Rs. 30,000, and the sum of Rs. 1 lakh will be in the Director's hands for the conduct of his operations."

The Hon'ble MAULVI A. K. FAZL-UL-HUQ : "That is all the more reason why we can take out a few thousands from this provision of one lakh. There has been Rs. 30,000 allotted for the improvement of the potato cultivation. The question is whether there should be at the present moment an improvement in the potatoes, or an improvement in the pay and prospects of a deserving class of public servants—there are about 500 of them. I submit, my Lord, that their pay and prospects should come first before we take any steps for the improvement of potatoes. We can always draw upon these three heads, it is but a drop in the ocean. I hope that Government will accept this resolution."

The Hon'ble NAWAB SYED SHAMS-UL-HUDA said :—

"My Lord, I am sorry that I am not in a position to accept this resolution. The question about the improvement of the pay and prospects of the clerks and mohurrirs in the Registration Department has been under consideration for some years ; the scheme is ready, but we are precluded by express orders of the Secretary of State from involving ourselves in any new expenditure, unless it fulfils the test of being imperative and of immediate necessity. I cannot say that this reform is of that character. On this ground, my Lord, I would oppose the resolution, but at the same time, I may state, that when the scheme is sanctioned, on the return of normal conditions, I hope effect will be given to the scheme. The total amount required would be about Rs. 1,37,000 and nothing less. I am sorry therefore, that I cannot accept this resolution, and I need hardly repeat that we cannot consent to any reduction either in the allotment for the development of industries for potatoes or for bonemeal, nor are we inclined to dip into our general reserve of two lakhs."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, I do not wish to detain this Council by any long reply. I take it that this resolution will not be accepted, and I will not also ask for a division. I will, however, wait for a year and see how these industries and the potatoes develop. I hope that there will be funds enough next year to be allotted to this reform which I advocate at the present moment."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM NO. 3.

RESOLUTION.

(*Under the rules for the discussion of matters of general public interest.*)

The Hon'ble CHAUDHURI MUHAMMAD ISMAIL KHAN moved the following resolution :—

This Council recommends to the Governor in Council that special Inspecting Officers be appointed for the purpose of inspecting and supervising the offices of Muhammadan Marriage Registrars and Kazis in this Presidency.

He said :—

"My Lord, the resolution which I desire to propose for the acceptance of Your Excellency's Government is one which, I am confident, will commend itself to my Hon'ble colleagues around me.

My Lord, in the Presidency of Bengal there are, I understand, about 400 Registration offices and about 300 offices of Muhammadan Marriage Registrars and Kazis. My hon'ble friend the Inspector-General of Registration is at the head of these offices and I use no exaggeration when I say that he has by his thoroughness done credit to himself and to the Provincial Civil Service to which he belongs. As things stand at present, he has under him four Inspectors (one of whom was appointed not very long ago) whose chief duty is the inspection of nearly 400 Registration offices throughout the Presidency, but who are also supposed to inspect the offices of as many Muhammadan Marriage Registrars as possible. I do not know if it is possible for these four Inspectors to inspect all the Registration offices even once a year. I am still more doubtful as to the amount of attention it is possible for them to pay to the offices of Muhammadan Marriage Registrars. As for inspections by District Sub-Registrars, I beg to point out that if that were considered sufficient Government would not have appointed Inspectors of Registration at all. Muhammadan Deputy Magistrates and Deputy Collectors are empowered to inspect the offices of Muhammadan Marriage Registrars within their jurisdiction, but I am afraid that most of them either do not know that they are so empowered or do not care to spend their time in doing something that does not directly concern them. The Permanent Committee for the Supervision of Muhammadan Marriage Registrars in Bengal, to which several of the Muhammadan members of this Council belong, is more or less an appointing Committee and the only manner in which they can and perhaps do indirectly supervise these offices is by appointing really good men as Kazis. From these facts it will appear that the inspection of the offices of Muhammadan Marriage Registrars is conducted on not very satisfactory lines. It seems to me to be everybody's business and nobody's business at the same time.

My Lord, in the Criminal Courts of the Presidency a divorce or the denial of marriage are common pleas in charges under sections 497 and 498 of the Indian Penal Code. In the Civil Courts, questions relating to marriage and divorce often arise in suits for the restitution of conjugal rights, for divorce or inheritance. In view of these facts, the records in the offices of Muhammadan Marriage Registrars are of the utmost importance to the Mussalman Community. This is particularly the case in the Muhammadan

districts of Eastern Bengal where marriage cases both criminal and civil are so numerous.

My Lord, with the multiplication of the offices of Muhammadan Marriage Registrars the task of inspection is becoming more and more exacting and responsible, and it is time that this branch of the Registration Department should have an inspecting agency of its own. The proper inspection of these offices will keep the Kazis up to the mark, ensure the correctness of the records and increase to a very great extent the popularity of the voluntary system of marriage registration among my co-religionists.

My Lord, if the Government are pleased to accept this Resolution I would for the present suggest the appointment of at least two Inspectors of Muhammadan Marriage Registration offices with head-quarters at Calcutta and Dacca. The appointments may, however, for the present be held in abeyance, till the return of normal financial conditions after the war. I would not therefore take the time of this Council by entering into details at the present moment, as in case your Excellency's Government are agreeable to the proposal the details can be settled very easily afterwards. In proposing this resolution I am confident that your Excellency's Government will be pleased to give this question your full and sympathetic consideration."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, I wish to say only a few words in support of this resolution. At least there can be no financial difficulty in the way of accepting this resolution. The recommendation is that the principle embodied in this resolution should be accepted because when the Act comes up for amendment, the question of the appointment of Muhammadan Registrars, specially for the purpose of inspecting these offices, may also be considered. I think, my Lord, in these circumstances, since my friend has been wise enough to say that the carrying out of the appointment be postponed till the return of normal financial conditions, the resolution may be accepted."

The Hon'ble NAWAB SYED SHAMS-UL HUDA said :—

"My Lord, I am sorry that it has been my lot to oppose resolution after resolution on the ground of the present financial stringency. But we have to face these difficulties, and many of our pet children had to be sacrificed. My hon'ble colleague, Mr. Beatson-Bell, has already told this Council, that he had to sacrifice one of his pet children, the Jessore survey and settlement operations. We had sanction for 4 Collectors and 4 Judges. We have appointed the Judges, but not the Collectors. It has been said that so far as this resolution is concerned, we might accept the principle and give effect to it when the war is over. I do not think, my Lord, it is always convenient to make promises before we know what actual conditions we may be confronted with. We have been considering the question of making better provision for the inspection of offices of Muhammadan Marriage Registrars for some time, but the consideration of this scheme, as well as of many others, must for the present be postponed. I therefore cannot give a promise not knowing when we may be in a position to give effect to it."

The resolution was then, by leave of the President, withdrawn.

ADJOURNMENT.

The Council was then adjourned to Monday the 27th March, 1916, at 11 A.M.

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 8th March, 1916, and is hereby promulgated for general information :—

ACT No. III OF 1916.

An Act to provide for the trial, by court-martial, of foreigners for offences against the Defence of India Rules.

WHEREAS it is expedient to provide for the trial, by court-martial, of foreigners for offences against the Defence of India Rules; It is hereby enacted as follows :—

Short title, extent and duration.

1. (*1*) This Act may be called the "Foreigners' (Trial by Court-martial) Act, 1916."

(*2*) It extends to the whole of British India, including British Baluchistan, the Sonthal Parganas, and the district of Angul.

(*3*) It shall be in force during the continuance of the present war and for a period of six months thereafter :

Provided that the expiration of this Act shall not affect the validity of anything done in pursuance of it, and any person convicted under this Act may be punished as if it had continued in force, and all prosecutions and other legal proceedings pending under this Act at the time of the expiration thereof may be completed and carried into effect and the sentences carried into execution as if this Act had not expired.

Definitions.

2. In this Act—

(*a*) "British subject" has the same meaning as in section 27 of the British Nationality and Status of Aliens Act, 1914 : 4 & 5 Geo. V., c. 17.

Provided that any person who holds a certificate of naturalization as a British subject granted under any Act of the Governor General in Council for the time being in force shall, for the purposes of this Act, be deemed to be a British subject.

(*b*) "Defence of India Rules" means any rules for the time being in force made under section 2 of the Defence of India (Criminal Law Amendment) Act, 1915. IV of 1915.

(*c*) "Foreigner" means any person who is not a British subject.

Trial of foreigners contravening rules under section 2 of the Defence of India Act, 1915.

3. (*1*) The Governor General in Council may, by order in writing, direct that a foreigner accused of anything which is an offence in virtue of the Defence of India Rules shall be tried by court-martial.

(2) An order made under sub-section (1) may be made in respect of all foreigners or any particular foreigner or any class of foreigners, and in respect of all offences against the said rules or any particular offence or any class of offences.

(3) An order made under sub-section (1) may be made in respect of, or include, any foreigner so accused whether such offence was committed before or after the commencement of this Act.

Procedure on making of order under section 3.

4. When an order under section 3 has been made in respect of, or includes, any foreigner, such foreigner, when so accused, may be taken into military custody, and shall, if he is already in other custody, be handed over to military custody, and shall be proceeded against and dealt with as if he was a person subject to military law in accordance with the Army Act, and as if the offence of which he is accused was an offence against military law; and may, on conviction, be sentenced to, and shall be liable to suffer, any punishment assigned by the Defence of India Rules for the offence of which he is found guilty. 44 & 45 Vict, c. 58.

Procedure on trial.

5. The trial and all matters precedent thereto and attendant thereon shall be held and carried out in accordance with the provisions of the Army Act and the rules for the time being in force thereunder: 44 & 45 Vict, c 58

Provided that the Governor General in Council may, by general or special order, modify, in such way as he may direct, any of the said provisions.

Repeal of Ordinance III of 1916.

6. The Foreigners' (Trial by Court-martial) Ordinance, 1916, is hereby repealed. III of 1916.

STATEMENT OF OBJECTS AND REASONS.

IN time of war the speedy and drastic punishment of acts by alien enemies injurious to the State and especially of offences relating to the collection and communication of information of such a nature as may be directly or indirectly useful to an enemy is a matter of great military importance. Accordingly, the Governor General recently promulgated an Ordinance providing that any person other than a British subject accused of an offence against the Defence of India Rules might be proceeded against and dealt with as if he were a person subject to Military Law in accordance with the Army Act, and as if the offence of which he was accused was an offence against Military Law. The Ordinance further provided that such person on conviction would be liable to suffer any punishment assigned by the Defence of India Rules for the offence of which he might be found guilty, and that the trial and all matters precedent thereto would be carried out in accordance with the provisions of the Army Act subject to any modifications which the Governor General in Council might direct.

This Ordinance will have currency for six months only, and the object of the present Bill is to make the provisions of the Ordinance operative for the period of the war and six months thereafter, as has already been done in the case of other Ordinances passed to deal with emergencies which have arisen out of the present war.

CALCUTTA, *the 20th March 1916.*

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 20th March 1916.

Summary.—No rain fell during the week. The weather was extremely hot and dry. The agricultural operations for the next autumn crops are being greatly hampered by the continued want of rain, especially in Western Bengal. The harvesting of the spring crops is proceeding. The cutting and pressing of sugarcane are nearly over and the planting for the next year's crop has commenced. Sowing of jute and autumn paddy is going on in the low lands of Eastern Bengal. The prospects and probable outturns of the standing spring crops are reported to be only fair on account of the drought. Scarcity of fodder and water is being felt in some districts of the Burdwan Division. Cattle-disease is reported from nine districts. The average price of common rice for the province rose by about 0·2 per cent. as compared with that of the previous week.

* The increase of ·35 mean mile is due to transfer of ·61 mile from siding to main line of B. A. K. Ry. on and from 1st March 1916.
(a) The increase is due to "Shiva Ratri" festival.
(b) Rupees 5,67,854 deducted being the rebate on coal, etc., for the quarter ended 31st December 1914. This adjustment was made in December 1914 instead of March 1915 in order to determine the percentage of working expenses chargeable to Tarkessur Branch Railway which has been incorporated with East Indian Railway from 1st January 1915.

Casual leave for any period up to a limit of fifteen days in twelve months, and leave on medical certificate for any period not exceeding a month may be granted by the Chairman, with or without pay and with or without the appointment of a substitute, to any officer or servant of the Board. The Chairman may also grant privilege leave for any period not exceeding a month in the case of employés of the Board drawing a salary of less than Rs. 50 a month. No other kind of leave may be granted except by the Board at a meeting.

Chairman's power to enter into contracts.

21E. The Chairman shall have power to enter into contracts relating to works and expenditure sanctioned by the Board, in respect of, or involving, sums not exceeding five hundred rupees in each case.

(2) After rule 23 the following shall be inserted, namely :—

Special meetings

23A. (1) The Chairman may, whenever he thinks fit, and shall, upon the written request of not less than two members, call a special meeting.

(2) A special meeting shall be called when it is necessary :—

(*a*) to consider the estimate of receipts and expenditure for the ensuing financial year, as prepared under rule 24 or a revised estimate of the same, as prepared under rule 28;

(*b*) to alter the scale of the establishment or salaries;

(*c*) to award any pension or gratuity from the Board's funds;

(*d*) to move the Local Government, under section 4 (*l*) of the Act, to declare any area to be a mining settlement;

(*e*) to raise any loan on the security of the Board's property or income;

(*f*) to elect or remove a Vice-Chairman.

Quorum at special meetings.

23B. The quorum at a special meeting of the Board shall be four, or half the total number of members whichever is less.

Notice of special meeting to consider annual estimates.

23C. The notice of the special meeting for the consideration of the estimate of receipts and expenditure for the ensuing financial year shall be accompanied by a copy of the draft estimate.

Adjourned meetings

23D. (1) At an adjourned meeting no other business than that which was left unfinished at the original meeting shall be transacted.

(2) An adjourned meeting, being merely a continuation of the original meeting, shall not require any fresh notice.

Allowances.

23E. Every member of the Board shall be entitled to travelling allowance at the rates fixed for officers of the first class under the Civil Service Regulations in respect of each meeting which he attends from the beginning to the end thereof, or for such period as the person presiding thereat may consider sufficient to justify the payment of the allowance.

Receipts.

23F. Receipts for money received under the Act shall be signed by the Chairman, Vice-Chairman, or (when a Secretary has been appointed) the Secretary of the Board.

Radha Raman Kar *versus* Radha Kissore Kar.

TO be peremptori y sold pursuant to an order, dated the 15th day of December 1915, and made in suit No. 61 of 1905, in the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction wherein Radha Raman Kar is the plaintiff decree-holder and Radha Kissore Kar is the defendant judgment-debtor by the Sheriff of Calcutta in his sale-room on the ground-floor of the Court-house by public auction on Friday, the 28th April 1916, at 12 o'clock noon, the undermentioned properties belonging to the defendant Radha Kissore Kar :—

1. The undivided one-eighth share of the defendant in all that partly two-storied and partly three-storied brick-built messuage, tenement or dwelling-house, together with the piece or parcel of revenue-free land belonging thereto measuring about 14 cottahs, situate, lying at and being premises No. 107, Shambazar Street, in the town of Calcutta, and butted and bounded on the north by Kaloopuker Lane, on the east by Shambazar Street, on the south by premises Nos. 108 and 109, Shambazar Street, and on the west by premises Nos. 1 and 2, Sham Square East. So far as it appears from a search in the Calcutta Registry Office there are no encumbrances affecting the above property except the following :—

(1) Mortgage of one-fourth share in premises No. 107, Shambazar Street, executed by Radha Kissore Kar in favour of Nibaran Chandra Mukherjee of No. 13, Lukhy Narain Mukherjee's Lane, for Rs. 1,00 · at Rs. 18 per cent. per annum payable monthly with quarterly rests and repayable on 7th July 1914 and registered in book 1, volume 2, pages 21 to 27, being No. 17 of 1914 and dated 7th January 1914.

(2) Agreement for sale of one-fourth share in the premises No. 107, Shambazar Street, executed by Radha Kissore Kar, in favour of Sreemutty Pankajini Dabee, wife of Upendra Nath Gupta, of No. 35-7, Gulu Ostagar Lane, for Rs. 2,750 registered in book 1, volume 14, pages 187 to 189, being No. 537 of 1914 and dated the 17th day of January 1914.

(3) Mortgage of one-fourth share in premises No. 107, Shambazar Street, executed by Radha Kissore Kar, in favour of the said Pankojini Dabee for Rs. 500. at Rs. 12 per cent. per annum by monthly instalments and repayable on 17th August 1914 and registered in book 1, volume 19, pages 117 to 120, being No. 538 of 1914 and dated 17th day of January 1914.

(4) Mortgage of one-fourth share in premises No. 107, Shambazar Street, executed by Radha Kissore Kar, in favour of Purna Chandra Ghose, of No. 35, Bancharam Occur's Lane, for Rs. 2,000 at Rs. 18 per cent. per annum payable by equal monthly instalments and repayable on 30th June 1916 and registered in book 1, volume 36, pages 270 to 273, being No. 2331 of 1915 and dated 13th June 1915.

2. The right, title and interest of the defendant being the two-fifths share in the copyright of the Bengali medical book " Bhisak Bandhu."

3. The right, title and interest of the defendant being the one-fifth share in the copyright of the Bengali medical book " Bhaisajya Ratnabali."

The sum for the recovery of which the sale has been ordered is Rs. 6,012-14-3 besides the costs of execution.

The condition of sale may be seen at the office of the Sheriff of Calcutta on the ground-floor of the High Court on any day before the sale and will be produced at the sale.

N.B.—By a decree made in suits Nos. 976 of 1913 and 566 of 1915 and dated the 3rd August 1915, the said Radha Kissore Kar is declared to be entitled to a two annas share in the said premises No. 107, Shambazar Street.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 16th March, 1916, and is hereby promulgated for general information :—

ACT NO. VI OF 1916.

An Act further to amend the Indian Ports Act, 1908.

WHEREAS it is expedient further to amend the Indian Ports Act, 1908; It is hereby enacted as follows :— XV of 1908.

1. This Act may be called the Indian Ports (Amendment) Act, 1916. Short title.

2. In section 4, sub-section (*1*) of the Indian Ports Act, 1908 (hereinafter called the said Act), the words "with the previous sanction of the Governor General in Council" shall be omitted. XV of 1908. Amendment of section 4, Act XV of 1908.

3. In section 5, sub-section (*b*) of the said Act, the words "with the previous sanction of the Governor General in Council and" shall be omitted. Amendment of section 5, Act XV of 1908

4. In section 6, sub-section (*1*) of the said Act, the following amendments shall be made,— Amendment of section 6, Act XV of 1908.

(*1*) After clause (*j*) the following clause shall be inserted, namely :—

"(*jj*) for regulating the use of piers, jetties, landing places, wharves quays, warehouses and sheds when belonging to the Government, and for fixing the rates to be paid for the use of the same;"

(*2*) In clause (*k*) after the word "port" the words "and for licensing and regulating the crews of any such vessels," and after the word "passengers" the words "or of the crew" shall be inserted; and at the end of the same clause, the following shall be added, namely :—"and may by such rules provide for the fees payable in respect of any such license and in the case of passenger vessels plying for hire, for the rates of hire to be charged and the conditions under which such vessels shall be compelled to ply for hire, and further for the conditions under which any license may be revoked;"

5. In section 34 of the said Act, the following amendments shall be made, namely :— Amendment of section 34, Act XV of 1908

(*i*) After sub-section (*1*) the following sub-section (*2*) shall be inserted, namely :—

"(*2*) Notwithstanding anything in sub-section (*1*), the owner or master of a vessel which is by that sub-section required to have a pilot, harbour-master or assistant of the port officer or harbour-master on board, shall be answerable for any loss

or damage caused by the vessel or by any fault of the navigation of the vessel, in the same manner as he would have been if he had not been so required by that sub-section :

Provided that the provisions of this sub-section shall not take effect till the first day of January, 1918, or such earlier date as the Governor General in Council may notify in that behalf in the Gazette of India."

(*ii*) The existing sub-sections (2), (3) and (4) shall be re-numbered (3), (4) and (5), respectively.

(*iii*) In the existing sub-section (3) for the word and figures "(1) and (2)" the word and figures "(1), (2) and (3)" shall be substituted.

Amendment of section 33, Act XV of 1908

6. In section 33 of the said Act, the following amendments shall be made, namely :—

(*i*) In sub-section (1) after the figure (1), the following shall be inserted, namely :—

"Subject to the provisions of sub-section (2),"

(*ii*) After sub-section (1), the following sub-section (2) shall be inserted, namely :—

"(2) The Local Government may, by notification in the local official gazette, alter or add to any entry in the First Schedule relating to ports within its own province, and this power shall include the power to regroup any such ports :

Provided that, if any such alteration or addition has the effect of increasing the port-dues in any such port, such alteration or addition shall require the sanction of the Governor General in Council."

(*iii*) In the existing sub-section (2) the words "with the previous sanction of the Governor General in Council" and the words "with the like sanction," shall be omitted, and to the same sub-section, the following proviso shall be added, namely :—

"Provided that, except with the sanction of the Governor General in Council, the rates and the times so declared shall not be respectively higher or shorter than the maximum rate and the shortest time specified and fixed in the First Schedule for any port in the province."

(*iv*) The existing sub-sections (2), (3) and (4) shall be re-numbered (3), (4) and (5), respectively.

Amendment of section 34, Act XV of 1908.

7. In section 34 of the said Act, after the words "The Local Government may" the words "after consulting the authority appointed under section 36" shall be inserted ; and for the words "the vessels" the following shall be substituted, namely :—"subject to such conditions, if any, as it thinks fit to impose, any vessel or class of vessels"; and after the word "them" the words "or may extend the periods for which any vessel or class of vessels entering a port shall be exempt from liability to pay port-dues" shall be added.

Amendment of section 35, Act XV of 1908.

8. In section 35, sub-section (1) of the said Act, the proviso shall be omitted.

Amendment of section 36, Act XV of 1908

9. In section 36 of the said Act, sub-section (3) shall be omitted.

Amendment of section 37, Act XV of 1908.

10. In section 37, sub-section (2) (*a*) of the said Act, for the words "with the previous sanction" the words "subject to the control" shall be substituted.

Insertion of new sections 68A and 68B in Act XV of 1908.

11. After section 68 of the said Act, the following sections shall be inserted, namely :—

Authorities exercising jurisdiction in ports to co-operate in manœuvres for defence of port.

"68A. Every authority exercising any powers of jurisdiction in, or relating to, any port to which this Act for the time being applies shall, if so required by an officer authorised by general or special order of the Governor General in Council in this behalf, co-operate in such manner, as such officer may direct, in carrying out any manœuvres in connection with any scheme or preparations for the defence of the said port in time of war, and for this purpose shall, if so required, temporarily place at the disposal of such officer the services of any of its staff and the use of any of its vessels, property, equipment or other material :

Provided, firstly, that if any vessels are placed at the disposal of such officer in accordance with this section, the Government of India shall, in respect of the period during which they are so at his disposal, bear the running expenses of such vessels, and be responsible for any damage thereto.

Explanation.—The expression 'running expenses,' in this proviso, includes all outlay incurred in connection with the use of the vessels other than any charges for their hire, or for the wages of the officers and crews of such vessels :

Provided, secondly, that any officer making a requisition under this section shall exercise his powers in such a way as to cause as little disturbance to the ordinary business of the port as is compatible with the exigencies of the efficient carrying out of the manœuvres :

Provided, thirdly, that no suit or other legal proceeding shall lie against any authority for any default occurring by reason only of compliance with a requisition under this section.

Duties of the said authorities in an emergency.

68B Whenever the Governor General in Council is of opinion that an emergency has arisen which renders it necessary that the duties imposed for the purposes specified in section 68A on the authorities therein mentioned, or other duties of a like nature should be imposed on such authorities continuously during the existence of the emergency, he may, by general or special order, authorise any officer to require the said authorities to perform such duties until the Governor General in Council is of opinion that the emergency has passed, and the said authority shall comply accordingly, and the provisions of the said section shall apply subject to the following modification, namely :—

The Government of India shall pay any authority, on whom a requisition has been made, such compensation for any loss or damage attributable to such requisition, and for any services rendered or expenditure incurred in complying therewith as, in default of agreement, shall be decided to be just and reasonable, having regard to the circumstances of the case, by the arbitration of a person to be nominated in this behalf by the Governor General in Council, and the decision of such person shall be final."

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 16th March, 1916, and is hereby promulgated for general information :—

ACT No. VII OF 1916.

An Act to regulate the grant of titles implying qualifications in western medical science, and the assumption and use by unqualified persons of such titles.

WHEREAS it is expedient to regulate the grant of titles implying qualifications in western medical science, and the assumption and use by unqualified persons of such titles; It is hereby enacted as follows :—

1. This Act may be called the Indian Medical Degrees Act, 1916.

Short title.

2. In this Act "western medical science" means the western methods of Allopathic medicine, Obstetrics and Surgery, but does not include the Homœopathic or Ayurvedic or Unani system of medicine.

Definition.

3. The right of conferring, granting, or issuing in British India degrees, diplomas, licenses, certificates or other documents stating or implying that the holder, grantee, or recipient thereof is qualified to practise western medical science, shall be exercisable only by the authorities specified in the Schedule and by such other authority as the Governor General in Council may, by notification in the Gazette of India, and subject to such conditions and restrictions as he thinks fit to impose, authorize in this behalf.

Right to confer degrees, etc.

4. Save as provided by section 3, no person in British India shall confer, grant, or issue, or hold himself out as entitled to confer, grant, or issue any degree, diploma, license, certificate or other document stating or implying that the holder, grantee or recipient is qualified to practise western medical science.

Prohibition of unauthorised conferment of degrees, etc.

5. Whoever contravenes the provisions of section 4 shall be punishable with fine which may extend to one thousand rupees; and if the person so contravening is an association, every member of such association, who knowingly and wilfully authorises or permits the contravention, shall be punishable with fine which may extend to five hundred rupees.

Contravention of section 4.

6. Whoever voluntarily and falsely assumes, or uses any title or description or any addition to his name implying that he holds a degree, diploma, license or certificate conferred, granted or issued by any authority referred to in section 3, or recognized by the General Council of Medical Education of the United Kingdom, or that he is qualified to practise western medical science shall be punishable with fine which may extend to two hundred and fifty

Penalty for falsely assuming or using medical titles.

rupees, or, if he subsequently commits, and is convicted of, an offence punishable under this section, with fine which may extend to five hundred rupees:

Provided that nothing in this section shall apply to the use by any person of any title, description, or addition which, prior to the commencement of this Act, he used in virtue of any degree, diploma, license or certificate conferred upon, or granted or issued to him.

Cognizance of offences.

7. No Court shall take cognizance of an offence punishable under this Act, except upon complaint made by order of the Local Government, or upon complaint made, with the previous sanction of the Local Government, by a Council of Medical Registration established by any enactment for the time being in force in the province.

Jurisdiction of Magistrates.

8. No Court inferior to that of a Presidency Magistrate or a Magistrate of the first class shall try any offence punishable under this Act.

The Reports on the Administration of the Calcutta Corporation for the years 1912 13 and 1913-14 and the Government Resolution No. 374T.—M., dated the 6th June 1913, recorded on the report of the year 1911-12.

THIS resolution deals with the affairs of the Corporation of Calcutta during the three years ending on 31st March 1915, the fifth triennium during which the municipal administration of Calcutta has been carried on under

the provisions of the Act of 1899. The period under review is perhaps the most eventful through which the municipality as now constituted has passed. On the 1st April 1912 Calcutta ceased to be the headquarters of the Government of India. It is among the most satisfactory features of the past three years that apprehensions at first entertained as to the effect of this change on the municipal resources are completely falsified by a constant increase in the rateable value of the city and in municipal revenue. The creation of the Improvement Trust, the operations of which may be said to have begun during the period under review, has imposed on the Corporation an annual charge of about Rs. 8 lakhs. The existence of this body has opened up an entirely new field of city improvement, while at the same time the experience of these three years has determined the lines on which co-operation between the Trust and the Corporation will best proceed for the relief of congested and insanitary areas. The difficulties with regard to the Sinking Fund which were discussed with some prominence in the last resolution have been overcome, and the Sinking Fund established on a sound financial basis by the Calcutta Municipal Loans Act, IV of 1914. Finally the Corporation was faced in the closing months of the year 1914 with the strained economic situation consequent on the outbreak of war, and while curtailment in expenditure and in the raising of loans was the only course compatible with cautious administration of municipal finances in these circumstances, municipal revenues remained unshaken and attained in fact to a higher figure in the year 1914-15 than in any previous year.

The radical reforms in the constitution of the Calcutta Municipal Corporation, which, it is hoped, will before long engage the attention of the Legislative Council, lie outside the scope of the following review.

2. **Elections.**—The fifth general election of Ward Commissioners under the present Act was held on the 23rd March 1915. There were 38,412 voters with 95,492 votes, as against 35,852 voters with 87,135 votes in 1912.

Eleven wards only were contested, and the proportion of votes cast to voting power in the contested wards rose from 42 per cent. in 1912 to 57 per cent. The Muhammadan and Armenian communities, which held one place each among the Ward Commissioners elected in 1912, failed to secure representation in the new body of Ward Commissioners. Only two Muhammadan candidates stood for election, of whom one withdrew. The problem of Muhammadan representation among elected Commissioners is one of the most difficult among those under consideration in connection with the amendment of the Calcutta Municipal Act.

3. **Bye-Laws.**—There has been constant activity in the adaptation of bye-laws and rules to new requirements. Particular attention has been paid to theatres. Two special inspectors have been appointed for enforcement of the Theatre Bye-laws. All theatres in Calcutta have been inspected by the Chief Officer of the Fire Brigade with reference to their precautions against fire, and structural improvements, where found necessary, have been vigorously insisted on—the most important being the provision of a fire-proof curtain which now appears in three theatres and will be enforced in all. The Corporation remains powerless, however, to abate the nuisance of late performances, despite incessant prosecutions, on account of the inadequate penalty imposed by the existing law. Bye-laws relating to sanitary conditions in the sale of food were enforced more carefully and amended to provide for the keeping of all food in proper receptacles and to control places where drugs are kept or sold. The building regulations have been amended. Declarations have been published extending the area from which huts and shops are excluded and prohibiting the storing of hides except within certain prescribed areas in the outlying parts of the town, and widening the application of the Fire Brigade and Warehouse Act. Amendments have been made in the rules of business, and rules have been sanctioned prescribing the qualifications necessary for employment in the Building, Engineering and Health Departments of the Corporation. Important amendments of the Provident Fund Rules were under the consideration of the Corporation, including a proposal for an increase in the rate of compulsory subscription, and these have since been sanctioned by Government.

4. **Accounts.**—The resolution on the reports for the three years ending with 1911-12 referred to the inadequacy of the valuation of the block of Corporation property then made for the purpose of determining the true surplus of the assets of the Corporation over its liabilities. This statement has been entirely revised since the year 1912-13. The Governor in Council desires to express his appreciation of the fact that a valuation has been completed and is now being maintained; and that the Corporation possess a statement which shows in an intelligible form the value of the Corporation assets. The balance-sheet now furnishes a fairly reasonable approximation to the true value of the assets, although in the case of some items, such as sewers and fixed machinery, it is not very clear whether the valuation given can be said to correspond to any actual market-value.

5. The accounts have been prepared on the basis of receipts and payments as well as on that of income and expenditure, and the result under each system compared with that of 1911-12 is shown below :—

	On basis of receipts and payments.	On basis of income and expenditure.
	Rs.	Rs.
Balance on 31st March 1912 ...	+26,83,761	+18,34,827
Balance on 31st March 1915 ...	+36,08,267	+27,32,550

The recurring receipts rose from Rs. 91,27,640 in 1911-12 to Rs. 1,05,79,232 in 1914-15, or by nearly 16 per cent., and recurring charges from Rs. 82,69,662 to Rs. 1,00,56,100, or by 21·6 per cent., as against an increase of 20·3 per cent. in receipt and 12·0 per cent. in payments during the three years ending the 31st March 1912. These results are particularly satisfactory in view of the apprehensions previously expressed that it would be unsafe to count on any further rise in the consolidated rate. There has been an increase during the period under review of Rs. 56 lakhs in the rateable value of the city, of which Rs. 26 lakhs is due to the assessment of new and improved buildings, and the balance to revaluation. The early recovery of the land market from the disturbances ensuing on the removal of the headquarters of the Government of India has been shown in the increased prices subsequently realized by the Corporation by the sale of surplus lands. The operations of the Improvement Trust have had very slight effect upon municipal income, while contributions, amounting to over Rs. 23 lakhs, have been made to the Trust during the past three years without increased taxation.

6. The constant increase in revenue balances appears to be due largely to a defect in budget procedure. No provision is made for the savings on allotments in the budget estimates of the Corporation, and the budget is not, therefore, a true indication of the actual expenditure that is likely to be incurred. As a result the expenditure of the year falls largely below the estimates, and there is a consequent constant addition to the balance. While these balances have proved an opportune resource in the face of the sudden curtailment of borrowing necessitated by the war, the Governor in Council cannot regard it in normal circumstances as a healthy characteristic of municipal finance, and trusts that business-like measures will be taken by the Corporation to ensure immediate expenditure of income on present needs rather than continued accumulation of balances. With due provision for savings on estimates it should be possible to include in the expenditure schemes which for the apparent want of funds have to be postponed, and this would at the same time show more clearly the normal necessary expenditure of the Corporation. It is by no means clear that the accretion of these unspent funds is the result of calculated and deliberate economies. On the contrary the increase in recurring charges has outstripped the increase in recurring revenue to a remarkable degree. The percentage of cost of establishment to total payments, after a slight decrease at the beginning of the period, has in the year 1914-15 risen again to the figure recorded in 1911-12 (21·6)—the total charges on this account exceeding those of any previous year.

7. **Loans.**—The sum borrowed by the Corporation during the three years ending 1914-15 amounted to Rs. 41,22,000. Sanction was accorded by

the Government of India in August 1912 to the raising of a loan of Rs. 34 lakhs, on an assurance being given that the Corporation would raise the consolidated rate, if necessary, for its service, and subject to conditions communicated after the sanction of the loan. These conditions, however, it was found impossible to apply after the issue of the loan, and necessary safeguards were subsequently embodied in the Calcutta Municipal Loans Act (Bengal Act IV of 1914). The sanction of Government was obtained in 1914 to a loan of Rs. 35¾ lakhs. In view of the unfavourable state of the money market consequent on the war, debentures were issued to the public at a fixed price (Rs. 98-8), instead of following the usual procedure of inviting tenders. Debentures to the extent of Rs. 7,22,000 were issued in this way during the year 1914-15, and a further Rs. 13,94,300 subsequent to its close. Issue of the balance has been suspended under the orders of Government, and the Governor in Council anticipates that the paramount claims of the State on the money-market in the present circumstances must curtail further borrowing by the Corporation so long as war conditions last.

The net indebtedness of the Corporation on the 31st March 1915, excluding the amount held in the Sinking Fund, was Rs. 4,59,52,235 as against Rs. 4,38,63,133 on the 31st of March 1912, representing an increase of Rs. 20,89,102 during the period under review, as against an increase of about Rs. 60 lakhs during the previous three years.

8. **Sinking Fund.**—The financial position of the Sinking Fund was the most serious problem outstanding at the close of the year 1911-12. The law then existing provided for an annual contribution to the Fund of 1 per cent. on the unrepaid balance of all moneys borrowed on debentures after the 1st April 1881. On this basis it was calculated that the amount of any particular loan would be credited to the Fund in 47 years, assuming the Sinking Fund to accumulate at 3 per cent., whereas the term of the loans did not in any case exceed 30 years and the contribution to the Sinking Fund of 1 per cent. of its amount ceased on repayment. Six loans, the full amount of which had not been credited to the Fund under the system described, were repaid from this source up to the end of 1911-12, and with each repayment the Sinking Fund was approaching nearer to depletion.

The Calcutta Municipal (Loans) Act, IV of 1914, amending the Calcutta Municipal Act, III of 1899, provided for the recoupment of the shortage in the Sinking Fund due to these repayments, and reconstituted the Fund on a sound financial basis for the future. Under this Act a separate Sinking Fund will be established for every loan subsequently raised, and repayments will be made either wholly from this Fund or partly from this source and partly from new borrowings. This Sinking Fund will be credited with half-yearly payments of a sum calculated to accumulate at compound interest on a rate to be fixed by the Government of India to the full value of the loan by the date for its repayment. It was estimated that on the 30th June 1914, there would be a deficit of Rs. 11,30,118 in the Sinking Fund in respect of loans previously raised, and to recoup this deficit the Corporation is required to pay Rs. 1,32,000 annually in half-yearly instalments of Rs. 66,000 for a period of ten years from the 1st July 1914. In addition the Corporation is to make half-yearly payments amounting to four per cent. per annum on all sums taken out of the Sinking Fund before the 31st March 1914 to repay past loans, these payments continuing in each case until the expiry of a period of 47 years from the date on which the particular loan was raised. The old contribution of 1 per cent. on outstanding loans remains, but future repayment of loans from both the old and the new Sinking Fund is limited to the amount credited on account of each loan, and the balance will be met by renewed borrowing.

The balance at the credit of the Sinking Fund on the 31st March 1915 was Rs. 40,14,179 as against Rs. 19,64,367 on the 31st March 1912.

9. Occasion was taken of the Amending Act rendered necessary by the state of the Sinking Fund to introduce other important modifications into the law governing the issue of debentures by the Corporation. Formerly loans could only be raised for the construction of permanent works or repayment of debt. They are now made legal for the construction of works

under the Calcutta Municipal Act, for the acquisition of land for the purposes of the Act, and for repayment of debts to Government or of previous loans. A loan not exceeding Rs. 5,00,000 for a period up to thirty years now requires the previous sanction only of the Local Government and not, as before, of the Government of India. Expenditure from loan funds on establishment other than that employed exclusively on loan works is prohibited. Finally, it is expressly laid down in accordance with the interpretation by the Advocate-General of section 131 of the Act (III of 1899) that the legal borrowing capacity of the Corporation is to be calculated on the gross rateable value of the city. One-tenth of the annual gross valuation of the city, exclusive of municipal properties and land and buildings exempted from taxation, is the limit fixed by law of charges year by year on account of the service of loans which the Corporation can incur.

10. The rateable valuation of the city on the 1st April 1915 was Rs. 4,21,01,080, and the limit of loan charges which the Corporation may incur was accordingly Rs. 42,10,108 at the end of the period under review. The amount payable on the same date for the service of outstanding loans was Rs. 30,29,191, leaving a margin of Rs. 11,80,917 for the service of fresh loans, a small fraction of which has since been absorbed by further issues of the Rs. 35¾ lakhs loan of 1915. The Corporation calculate that on these figures, assuming the rate of interest to be 4 per cent. and the Sinking Fund contribution to be 1 per cent., the limit up to which further borrowing would be legal, is Rs. 2,36,18,000. This figure is extremely artificial. For practical purposes, however, the limit of the Corporation's borrowing capacity is the balance available annually, by excess of ordinary income over ordinary expenditure to meet loans charges.

11. **Assessment.**—In accordance with the recommendations of the Reorganization Special Committee of 1911-12, the functions of Assessor and Surveyor were divided, and separate departments established in October 1912. The continued growth in the valuation of this city is sufficient evidence of the wisdom of this arrangement and of the continued efficiency of the Assessment Department as reconstituted. Particular attention has been paid during the period under review to the matter of vacancy remissions, the percentage of which on the gross demand has decreased from 3·7 in 1912-13 to 3 per cent. in 1914-15. The General Committee express a misgiving that assessments are made in an arbitrary manner and valuation enhanced without sufficient reasons. After careful examination of the proportion and results of objections and appeals during the past three years the Governor in Council agrees with the Corporation that apprehensions entertained as to the general equity and reasonableness of the works of the Assessment Department may be dispelled.

12. **Collection.**—The Collection and License Departments continue to maintain a record of high efficiency, as shown by the percentages of collection detailed in the margin. The Collection Department are not responsible for reduction from gross to nett demand, due to cancellations for vacancy, and the latter percentage is the fair basis for comparison. Both departments are to be congratulated in particular, on the steady returns maintained during the year 1914-15. Considering the economic disturbance prevalent in Calcutta which followed the outbreak of war, a decrease of only 2·2 per cent. in receipts for the tax on trades and professions speaks well for the hold maintained in this sphere by the License Department.

13. **Survey.**—The maintenance of the maps of Calcutta and its neighbourhood has been the subject of prolonged discussion. Subsequent to the period under review a scheme has been sanctioned for five years for the topographical maintenance of the maps of the municipal area at a cost of Rs. 6,000 per year, to be borne equally by the Corporation, the Improvement Trust, and Government. Meanwhile Government have under consideration the question

of providing for a more thorough maintenance of the maps of Calcutta by amendment of the Calcutta Survey Act. Distinct from this scheme is that for revision of the maps of the Added Area as a preliminary to their maintenance. The Improvement Trust agreed in 1913 to bear the whole cost of the revision at an estimate of Rs. 55,000. On this estimate being increased to Rs. 89,000 the Improvement Trust restricted demarcation to their own immediate requirement, and the Corporation are in consultation with the Director of Surveys as to how far this will suffice for the purposes of subsequent maintenance.

14. **Bustees.**—Various improvements have been effected in a large number of bustees, the chief among them being construction of roads, drainage, clearance of spaces, filling up of insanitary tanks and wells, and conversions of service into connected privies. Particular attention has been paid to the question of suitable privy arrangements in bustees. After experiments with model service privies it cannot be said that any effective substitute has been found for the conversion of bustee privies into connected privies. The difficulty met with on the score of inability of bustee-owners to bear the expense involved has been mitigated by the decision of the Corporation to contribute to the cost of the improvement, the capitalised value of the mothers' wages saved by conversion of the privies. In the first nine years of its existence ending with the year 1914-15 the Bustee Department has opened up 12 miles of bustee road, about 7 miles of which have been sewered and channelled. During the past three years, an area of 100 bighas has been entirely cleared of insanitary bustees, apart from removals for road construction; and alignment has been prescribed under sections 37 and 37A of Schedule XVII of 78 isolated bustee areas. A number of private bustee streets have been improved under section 361, Calcutta Municipal Act.

15. **Water-supply.**—The scheme for the improvement of the filtered water-supply of Calcutta connected with the construction of the new overhead reservoir at Talla has now been working since May 1911, and the time has come to take stock of its results. In brief it may be said that while the productive power of the scheme has exceeded expectations, the difficulty of excess consumption has rendered this a less final solution of the problem of the supply of filtered water to the city than had been anticipated. The quantity of filtered water supplied in March 1911 averaged 28 million gallons per day. In March 1913 and during the years 1913-14 and 1914-15, the supply has averaged over 35 million gallons a day. The maximum daily supply provided for in the scheme, which, it was thought, would not be required before 1930, is 40 million gallons. Judging, however, by present consumption, this standard cannot be too soon attained, and measures have been taken for the increase of pumping capacity both at Palta, where the water is taken in from the river, and at Talla, where it is raised for distribution to the city. At the latter station a new steam turbine engine has been recently erected but delivery of new plant at Palta has been delayed by the war.

Notwithstanding this increase in the quantity of filtered water available, it has not been found possible to maintain a high pressure supply throughout the day. The average consumption per head of population during the past three years has been 32·8 gallons, and it is estimated that the present demand would amount to about 66 million gallons per day if high pressure were to be maintained throughout the 24 hours.

Waste of water is the most perplexing problem with which the Water Supply Committee are faced in connection with the filtered supply. The amount of loss due to leakage on the large mains and distribution pipes has now been fairly accurately ascertained, and appears to amount to no more than the average quantity unaccounted for in most water-works. It is significant that of approximately 3,000 meters working in 1914-15, over 1,200 showed an excess consumption of nearly 300,000 gallons per day, or Rs. 36,500 worth of water during the year. The increase in the quantity of filtered water which can be supplied under the present system will end at 40 million gallons a day, and with increase, in supply proportionately greater wastage now seems inevitable. The provision of an unlimited supply of filtered water would involve an enormous capital outlay, but if waste cannot

be diminished by more extensive metering or by other means the Corporation will have to choose between burdening their finances with expenditure on this object due largely to the improvident householder and perpetuating the present conditions of fluctuating pressure which mar the efficiency of this branch of the municipal administration.

The quality of the filtered water appears to be excellent, and active attention has been paid to improvements in the conditions of the intake station at Palta and the method of treatment of the water. Supply of filtered water has been extended to South Dum-Dum, and five suburban municipalities as well as the cantonments of Barrackpore and Dum-Dum now receive their filtered water from the Corporation works. The supply of unfiltered water has been increased to 24½ million gallons a day in 1914-15, and it is hoped that the installation of new pumping plant at the Watgunge station will do away with complaints still received of deficient pressure. The total length of pipes on the 31st March 1915 was 270 miles for unfiltered water and 363 miles for filtered, as against 249 miles and 357 miles, respectively, at the beginning of the period reviewed.

16. **Drainage.**—The most notable events connected with the drainage of Calcutta, during the past three years, have been the discovery in 1913 of the danger threatening the whole system, through the silting up of the river Bidyadhari and the completion in 1915 of the costly and troublesome scheme for the drainage of the canal or fringe area in the north-east of the city. The canal area drainage works were inaugurated at the opening of the Maniktala Pumping Station by His Excellency the Governor in January 1915. The project of draining this area direct to the Palmer's Bridge outfall, which has now been carried out, was sanctioned in 1907 and work was begun in the following year. The scheme for constructing new roads along the sewers was a subsequent addition sanctioned in 1910. The lengths of the main and branch sewers laid down are respectively about 3 miles and 11 miles; and 3 miles of roads, partly 60 feet and of 40 feet in width, have already been constructed out of a total length of 5 miles. About 126 bighas (42 acres) of bustee area has been acquired, huts removed, hollows and excavations filled up, and low-lying lands raised. The total cost of the project has been Rs. 44½ lakhs. The health of the neighbourhood has been appreciably improved; a damp and sparsely populated fringe has been converted into a convenient residential quarter, and the flooding of the low-lying parts of the town and Cornwallis Street and Amherst Street has been reduced as far as the general conditions of the drainage of Calcutta permit.

The whole of the sewage and the rain water of Calcutta, with the exception of a small surface system west of Tolly's Nalla, is discharged into the Bidyadhari river. In May 1913 Government informed the Corporation, as the result of observations made by Mr. Addams-Williams, that this river was rapidly silting up. A Committee was appointed by Government to consider alternative outfalls for the drainage of Calcutta and the treatment of the sewage. Observations up to the end of 1914-15 show that though the rate of silting is not so rapid as had been anticipated, the river was on the whole in a worse condition then than in 1913. Government have now under consideration a scheme generally approved by the Corporation for maintaining a deep-water channel as long as possible by scouring out the river by means of a spill area to be provided by the acquisition of a portion of the Salt Lakes. The purchase of new pumping plant for the Palmer's Bridge Station at a cost of Rs. 4 lakhs, which was decided on by the Corporation in 1911 with the object of securing the main sewers discharging into the Bidyadhari against tide-locking at all states of the tide, has been postponed in view of this new difficulty. A project for the surface drainage of Garden Reach was completed in 1912-13 and work began in the same year on the scheme for sewering the unsewered roads in Chetla, Alipore and Kidderpore at a cost of Rs. 7 lakhs, and 5½ miles of sewers, comprising about half the scheme, have been constructed. Little progress has been made with the scheme for surface drainage of Wards 19, 20, 21 and 22 sanctioned in 1906, partly owing to changes necessitated by the construction of a high-level goods line to the docks.

17. **Roads and Lighting.**—The Engineering Department have been much occupied during the past three years with experiments to ascertain the type of road surface best adapted to the peculiarly difficult conditions of present-day traffic in Calcutta. A material is needed which will withstand under tropical conditions fast and heavy motor vehicles, and the slow-moving narrow-tyred bullock cart, and at the same time afford an easy footing for a considerable volume of horsed traffic. Persistent use has been made of a tarmacadam designed in 1911 by the Chief Engineer, which has proved of great permanence. Trial lengths have also been laid in stone-setts, wood, concrete, vitrified brick and other patent materials. Some form of bituminous surface appears to be that best suited for ordinary traffic, but the Corporation have not yet decided which is the best form of paving where bullock-carts and motor lorries predominate.

Increased attention has been paid to road repairs, expenditure on which amounted to Rs. 8,12,000 in 1914-15 and Rs. 8,65,000 in 1913-14 as against Rs. 6,32,000 in 1912-13. A comprehensive scheme for the paving of footpaths with Indian Patent Stone sanctioned in 1911 was practically completed by the end of the year 1914-15 at a total cost considerably below the estimate of Rs. 12 lakhs.

The lighting of the city during the period under review has been carried out under a contract with the Oriental Gas Company, which came into force in March 1912. The Company supply the gas, and the duties of lighting and maintenance have been undertaken by the Lighting Department of the Corporation. Disputes as to the interpretation of the contract have been settled by arbitration, and the new system has worked efficiently and economically, the yearly saving on the cost of the quantity of gas provided under the former arrangements amounting to over one lakh of rupees. At the end of the year 1914-15 the number of gas lamps in the city was 11,900 as against 10,059 at the end of the year 1911-12, and the average hourly consumption of gas by all classes of lights had been increased. Experiments were made with electric lighting in the Fringe Area and in Camac Street and Ballyganj Circular Road, and a large number of high power electric lamps have recently been installed in the Chowringhee Road.

18. **Conservancy.**—The record of this branch of municipal administration for the past three years shows maintenance of an existing, and not wholly adequate, standard, rather than accomplishment of any radical improvement. The conservancy authorities have disposed efficiently, within the limits of the present system, of approximately 400,000 tons of street refuse a year. The practice of depositing refuse in the streets at all hours continues unchecked in certain quarters, and while it must be long before the masses can be induced spontaneously to co-operate in preserving the cleanliness of the town, the Corporation might well pursue a more pronounced and energetic campaign against this abuse.

The municipal refuse railway still disfigures the Lower Circular Road and endangers the health of the neighbourhood. The Corporation after consideration of various alternatives have decided to introduce motor traction for the removal of refuse from the city—a measure which will make it possible for the refuse railway to be placed at a safe distance outside its boundaries. Owing to the war, however, the manufacturers have been unable to supply the lorries ordered, and over 100 truck-loads of street refuse continue to pass daily along one of the main arteries of Calcutta.

19. **Hackney Carriage and Tramways.**—The number of hackney carriages licensed by the Corporation has decreased from 3,626 in 1911-12 to 3,060 in 1914-15, partly on account of the rapid growth of motor cab traffic during this period. There has been some improvement in the condition of carriages and horses with a consequent decrease in the number of prosecutions. Proposals for an amendment of the Calcutta Hackney Carriage Act with a view to extending and amplifying the control exercised by the Corporation are under the consideration of Government in definite shape. The Tramways Company have worked in general agreement with the Corporation on questions of policy, and action has been taken by the Company on the representation of the Corporation to minimise the inconvenience caused

by track repairs in crowded streets and to remedy defective portions of the tracks ; while both bodies have had under consideration measures for the prevention of accidents to horsed vehicles and to passengers. No extension of the tramway service has taken place during the period under review, pending consideration by the Improvement Trust of the directions in which urban expansion would be most suitably promoted. Rapid and efficient communications must be an indispensable element in the process of opening out and re-housing, on which the Improvement Trust are engaged, and the Governor in Council regards the development of the tramway system in co-operation with the municipal authorities, as a matter of the highest importance for the development of the municipal and suburban areas of Calcutta.

	Birth-rate per mille.	Death-rate per mille.
1912 ...	21·6	28·1
1913 ...	20·5	29·2
1914* ...	19·4	28·3

*These rates exclude still-births.

20. **Health.**—The general health of the city remains good despite an increase in the average death-rate over that of the previous years.

The appearance of a decline in the birth-rate, and of increasing mortality among women and infants are perplexing features of the vital statistics of the three years under review. The death-rate among infants in their first year rose continuously from 251 per thousand in 1911 to 282·7 per thousand in 1914 ; and among women from 35·8 per thousand in 1911 to 39·4 in 1913, falling to 38·5 per thousand in 1914. The Governor in Council is inclined to suspend judgment as to how far these apparent tendencies correspond with facts, until it can be more definitely determined what degree of error is attributable to defect in registration of births and would view with interest the results of any experiment for testing the relative degree of mortality among the different classes of a small and typical section of the population, that could be conducted without undue intrusion upon the household life of the quarter selected. The problem of affording a healthier life for women and infants with due regard to the customs and circumstances of an Indian city population is one to be approached with the utmost delicacy and care. Its ultimate solution can lie only in the slow permeation of hygienic ideas in the home; but cautious energy on the part of the female sanitary staff, and the development of suburban residential areas, where space and movement can be more easily had without disturbance of privacy, appear to be the directions in which municipal action is most likely to be successful. It is disappointing to find that comparatively little use has yet been made of the Corporation midwives, although statistics show relatively fewer infantile deaths among cases which they have attended. The lady Health visitor exercises a growing and beneficial influence among country "dhais," and these are now provided free of cost with boxes containing surgical scissors and dressings and instructed in their use.

	Plague.	Small-pox.	Tuberculosis.
1912	1,831	77	1,931
1913	852	120	2,196
1914	442	1,038	2,137

The decline in the mortality from plague has continued with remarkable rapidity. For the first time since the appearance of the disease, Calcutta was declared free from plague from December 1914 until the following April. The lowest number of deaths previously recorded was 1,262 in 1910, and in comparison with past returns plague may now be said almost to have ceased to figure as an important factor in the vital statistics of the city. After a quiescent period of four years there was a recrudescene of small-pox in 1914. A study of the vital statistics of previous years enabled the Health Officer to predict both the occurrence of this outbreak and its character as the forerunner of a more serious epidemic in the following year; and precautionary measures were taken from the beginning of the year 1914. A new danger has come into prominence through the disqieting increase in tuberculosis, and the Corporation have had under consideration proposals for the establishment of a tuberculosis hospital with assistance from Government. The scheme is at present held in abeyance for financial reasons. The mortality during the past three years from cholera and malaria averaged, respectively, 1,997 and 1,284 per year, with no marked tendency towards becoming epidemic.

The Corporation have made energetic use of the powers vested in them under the present law for dealing with adulteration of food-stuffs, and no less than 160 tons of unwholesome food-stuffs were destroyed in the year 1914-15. The question of strengthening these powers and remedying defects of the law found in practice is under consideration in connection with the amendment of the Calcutta Municipal Act. The milk supply of Calcutta has been the subject of special enquiry. The main lines of improvement in view are the removal of dairies from the town to country districts outside, provision for the transport of milk, and the establishment of municipal dairy farms.

21. **Education.**—The aggregate amount of educational charges incurred by the Corporation has increased steadily from Rs. 51,644 in 1911-12 to Rs. 76,824 in 1914-15. This sum consists of aid given by way of grants or exemptions from rates to primary schools, and also to special and technical schools, and to libraries. A question has recently been raised as to the adequacy of the provision made by the Corporation under this head, and a special enquiry has been made on the state of education in Calcutta. The Governor in Council trusts that the Corporation will, as the outcome of this enquiry, earnestly consider their position as regards civic responsibility for the provision of educational facilities of a primary and technical nature, and examine in consultation with the educational authorities the adequacy and effectiveness of the present arrangements.

22. **Personnel.**—The Chairmanship was held by Mr. S. L. Maddox, I.C.S., C.S.I., from November 1910 till August 1913, when to the great regret of the Corporation he was compelled by continued ill-health to resign his office and go on long leave. Mr. S. W. Goode, I.C.S., acted in his place till October 1913, when the Hon'ble Mr. C. F. Payne, I.C.S., assumed charge. In April 1914 Mr. S. W. Goode resigned the appointment of Deputy Chairman which he had filled since March 1910, and was succeeded by Mr. S. K. Sawday, I.C.S. Babu Nilambara Mukherji, C.I.E., who had held the office of Vice-Chairman since 1896, retired in February 1914. His untiring energy and devotion to duty and his marked ability in the management of municipal finance were a great asset to the Corporation, and were rewarded, with the approval of Government, by a special pension of Rs. 1,000 a month. He was succeeded by Mr. R. Chatterjee.

The record of the three years' work is one of continued progress. The Corporation are to be congratulated on the full sense of civic needs and responsibilities which guides their deliberations; the officers of Corporation on their executive tact and enterprise in the direction of municipal affairs, and on the energy and success with which they have applied to an Indian metropolis the principles of urban sanitation and engineering. The Governor in Council tenders his cordial thanks to all who have co-operated in maintaining Calcutta in a condition worthy of its status as a provincial capital and of its commercial predominance among the cities of India.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 27th March 1916.

Summary.—During the week under report light scattered showers fell in a few places of the province. More rain is very urgently wanted everywhere for facilitating the ploughing for and the sowing of autumn crops. Summer rice and other standing spring crops and also the mango crop are badly in need of an early rainfall as their prospects are being seriously affected by continued drought. The sowing of jute and autumn paddy continues in the lowlands of Eastern Bengal. The harvesting of wheat and tobacco has commenced. The pressing of sugarcane is still proceeding at places. Cattle-disease is reported from eleven districts. Scarcity of fodder continues to exist in parts of the Noakhali and Bankura districts. Water-scarcity is reported from Burdwan, Bankura and Murshidabad. The average price of common rice for the province has risen by about 0·2 per cent., as compared with that of the previous week.
